1. PRODUCT OVERVIEW

The SUPVAN E10 & E11 Label Maker Tape is a genuine continuous laminated thermal label tape refill designed for use with SUPVAN E10 and E11 label makers. This tape provides durable, waterproof, and oilproof labels suitable for various organizational needs. Its smart RFID auto-detection feature ensures seamless integration and precise printing with compatible devices.

2. COMPATIBILITY

This label tape is specifically designed to be compatible with SUPVAN E10 and E11 label makers. It may also be compatible with other SUPVAN label maker models such as the E16.

Compatible with SUPVAN E10/E11/E16 Label Maker

Image: The label tape is compatible with SUPVAN E10, E11, and E16 label makers, shown alongside various colored label maker devices.

3. TAPE INSTALLATION

1. **Open the Label Maker Cover:** Locate the tape compartment cover on your SUPVAN E10 or E11 label maker and open it according to your device's specific instructions.
2. **Insert the Tape Cartridge:** Place the SUPVAN label tape cartridge into the compartment. Ensure it is seated firmly and correctly oriented. The tape's leading edge should extend slightly from the output slot.
3. **Close the Cover:** Close the tape compartment cover until it clicks into place.
4. **Automatic Detection:** The label maker features smart RFID auto-detection, which will automatically recognize the tape size and type upon installation. This helps prevent misalignment and minimizes waste.

For detailed visual instructions, refer to your label maker's specific user manual.

4. OPERATING INSTRUCTIONS

The SUPVAN E10 and E11 label makers are typically operated via a dedicated mobile application. Follow these general steps:

1. **Download the App:** Download and install the official SUPVAN label maker application on your smartphone or tablet.
2. **Connect via Bluetooth:** Turn on your label maker and enable Bluetooth on your mobile device. Pair the label maker with the app.
3. **Design Your Label:** Use the app's interface to design your label. You can input text, select fonts, add icons, and utilize various templates. The app offers a wide range of customization options.

4. **Preview and Print:** Preview your label design within the app. Once satisfied, select the print option. The label maker will then print your design onto the tape.
5. **Cut the Label:** Manually cut the printed label from the tape output slot using the integrated cutter on the label maker.

Your browser does not support the video tag.

Video: Demonstrates the use of a Bluetooth label maker, including app interface and printing process, for home, office, and school organization.

5. KEY FEATURES AND BENEFITS

- **Genuine SUPVAN Quality:** Constructed from multi-layer synthetic material, ensuring resistance to water, oil, and extreme temperatures. Offers an extended durability of up to 5 years.
- **BPA-Free & High Safety:** Complies with BPA-free standards, making it safe for labeling food, cosmetics, and other consumables, including baby products.
- **Highly Adhesive & Residue-Free:** Provides strong adhesion to various surfaces while being easy to remove without leaving sticky residue.
- **Smart RFID Auto-Detection:** Automatically detected by compatible label makers, ensuring correct size recognition, reducing misalignment errors, and minimizing tape waste through precise paper-feeding.

 **Water-proof**

 **Oil-proof**

 **Print Clearly**

 **No Residue**

6. APPLICATIONS

This label tape is versatile and suitable for a wide range of labeling tasks:

- **Home Organization:** Labeling storage bins, kitchen containers, spice jars, and personal items.
- **Office Use:** Organizing files, labeling drawers, managing equipment assets, and general office classification.
- **School & Education:** Creating name tags, sorting school supplies, labeling books, and personalizing items for students.

School Application

BPA Free & Safe Material

Image: Demonstrates school applications such as labeling notebooks, water bottles, and lunchboxes.

7. MAINTENANCE

- **Storage:** Store unused label tape cartridges in a cool, dry place away from direct sunlight and extreme temperatures to preserve adhesive quality and print integrity.
- **Handling:** Avoid touching the printing surface of the tape before printing to prevent smudges or oil transfer that could affect print quality.
- **Cleaning:** If the label maker's print head or tape path becomes dirty, refer to your label maker's manual for cleaning instructions. Do not attempt to clean the tape itself.

8. TROUBLESHOOTING

- **Poor Print Quality:** Ensure the tape is correctly installed and the label maker's print head is clean. Check the print density settings in the app.
- **Tape Jamming:** Verify the tape cartridge is properly seated. Remove any obstructions in the tape path. If the issue persists, try a new tape cartridge.
- **Label Not Sticking:** Ensure the surface is clean, dry, and smooth before applying the label. Avoid applying labels to heavily textured or oily surfaces.
- **Auto-Detection Failure:** If the label maker does not detect the tape, remove and reinsert the cartridge. Ensure it is a genuine SUPVAN tape with RFID.

