Assembly Instructions

Follow the detailed instruction booklet provided with your kit. Each piece is designed for precise fit. Small amounts of modeling glue are required during the final steps of assembly to ensure durability and stability of the model.

1. Carefully detach each piece from the modeling sheets.
2. Refer to the instruction booklet for step-by-step visual guides.
3. Assemble the core structure of the TIE Fighter, ensuring all connections are secure.
4. Attach the solar array wings, using small amounts of glue as indicated in the instructions for final stability.
5. Mount the completed model onto the provided display stand.

Care and Maintenance

To preserve the quality and appearance of your paper model kit:

- Keep the model in a dry environment to prevent moisture damage to the paper.
- Avoid direct sunlight exposure to prevent fading of colors.

- Dust gently with a soft, dry cloth or a soft brush.
- Handle with care to prevent bending or tearing of paper components.

Display

The kit includes additional stands for displaying your finished TIE Fighter/LN model. Position the model on a flat, stable surface away from high-traffic areas to prevent accidental damage.
