3. Setup and Installation

3.1 Installing the Phone Case

1. Ensure your Coolpad Haylo CP3320AS2 phone is clean and free of dust or debris.
2. Align the phone with the bottom section of the case, ensuring the charging port and speaker cutouts match.
3. Gently press the phone into the case, starting from one corner and working your way around, ensuring all edges are securely seated within the case's frame.
4. Verify that all buttons (power, volume) and ports (charging, headphone jack) are accessible and functional through the case's precise cutouts.

3.2 Attaching the Universal Sticker Stand

1. Clean the desired surface on the back of your phone case where you wish to attach the stand. Ensure it is dry and free of oil or dust.
2. Peel off the protective backing from the adhesive side of the PhoneTastic Universal Sticker Stand.
3. Carefully position the stand on the cleaned surface, pressing firmly for several seconds to ensure strong adhesion.
4. Allow the adhesive to set for a few minutes before using the stand.

4. Operating Instructions

Once installed, the PT Lining Brush Hybrid Cover Phone Case allows full access to all phone features and functions. The case provides an enhanced grip and a protective barrier against daily impacts and abrasions.

The universal sticker stand can be used to prop your phone up in landscape or portrait orientation, providing a convenient viewing angle for media consumption, video calls, or hands-free operation. Simply adjust the stand to your desired angle.

5. Maintenance and Care

To maintain the appearance and integrity of your phone case, follow these simple care instructions:

- Clean the case regularly with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these may damage the case material or finish.
- If the case becomes wet, dry it thoroughly before re-installing your phone.

6. Troubleshooting

If you encounter any issues with your PT Lining Brush Hybrid Cover Phone Case, consider the following:

- **Case Fit:** Ensure that your phone is indeed a Coolpad Haylo CP3320AS2 model. This case is specifically designed for this model. Incorrect phone models may result in a poor fit or obstructed ports/buttons.
- **Button Responsiveness:** If buttons are stiff or unresponsive, gently re-seat the phone within the case to ensure proper alignment.
- **Stand Adhesion:** If the universal sticker stand loses adhesion, ensure the surface it was applied to was clean and dry. Re-application may require new adhesive if the original has lost its stickiness.