9. SPECIFICATIONS

Product Name	SUPVAN E10 & E11 Label Maker Tape
Model Number	E10 Label (transparent)
Dimensions	0.59 inches (15mm) width x 19.7 feet (6m) length
Color	Black print on Transparent/Clear tape
Material Type	Multi-layer synthetic plastic
Features	Waterproof, Oilproof, High/Low Temperature Resistant, BPA-free, Strong Adhesive, Residue-Free, Smart RFID Auto-Detection
Durability	Up to 5 years extended durability

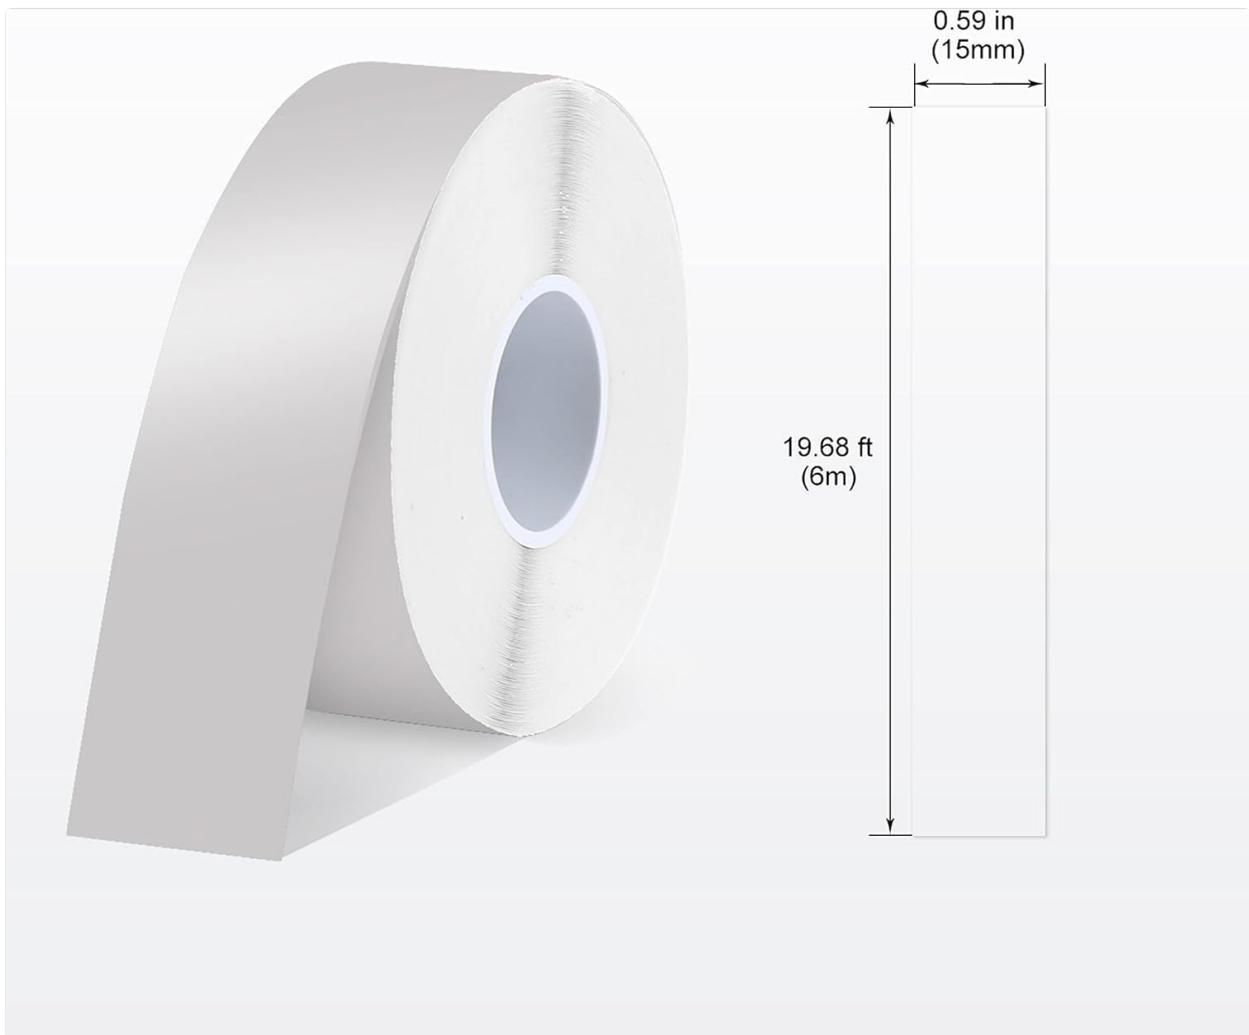

Image: A roll of SUPVAN label tape showing its dimensions: 0.59 inches (15mm) width and 19.68 feet (6m) length.

10. WARRANTY AND SUPPORT

SUPVAN products are designed for quality and durability. While specific warranty details for this tape are not provided, the product is manufactured to resist water, oil, and temperature variations, offering up to 5 years of extended durability under normal conditions.
