HOOMIC Queen Size Bed Frame Instruction Manual

Model: HMUBQ424

INTRODUCTION

Thank you for choosing the HOOMIC Queen Size Bed Frame. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

Important Safety Warnings:

- Do not exceed the maximum weight recommendation of **800 lbs**. Exceeding this limit may cause structural failure and injury.
- Always follow the assembly instructions carefully to prevent instability or collapse. Incorrect assembly can lead to serious injury.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten all connections.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Assemble the bed frame on a soft, clean surface (like a carpet) to avoid scratching the product or your floor.
- It is recommended that two adults assemble this bed frame.

The headboard is 60 inches wide and 48 inches high, with a 10-inch gap from the top of the side rail to the bottom of the headboard. The bed frame stands 14 inches high from the floor, with 8 inches of under-bed clearance.

ASSEMBLY INSTRUCTIONS

Please follow these steps carefully for proper assembly. All necessary tools are included in the package. Do not fully tighten all bolts until the final steps to allow for adjustment.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Compare them with the parts list in your manual to ensure all pieces are present.
2. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided hardware. Ensure the geometric wingback headboard is facing the correct direction.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard.
4. **Install Center Support Beam:** Secure the center support beam to the designated points on the headboard and footboard, or to the side rails as per your specific model's diagram. Attach any center support legs to this beam.
5. **Place Wooden Slats:** Unroll or place the wooden slats across the bed frame. The sturdy wooden slats are designed to support your mattress directly, eliminating the need for a box spring. Many slats feature a Velcro design for easy and secure placement, and EVA foam to prevent noise.

MAINTENANCE

To ensure the longevity and appearance of your HOOMIC bed frame, follow these maintenance guidelines:

- **Cleaning Fabric:** The upholstered headboard and frame should be spot cleaned only. Use a damp cloth with mild soap for any stains. Avoid harsh chemicals.
- **Frame Cleaning:** For the metal and wooden components, wipe with a dry or slightly damp cloth.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent damage to the wood and fabric.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame,

especially those connecting the side rails, headboard, and footboard, as well as the center support legs. Ensure slats are properly seated and not rubbing against metal parts.

- **Instability/Wobbling:** This is typically due to uneven assembly or loose hardware. Disassemble and reassemble the affected sections, ensuring all parts are aligned correctly and all fasteners are fully tightened. Verify that the bed frame is on a level surface.
- **Missing Parts:** If you find any parts missing upon unboxing, please contact HOOMIC customer support immediately for assistance.
