## 1. INTRODUCTION

---

Thank you for choosing the Gdrasuya10 16-Cube Modular Shoe Organizer. This manual provides essential information for the safe assembly, operation, and maintenance of your new shoe storage solution. Please read these instructions carefully before beginning assembly and retain them for future reference.

## 2. SAFETY INFORMATION

---

To ensure safe use of this product, please observe the following precautions:

- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Ensure all connections are securely fastened during assembly. Periodically check connections for tightness.
- Do not overload the shelves. Refer to the specifications section for weight limits.
- Place the organizer on a flat, stable surface to prevent tipping.
- Avoid climbing on or hanging from the unit.
- Do not expose the product to direct sunlight or extreme temperatures, as this may cause material degradation.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

| Part           | Description                                  | Quantity                  |
|----------------|--|---------------------------|
| Modular Panels | Polypropylene panels forming the cube walls. | (Varies by configuration) |
| Connectors     | Plastic connectors for joining panels.       | (Varies by configuration) |
| Doors          | Transparent doors for each cube.             | 16                        |
| Hanging Rods   | Optional rods for hanging items.             | (If included)             |
| Mallet         | Small mallet for securing connections.       | 1                         |

*Note: The exact number of panels and connectors will depend on the chosen configuration (e.g., 16 cubes).*

## 4. ASSEMBLY INSTRUCTIONS

---

This modular shoe organizer is designed for easy assembly. Follow these steps to construct your unit.

### 4.1. Planning Your Layout

The modular design allows for various configurations. Plan your desired layout (vertical, horizontal, or a combination) before starting. Ensure you have enough space for the assembled unit.

# Free Expansion

Figure 2: Example of vertical and horizontal expansion possibilities.

## 4.2. Connecting Panels

1. **Prepare Panels:** Lay out the square and rectangular panels on a clean, flat surface.
2. **Attach Connectors:** Insert the edges of the panels firmly into the slots of the plastic connectors. Ensure the panels are fully seated within the connectors.
3. **Secure Connections:** Use the provided mallet to gently tap the connectors, ensuring a tight and stable fit. A secure connection is crucial for the stability of the entire unit.
4. **Build Cubes:** Continue connecting panels to form individual cubes. Each cube typically requires 4 side panels, 1 back panel, and 1 front panel (if using doors).

*Figure 3: Detail of a single cube unit.*

### **4.3. Assembling the Structure**

1. **Stacking Cubes:** Once individual cubes are formed, begin stacking them according to your planned layout. Use connectors to join adjacent cubes.
2. **Adding Doors:** Attach the transparent doors to the front of each cube. The doors typically clip into the connectors or have a simple hinge mechanism.
3. **Adjustable Shelving:** For taller items like boots, internal shelves can be removed to create larger compartments. Simply detach the desired internal panel.

