3.2 Pairing with Your Device

- Automatic Power On & Pairing:** Open the charging case and remove both S6 earbuds. They will automatically power on and attempt to pair with each other.
- Activate Bluetooth:** On your mobile phone or other Bluetooth-enabled device, go to the Bluetooth settings and turn on Bluetooth.
- Select "S6":** In the list of available Bluetooth devices, search for and select "S6" to connect.

4. **Confirmation:** Once connected, you will hear an audible confirmation, and the earbuds will be ready for use.
5. **Automatic Reconnection:** After the initial successful connection, the S6 earbuds will automatically connect to the last paired device when removed from the charging case.

Auto Pairing

When you pick the earbuds out of the charging case, they'll automatically connect to the last paired device

When put them back, they shut down and recharge

4. OPERATING INSTRUCTIONS

4.1 Wearing the Earbuds

The Bluedio S6 earbuds feature earhooks for a secure and comfortable fit, especially during physical activities. Gently place the earbud into your ear canal and adjust the earhook over your ear until it feels stable and comfortable.

DESIGNED FOR SPORTS

With flexible earhooks & soft silicone eartips, perfect for doing exercise

4.2 Touch Controls

The S6 earbuds are equipped with smart touch controls on each earbud for easy management of music and calls. Refer to the following table for common operations:

Action	Function
Single Tap (L/R)	Play/Pause Music, Answer/End Call
Double Tap (Right Earbud)	Volume Up
Double Tap (Left Earbud)	Volume Down
Triple Tap (Right Earbud)	Next Track
Triple Tap (Left Earbud)	Previous Track
Press and Hold (2 seconds)	Reject Call
Press and Hold (5 seconds)	Power On/Off
Press and Hold (1 second)	Activate Voice Assistant

Image: Visual guide to the touch control functions on the Bluedio S6 earbuds.

4.3 Call Management

With the built-in microphone, you can easily manage calls directly from your earbuds without needing to access your phone.

- **Answer Call:** Single tap either earbud.
- **End Call:** Single tap either earbud during a call.
- **Reject Call:** Press and hold either earbud for 2 seconds.

NEVER MISS IMPORTANT CALLS

No need to stop and search
your phone, now you can answer
phones calls with simple touch
of the earbuds

5. MAINTENANCE

5.1 Charging the Earbuds and Case

To charge the earbuds, place them back into the charging case. The earbuds will automatically begin charging. The LED display on the case shows the individual battery levels of the left and right earbuds, as well as the case's remaining power. To charge the case, connect it to a USB power source using the provided Type-C cable.

- Earbuds playtime on a single charge: Approximately 9 hours.
- Total playtime with charging case: Up to 42 hours.
- Charging time for case: Approximately 2 hours.

Image: Icons illustrating key features: LED battery display, 600mAh charging case, and Type-C charging port.

5.2 Cleaning and Storage

To ensure longevity and optimal performance, regularly clean your earbuds and charging case. Use a soft, dry, lint-free cloth to wipe down the surfaces. For the eartips, you may remove them and clean with a damp cloth, ensuring they are completely dry before reattaching. Store the earbuds in their charging case when not in use to protect them from dust and damage.

- Avoid using abrasive cleaners or solvents.
- Do not submerge the earbuds or case in water. While water-resistant, they are not designed for submersion.
- Keep away from extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your Bluedio S6 earbuds, please refer to the following common solutions:

6.1 Earbuds Not Pairing with Each Other or Device

- Ensure both earbuds are fully charged.
- Place both earbuds back into the charging case, close the lid, wait a few seconds, then open the lid and remove them again. This often resets the pairing.
- On your device, forget or delete "S6" from your Bluetooth device list. Then, repeat the pairing process from Section 3.2.
- Ensure your device's Bluetooth is enabled and within range (typically 10 meters/33 feet).

6.2 No Sound or Low Volume

- Check the volume level on both your earbuds (using touch controls) and your connected device.
- Ensure the earbuds are properly seated in your ears and the eartips provide a good seal.
- Try playing different audio sources to rule out an issue with the specific media.
- Reconnect the earbuds by placing them in the case and taking them out again.

HIGH-QUALITY STEREO SOUND

13mm dynamic drivers, provides authentic, strong stereo sound quality

Before

After

Image: An internal view of the earbud, highlighting the 13mm dynamic drivers responsible for high-quality stereo sound.

6.3 Charging Case Not Charging

- Verify the USB Type-C cable is securely connected to both the case and the power source.
- Try a different USB port or power adapter.
- Ensure the charging cable is not damaged.
