BAIDE HOME 32.5-inch Round Propane Fire Pit Table

BAIDE HOME 32.5-inch Round Propane Fire Pit Table Instruction Manual

Model: 32.5-inch Round Propane Fire Pit Table

1. INTRODUCTION

Thank you for choosing the BAIDE HOME 32.5-inch Round Propane Fire Pit Table. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor fire pit table. Please read all instructions carefully before use and retain this manual for future reference.

2. SAFETY INFORMATION

WARNING: For outdoor use only. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance. An LP cylinder not connected for use shall not be stored in the vicinity of this or any other appliance.

- Always keep the propane tank at least 5 feet away from the fire pit table during operation.
- Ensure adequate ventilation. Do not operate in an enclosed space.
- Keep children and pets away from the fire pit table.
- Never leave the fire pit table unattended when in use.
- Do not use the fire pit table for cooking.
- Allow the unit to cool completely before covering or moving.
- Use only the provided glass rocks. Do not use wood, charcoal, or other combustible materials.
- Regularly inspect the hose for any signs of damage or leaks.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before assembly.

- Fire Pit Table Unit
- Matching Metal Lid
- Glass Rocks (Blue)
- Protective Cover
- Pre-Attached 10ft Hose with Regulator
- AA Battery (for igniter)

Protective Cover Included

32.5in.

4. SETUP AND ASSEMBLY

The BAIDE HOME fire pit table is designed for straightforward assembly, typically requiring only the attachment of a few screws.

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Position the Fire Pit:** Place the fire pit table on a flat, non-combustible surface in your desired outdoor location. Ensure there is ample clearance from combustible materials.
3. **Install Glass Rocks:** Distribute the provided glass rocks evenly over the burner area.
4. **Connect Propane Tank:** Connect the pre-attached 10ft hose to a standard 20 lb. propane tank (not included). Ensure the tank is placed at least 5 feet away from the fire pit table.
5. **Install Igniter Battery:** Insert the AA battery into the igniter compartment located on the control panel.

5. OPERATING INSTRUCTIONS

Your BAIDE HOME fire pit table features an electronic ignition system for easy startup.

1. **Open Gas Supply:** Ensure the propane tank valve is fully open.
2. **Ignite:** Locate the control panel on the side of the fire pit. Push and turn the control knob to the 'ON' position while simultaneously pressing the 'IGNITER' button. Hold for a few seconds until the flame ignites.
3. **Adjust Flame:** Once ignited, release the igniter button. You can adjust the flame height by turning the control knob between 'LOW' and 'HIGH'.
4. **Turn Off:** To turn off the fire pit, turn the control knob to the 'OFF' position. Close the valve on the propane tank when not in use.

6. MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your fire pit table.

- **Cleaning:** Clean the exterior surfaces with a soft cloth and mild detergent. Avoid abrasive cleaners.
- **Protective Cover:** Use the provided protective cover when the fire pit table is not in use to shield it from weather elements.
- **Burner Maintenance:** Periodically check the burner ports for any obstructions.
- **Electrophoretic Coating:** The electrophoretic baking finish provides a uniform protective layer that resists rust and corrosion, ensuring long-lasting performance.

7. TROUBLESHOOTING

If you encounter issues with your fire pit table, refer to the following common solutions:

Problem	Possible Cause	Solution
Burner does not ignite	No gas flow; Igniter battery low/dead; Obstructed burner ports	Check propane tank valve; Replace AA battery; Clear burner ports
Low flame	Low propane level; Regulator issue; Partially closed gas valve	Check propane tank level; Ensure regulator is properly connected; Fully open propane tank valve
Flame blows out easily	Windy conditions; Low gas pressure	Consider a wind guard (sold separately); Check propane level and connections

8. SPECIFICATIONS

- **Material:** Stainless Steel (burner), Weather-resistant steel reinforced construction (table)
- **Product Dimensions:** 32.5"D x 32.5"W x 14.5"H
- **Shape:** Round
- **Item Weight:** 70.4 Pounds
- **Fuel Type:** Liquefied Petroleum Gas (Propane)
- **Heat Output:** 50,000 BTU
- **Ignition:** Electronic Ignition (requires 1 AA battery, included)
- **Hose Length:** 10 feet (pre-attached)
- **Propane Tank Requirement:** Standard 20 lb. propane tank (external, not included)