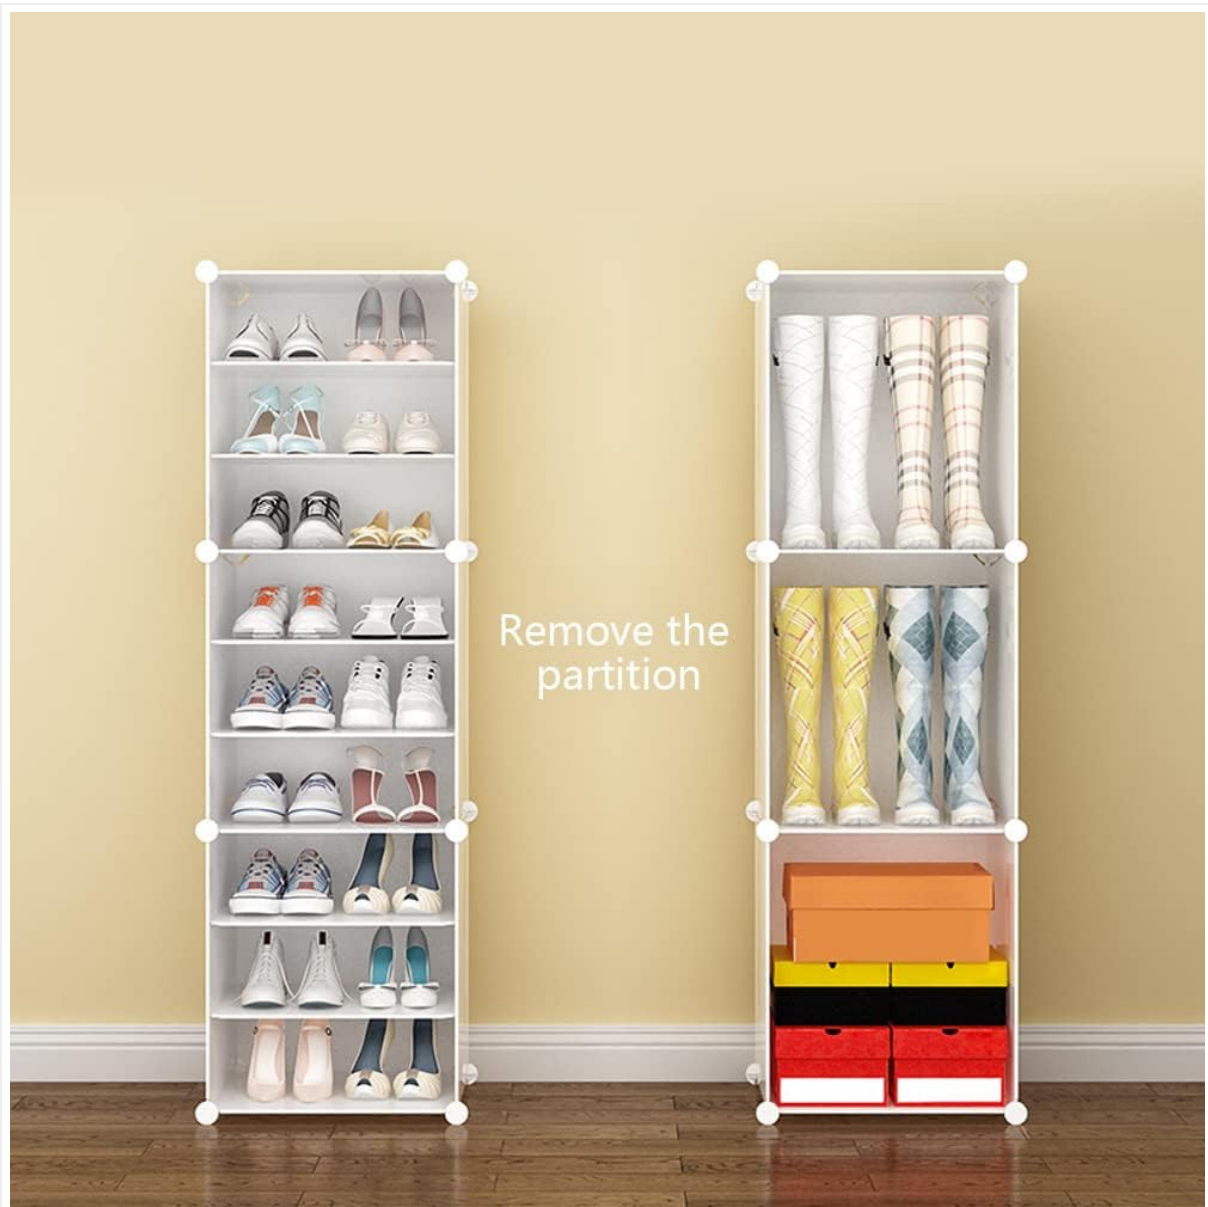

Figure 4: Demonstrating adjustable shelving for boots.

Figure 5: Different configurations for various shoe types.

## 5. USAGE

The Gdrasuya10 16-Cube Modular Shoe Organizer is designed for storing shoes and other lightweight items. Its transparent doors allow for easy visibility and access to your stored items.

- **Capacity:** Each cube can typically store 6 pairs of shoes, allowing for a total capacity of up to 96 pairs for a 16-cube unit.
- **Versatility:** Suitable for use in bedrooms, closets, entryways, or any area requiring organized storage.
- **Adjustable Storage:** Customize the internal space by removing shelves to accommodate taller footwear like boots.

Figure 6: The organizer in a typical usage scenario.

## 6. MAINTENANCE

To keep your shoe organizer in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surfaces with a damp cloth. Avoid using abrasive cleaners or harsh chemicals, as they may damage the material.
- **Inspection:** Periodically check all connections and components for any signs of wear or loosening. Re-tighten connections as needed.
- **Storage:** If disassembling for storage, ensure all parts are clean and dry before packing. Store in a cool, dry place.

## 7. SPECIFICATIONS

| Feature | Detail                         |
|---------|--------------------------------|
| Brand   | Gdrasuya10                     |
