Smof BT05

Smof Aux Bluetooth Adapter BT05 User Manual

Model: BT05 | Brand: Smof

INTRODUCTION

The Smof Aux Bluetooth Adapter BT05 is a versatile device designed to bring wireless audio capabilities to your non-Bluetooth car audio systems, home stereo systems, or other speaker setups. Equipped with Bluetooth 5.0 technology and an ISS2020S chipset, it ensures high-quality sound transmission and strong compatibility with various digital products such as mobile phones, laptops, and tablets. This adapter also features hands-free calling and a long-lasting battery, making your audio experience convenient and enjoyable.

KEY FEATURES

- **Advanced Bluetooth 5.0:** Utilizes the latest Bluetooth 5.0 technology with an ISS2020S chipset for stable connection, high-quality audio, and broad compatibility.
- **Long Battery Life:** Features a 170mAh rechargeable battery providing up to 15 hours of music playback. Fully charges in approximately 2 hours and can be used while charging.
- **Multi-function Buttons & Volume Control:** Integrated controls for managing calls (answer/redial/hang up/reject) and adjusting volume directly on the device.
- **Built-in Microphone:** Enables clear hands-free calling for convenience and safety, especially while driving.
- **Compact & Portable Design:** Small and lightweight, making it easy to carry and use in various settings.
- **Memory Function:** Automatically reconnects to the last paired device upon power-on if Bluetooth is enabled on the device.

- **Dual Connection:** Can be paired with two Bluetooth devices simultaneously, allowing for shared audio experiences.

DESIGNED FOR NON-BLUETOOTH DEVICES

Connect via 3.5mm AUX Port

Image: Diagram illustrating how the Smof BT05 connects to various non-Bluetooth devices like headphones, wired earphones, home stereos, and car audio systems, and then pairs with Bluetooth devices such as laptops, tablets, and phones.

STABLE WIRELESS CONNECTION

AUX Adopter and The Latest Bluetooth 5.0 Chip Perfect Match

PRODUCT OVERVIEW AND CONTROLS

Familiarize yourself with the various parts and controls of your Smof BT05 adapter:

- **More Than 12 Hours of Battery Life
12 Hours Music Calling**
- **200 Hours Stand-by Time**
- **2.5 Hours Charging Time Use While
Charging**

Image: A detailed diagram of the Smof BT05 adapter, labeling its components: Audio Output Port, Indicator Light, Microphone, Next Song / Volume Up button, Previous Song / Volume Down button, USB Charging Port, and Power ON/Pause Play/Answer/Hang Up button.

- **Audio Output Port:** 3.5mm jack for connecting to non-Bluetooth audio devices.
- **Indicator Light:** Displays device status (pairing, connected, charging).
- **Microphone:** For hands-free calling.
- **Power ON/Pause Play/Answer/Hang Up Button:** Main multi-function button for power, playback control, and call management.
- **Previous Song / Volume Down Button (-):** Short press for previous song, long press for volume down.
- **Next Song / Volume Up Button (+):** Short press for next song, long press for volume up.
- **USB Charging Port:** Micro USB port for charging the device.

CHARGING THE DEVICE

Before first use, it is recommended to fully charge your Smof BT05 adapter. Use the provided Micro USB charging cable to connect the adapter to a USB power source (e.g., computer USB port, USB wall adapter).

- **Charging Time:** Approximately 2 hours for a full charge.
- **Battery Life:** Up to 15 hours of music playback on a full charge.
- **Charging Indicator:** The indicator light will show charging status (e.g., red while charging, off when fully charged).
- **Use While Charging:** The adapter can be used normally while it is connected to a power source and charging.

SETUP AND PAIRING

Follow these steps to connect your Smof BT05 adapter to your audio system and pair it with your Bluetooth device:

1. **Power On:** Long press the multi-function button (center button) for approximately 3 seconds until the indicator light flashes blue and red alternately. This indicates the device is in pairing mode.
2. **Plug In:** Connect the Smof BT05 adapter to your non-Bluetooth audio system (car stereo, home speaker, headphones) using the provided 3.5mm Aux Audio Cable or the 3.5mm Metal Adapter.

3. **Pair:** On your mobile phone or other Bluetooth-enabled device, go to the Bluetooth settings. Search for "BT05" in the list of available devices and select it to pair. The indicator light will turn solid blue once successfully paired.
4. **Play:** Once connected, you can now play music wirelessly from your paired device through your audio system.

Image: A four-step visual guide demonstrating the setup process: 1. Powering on the device, 2. Plugging it into an auxiliary port, 3. Pairing with a smartphone via Bluetooth settings, and 4. Playing music wirelessly.

Automatic Reconnection: After the initial successful pairing, the Smof BT05 will automatically connect to your phone when the Bluetooth is opened again, provided the adapter is powered on and within range.

OPERATING INSTRUCTIONS

Music Playback

- **Play/Pause:** Short press the multi-function button.
- **Next Song:** Short press the "+" button.
- **Previous Song:** Short press the "-" button.
- **Volume Up:** Long press the "+" button.
- **Volume Down:** Long press the "-" button.

Hands-Free Calling

- **Answer Call:** Short press the multi-function button when a call comes in.
- **End Call:** Short press the multi-function button during a call.
- **Reject Call:** Long press the multi-function button when a call comes in.
- **Redial Last Number:** Double-press the multi-function button.

Dual Connection

The Smof BT05 can connect to two Bluetooth devices simultaneously. After pairing the first device, follow the pairing steps again for the second device. The adapter will maintain connection with both, allowing you to switch between audio sources or share audio.

MAINTENANCE

To ensure the longevity and optimal performance of your Smof BT05 adapter, please follow these maintenance guidelines:

- Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or aerosols.
- Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid Moisture:** Do not expose the device to water or excessive humidity.
- Handle with Care:** Avoid dropping or subjecting the device to strong impacts.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery.	Charge the device for at least 30 minutes.
Cannot pair with Bluetooth device.	Adapter not in pairing mode; Bluetooth on source device is off; too far from source device.	Ensure adapter is flashing blue/red. Turn on Bluetooth on your device. Move devices closer. Clear previous pairings on your phone.
No sound after successful pairing.	Volume too low; incorrect audio input selected on stereo; 3.5mm cable not fully inserted.	Increase volume on both adapter and source device. Ensure your stereo is set to AUX input. Re-insert the 3.5mm cable firmly.
Sound quality is poor or intermittent.	Interference; device too far from source; low battery.	Move away from other wireless devices. Reduce distance between adapter and source. Charge the adapter.
