## DELTA T11859-SS

# Delta Faucet Trinsic 3-Setting Matte Black Shower System

Model: T11859-SS | Brand: DELTA

## 1. PRODUCT OVERVIEW

---

The Delta Faucet Trinsic 3-Setting Matte Black Shower System provides a comprehensive showering experience. This system integrates a shower head, shower arm, shower handle, a 3-setting diverter, a wall-mount handheld shower, a wall elbow, and all necessary valves for installation. Designed for both functionality and aesthetic appeal, it features H2Okinetic Technology for enhanced water coverage and a Monitor Pressure-Balanced Valve Cartridge for consistent temperature control.

## **Key Features:**

- **Complete System:** Includes shower head, shower arm, shower handle, 3-setting diverter, wall-mount handheld shower, wall elbow, and all required valves.
- **H2Okinetic Technology:** Delivers 3 times more coverage than a standard shower head, creating a unique wave pattern and larger water droplets for an intense and warm shower experience.
- **3-Function Diverter:** Offers two individual positions and one shared position, allowing selection of shower head only, handheld shower only, or both simultaneously.
- **Wall-Mount Hand Shower:** Provides a steady, full-coverage spray, suitable for various showering needs.
- **Monitor Pressure-Balanced Valve Cartridge:** Ensures consistent shower temperature by balancing hot and cold water pressure, preventing sudden temperature changes.

**H2OKINETIC<sup>®</sup>  
TECHNOLOGY**

**3X**

**MORE COVERAGE  
THAN A STANDARD  
SHOWER HEAD\***

\*Coverage measured in accordance with  
EPA WaterSense<sup>®</sup> Specification for  
shower heads, March 4, 2010

## Installation Notes:

- The system includes the necessary rough-in valves for installation.
- The Monitor Pressure-Balanced Valve Cartridge is pre-installed or included for installation within the main valve body.
- Refer to the detailed installation guide provided in the product packaging for step-by-step instructions specific to your model.

### 3. OPERATING INSTRUCTIONS

---

Your Delta Faucet Trinsic Shower System offers flexible control over water flow and temperature. Familiarize yourself with the main control handle and the 3-setting diverter.

#### Temperature and Flow Control:

- The main handle controls both water flow and temperature.
- Rotate the handle to adjust the water temperature from cold to hot.
- Pulling the handle outwards typically initiates water flow, and pushing it in stops the flow.

#### 3-Setting Diverter Operation:

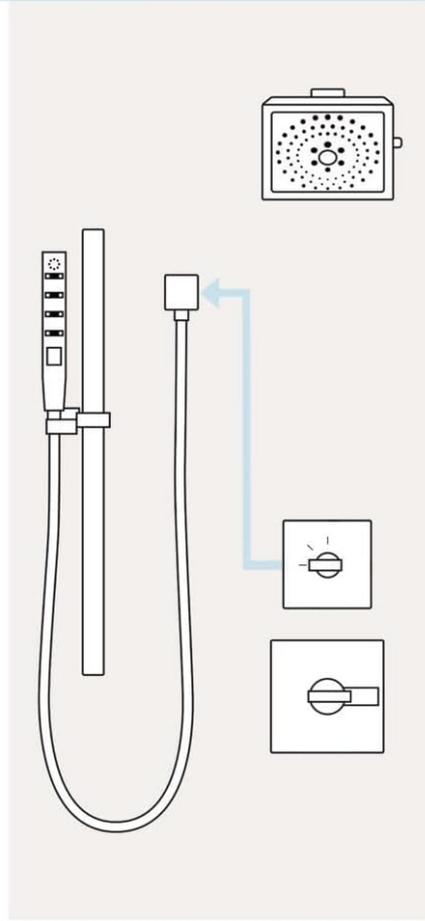

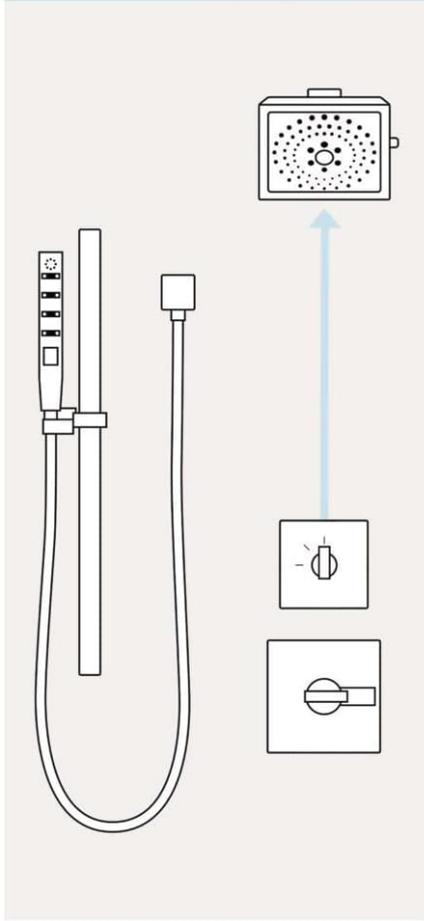

The diverter allows you to select the water output source. It features three distinct positions:

1. **Shower Head Only:** Directs water solely to the overhead shower head.
2. **Handheld Shower Only:** Directs water solely to the wall-mount handheld shower.
3. **Shared Position (Both):** Allows water to flow from both the shower head and the handheld shower simultaneously.

# 3-SETTING INDIVIDUAL DIVERTER

## 2 INDIVIDUAL POSITIONS

## 1 SHARED POSITION

## 4. MAINTENANCE AND CARE

---

Proper care and maintenance will ensure the longevity and optimal performance of your Delta Faucet Trinsic Shower System. The matte black finish is durable but requires gentle cleaning.

### Cleaning Instructions:

- Use a soft, damp cloth and mild soap to clean the surfaces.
- Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the matte black finish and other components.
- Regularly wipe down the shower head nozzles to prevent mineral buildup, which can affect spray patterns.
- For stubborn water spots, a solution of equal parts white vinegar and water can be applied with a soft cloth, then rinsed thoroughly.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your Delta Faucet Trinsic Shower System, refer to the common troubleshooting tips below. For more complex problems, contact Delta Faucet customer support.

### Common Issues:

- **Low Water Pressure:** Check if the main water supply is fully open. Inspect shower head and handheld nozzles for mineral buildup and clean if necessary.
- **Inconsistent Water Temperature:** Ensure the Monitor Pressure-Balanced Valve Cartridge is correctly installed. If the issue persists, the cartridge may need inspection or replacement.
- **Leaks:** Check all connections for tightness. If leaks occur from the handle or diverter, the internal seals or cartridge may require attention.
- **Diverter Not Switching Properly:** Ensure the diverter handle is fully engaged in each position. Mineral buildup can sometimes impede smooth operation.

If these steps do not resolve the issue, please consult a qualified plumber or contact Delta Faucet customer service.

## 6. SPECIFICATIONS

---

Detailed specifications for the Delta Faucet Trinsic 3-Setting Matte Black Shower System, Model T11859-SS.

Feature	Specification
Brand	DELTA
Model Number	T11859-SS
