- **Volume Down (-) / Previous Track Button:** Decreases volume or goes to the previous sound.

- **Play/Pause Button:** Plays or pauses the current sound.
- **Timer Button:** Activates or adjusts the sleep timer.
- **Bluetooth Indicator:** Shows Bluetooth connection status.
- **Timing Indicator:** Shows timer status.
- **Battery Level Indicator:** Displays current battery charge.
- **USB Type-C Jack:** For charging the device.

# 5. SETUP

## 5.1 Charging the Device

Before first use, fully charge your Kipcush E1 using the provided USB Type-C cable. Connect the cable to the device's Type-C jack and a compatible USB power source. The battery level indicator will show charging status.

## 5.2 Powering On/Off

To power on the device, press and hold the Power On/Off button until the power/pairing indicator flashes blue three times. To power off, repeat the process.

## 5.3 Bluetooth Pairing

The Kipcush E1 is designed to connect with Bluetooth audio devices, primarily Apple earphones. Follow these steps to pair your device:

1. Turn on your Bluetooth headphone device (e.g., Apple AirPods) and ensure it is in pairing mode. This is usually found on your earphone's charging case.

2. With the E1 transmitter powered on, press and hold the **PAIR** button until the Bluetooth indicator blinks blue, indicating it is in 'ready to pair' mode.

3. Briefly press and hold both the **PAIR** button on the E1 and the pairing button on your headphone device until the Bluetooth light on the E1 stays solid blue.

4. Once successfully paired, you will hear a sound confirming the connection. The E1 will automatically connect to this device in the future.

**Designed for Apple**

Supported devices:

■ AirPods   ■ AirPods 2   ■ AirPods 3   ■ AirPods Pro   ■ AirPods Max

## 6. OPERATING THE DEVICE

### 6.1 Sound Selection

The Kipcush E1 offers 20 high-fidelity soothing sounds, including white noise, fan noises, natural sounds, and water stream sounds. Use the **Volume Up (+)** / **Next Track** button to skip to the next sound, and the **Volume Down (-)** / **Previous Track** button to go to the previous sound.

*Image: Visual representation of the 20 soothing sounds available on the Kipcush E1, including natural and fan noises.*

## 6.2 Volume Control

Adjust the volume using the **Volume Up (+)** and **Volume Down (-)** buttons. The device has up to 32 volume level settings.

## 6.3 Play/Pause

Press the **Play**/**Pause** button to start or stop the current sound.

## 6.4 Timer Function

The Kipcush E1 includes timer functions at 15, 30, 60, 90, and 120-minute intervals. Tap the**Timer** button to cycle through the available timer settings. The timing indicator will turn green when a timer is successfully set. To turn off the timer, press the **Timer** button until the timing indicator turns off.

## 7. MAINTENANCE

- Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

- Ensure the USB Type-C port is free from dust and debris.

## 8. Troubleshooting

| Problem | Solution |
|---------|----------|
| Device does not power on. | Ensure the device is fully charged. Press and hold the Power On/Off button for a few seconds. |
| Cannot pair with Bluetooth earphones. | Ensure both the E1 and your earphones are in pairing mode. Make sure your earphones are not connected to another device. Re-enter pairing mode on both devices if necessary. |
| No sound or low volume. | Check the volume level on both the E1 and your connected earphones. Ensure the devices are properly paired. |
| Sound quality is poor. | Ensure the E1 is within range of your Bluetooth earphones. Avoid obstacles that may interfere with the signal. |
| Timer function not working. | Ensure the Timer button is pressed correctly to select a duration. The timing indicator should light up green. |
