## 4. MAINTENANCE

To ensure the longevity and cleanliness of your building set, please follow these maintenance tips:

- **Cleaning:** The building bricks are made of ABS material. To clean, gently wipe with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic.
- **Storage:** Store the assembled set or individual bricks in a clean, dry place away from direct sunlight and extreme temperatures. This helps prevent discoloration and material degradation.
- **Handling:** While durable, avoid excessive force when connecting or disconnecting bricks to prevent damage.

## 5. TROUBLESHOOTING

If you encounter any issues during assembly or discover missing parts, please follow these steps:

### 5.1 Missing Parts

1. **Check Surroundings:** First, verify if the missing piece has fallen on the floor or is stuck within the packaging materials.

2. **Review Previous Steps:** Examine the previously completed assembly steps to ensure no 'wrong blocks' were used or if a piece was mistakenly placed in an incorrect location.
3. **Contact Support:** If parts are still missing after completing the above checks, please refer to the "Warranty & Support" section for contact information.

*Remember, the instruction manual highlights the current step in color, with previous steps shown in white, which can help in identifying assembly errors.*
