## SUBOOS S360

# SUBOOS S360 LED Camping Lantern User Manual

Model: S360

## INTRODUCTION

---

This manual provides comprehensive instructions for the safe and effective use of your SUBOOS S360 LED Camping Lantern. Please read this manual thoroughly before operating the device and retain it for future reference.

## PACKAGE CONTENTS

---

Upon opening the package, verify that all items listed below are present and undamaged:

- 2 x SUBOOS S360 LED Camping Lanterns
- 6 x Duracell AA Batteries
- 1 x User Manual (this document)
- 1 x Warranty Card

## SETUP

### Battery Installation

1. Locate the battery compartment cover at the bottom of the lantern.
2. Twist the cover counter-clockwise to open it.
3. Insert three (3) AA batteries into the compartment, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and twist clockwise to secure it.

## OPERATING INSTRUCTIONS

---

### Turning On/Off and Brightness Adjustment

The SUBOOS S360 lantern features a simple pull-up mechanism for activation and brightness control.

1. To turn on the lantern, gently pull the top section upwards from the base. The light will illuminate.
2. To adjust brightness, continue pulling the top section further upwards for increased brightness, or push it downwards to decrease brightness.
3. To turn off the lantern, fully collapse the top section back into the base until the light extinguishes.

### Using the Integrated Hook and Magnetic Base

The lantern offers versatile placement options:

- **Integrated Hook:** Extend the metal handles upwards to form a hook. This allows the lantern to be hung from branches, tent poles, or other suitable fixtures.
- **Magnetic Base:** The base of the lantern contains strong magnets. Attach the lantern securely to any metallic surface, such as a car hood, toolbox, or metal frame, for hands-free illumination.

## MAINTENANCE

### Cleaning

To clean the lantern, wipe its exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the lantern in water.

### Battery Replacement

When the light output diminishes, it is time to replace the batteries. Follow the "Battery Installation" steps in the Setup section to replace the three (3) AA batteries. Always replace all three batteries at the same time with new ones for optimal performance.

### Storage

If the lantern will not be used for an extended period, remove the batteries to prevent leakage and store the lantern in a cool, dry place.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Lantern does not turn on.	Batteries are incorrectly installed.	Check battery polarity and reinsert correctly.
	Batteries are depleted.	Replace with new AA batteries.
	Lantern is not fully extended.	Pull the top section of the lantern upwards until it illuminates.
Light is dim.	Batteries are low.	Replace with new AA batteries.
	Lantern is not fully extended.	Extend the lantern fully for maximum brightness.

## SPECIFICATIONS

Feature	Detail
Model Number	S360
Light Source	COB LED
Brightness	200 Lumens
Color Temperature	6000 Kelvin
Beam Angle	360 degrees
Power Source	3 x AA Batteries (per lantern)
Battery Life	Up to 16 hours
Material	Acrylonitrile Butadiene Styrene (ABS)
Water Resistance	Water-repellent
Dimensions (Collapsed)	8.5 cm (Diameter) x 12 cm (Height)
Dimensions (Extended)	8.5 cm (Diameter) x 18 cm (Height)
Weight (per set)	730 grams
