## PawHut D00-144RD

# PawHut 2-In-1 Dog Bike Trailer & Stroller User Manual

Model: D00-144RD

## INTRODUCTION

---

Thank you for choosing the PawHut 2-In-1 Dog Bike Trailer and Stroller. This versatile product is designed to provide a safe and comfortable way to transport your pet, whether you're cycling or walking. Please read this manual thoroughly before assembly and use to ensure proper operation and the safety of your pet.

## SAFETY INFORMATION

---

- Always ensure your pet is securely harnessed inside the carrier before use. A safety harness is included for this purpose.
- Do not exceed the maximum weight recommendation of **20 kg**.
- Ensure all wheels are properly attached and secured before each use.
- When using as a bike trailer, ensure the hitch connector is firmly attached to your bicycle's rear axle.
- The red flag and reflectors are for visibility. Always use them, especially in low light conditions.
- Be aware of the product's dimensions, especially its width (72.5 cm / 73 cm), when navigating doorways or narrow paths.
- Do not leave your pet unattended in the trailer/stroller.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- This product is suitable for medium-sized dogs up to 20kg, with a body length less than 60 cm and shoulder height less than 40 cm.

## PACKAGE CONTENTS

---

Please verify that all components are present before beginning assembly:

- Main Carrier Unit (1)

- Rear Inflatable Wheels (2)
- Universal Front Wheels (2)
- Handlebar (1)
- Bicycle Hitch Arm (1)
- Safety Flag (1)
- User Manual (1)

## SETUP AND ASSEMBLY

---

Assembly is required. Follow these steps carefully:

1. **Unfold the Main Carrier Unit:** Carefully unfold the main fabric carrier until it is fully extended and the frame locks into place.

Image: The main carrier unit in its assembled stroller configuration, ready for use.

2. **Attach Rear Wheels:** Insert the two large inflatable rear wheels into the designated slots on the back of the carrier frame until they click securely into place. Ensure they are firmly seated.
3. **Attach Front Wheels (Stroller Mode):** For stroller use, attach the two universal front wheels to the front axle. Ensure they swivel freely.
4. **Attach Handlebar (Stroller Mode):** Slide the handlebar into the receivers at the top rear of the carrier until it locks. Adjust to a comfortable height if adjustable.
5. **Attach Bicycle Hitch Arm (Trailer Mode):** For bike trailer use, attach the bicycle hitch arm to the front of the carrier. This arm will connect to your bicycle's rear axle. Ensure the connection is secure.

Image: Detail of the hitch connector that attaches the trailer to a bicycle's rear wheel axle. Suitable for bicycle wheel diameters between 24" and 28".

6. **Install Safety Flag:** Insert the safety flag into its designated slot on the carrier for increased visibility.
7. **Final Checks:** Before first use, double-check all connections, wheels, and locking mechanisms to ensure they are secure.

## OPERATING INSTRUCTIONS

### Using as a Dog Stroller

To use the unit as a stroller, ensure the universal front wheels are attached and the handlebar is in place. The bicycle hitch arm should be removed or secured out of the way.

- Open the front mesh door to allow your pet to enter.
- Secure your pet using the internal safety harness.
- Close the mesh door securely. The plastic curtain can be rolled down for wind protection.
- Push the stroller using the handlebar. The universal front wheels provide easy maneuverability.
- Always engage the wheel brakes when stationary.

Image: Demonstrates the product's dual functionality as both a pet stroller and a pet trailer.

### Using as a Dog Bike Trailer

To use the unit as a bike trailer, ensure the bicycle hitch arm is attached to the carrier and securely connected to your bicycle's rear axle. The universal front wheels should be removed or locked in an upright position if they interfere. The handlebar can be folded down or removed.

- Connect the hitch arm to your bicycle's rear wheel axle. Ensure the connection is tight and secure.
- Place your pet inside and secure them with the internal safety harness.
- Close the mesh door.
- Ensure the safety flag is upright and visible.
- Proceed with caution, especially when turning or braking, as the trailer adds length and weight to your bicycle.

## MAINTENANCE

- **Cleaning:** The fabric can be spot cleaned with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners. Allow to air dry completely before folding or storing.

- **Wheel Care:** Regularly check tire pressure on the inflatable rear wheels. Keep wheels clean and free of debris.
- **Storage:** For compact storage, the product features a foldable design with quick-release wheels. Remove the rear wheels and front wheels (if attached), fold the main unit flat, and store in a dry, cool place away from direct sunlight.

Image: The dog trailer folded flat with its quick-release wheels and hitch arm detached, illustrating its compact storage capability.

- **Inspection:** Periodically inspect all parts for wear, tear, loose fasteners, or damage. Replace any worn or damaged parts immediately.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Wheels wobble or are loose.	Wheels not fully engaged or quick-release mechanism not secured.	Ensure wheels are pushed firmly into place until they click. Check quick-release levers are tightened.

Problem	Possible Cause	Solution
Trailer/Stroller pulls to one side.	Uneven tire pressure or bent axle.	Check and adjust tire pressure on both rear wheels. Inspect axle for damage.
Difficulty folding for storage.	Locking mechanisms not disengaged.	Ensure all frame locking mechanisms are released as per assembly instructions in reverse.
Pet seems uncomfortable.	Lack of familiar bedding or insufficient space.	Add a comfortable blanket or pet bed. Ensure pet meets size requirements (less than 60 cm length, 40 cm shoulder height).
