Hot Wheels L2593

Hot Wheels Zoom in, Experimotors 7/10 - Black Instruction Manual

Model: L2593

INTRODUCTION

This manual provides essential information for the Hot Wheels Zoom in, Experimotors 7/10 - Black die-cast car, model L2593. Please read these instructions carefully to ensure proper use and enjoyment of your product. This guide covers product overview, setup, operation, maintenance, troubleshooting, and specifications.

PRODUCT OVERVIEW

The Hot Wheels Zoom in is a 1:64 scale die-cast vehicle, part of the Experimotors series. This model, 7/10, features a sleek black finish and is designed for play on Hot Wheels tracks or as a collectible item. Its unique design allows for potential integration with miniature cameras (sold separately) for an immersive play experience, as indicated by its 'Zoom in' designation.

SETUP

The Hot Wheels Zoom in car comes ready for play directly out of its packaging. No assembly is required.

Simply remove the car from its blister pack. If you intend to use this car with a compatible miniature camera (such as a GoPro Session 5, not included), ensure the camera is securely attached to the designated slot on the vehicle according to the camera's own instructions. Always ensure the camera is firmly in place before use to prevent detachment during play.

OPERATION

To operate your Hot Wheels Zoom in car, place it on a flat surface or a Hot Wheels track. Gently push the car forward to initiate movement. The car is designed to roll smoothly on various surfaces and is compatible with most Hot Wheels track systems. For optimal performance on tracks, ensure the track pieces are securely connected and free from obstructions. When using with a camera, ensure the camera is recording before launching the car.

MAINTENANCE

To maintain the condition of your Hot Wheels Zoom in car, regularly wipe it with a soft, dry cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive materials, as these can damage the paint finish. Do not submerge the car in water. Store the car in a cool, dry place away from direct sunlight to prevent material degradation.

TROUBLESHOOTING

If the wheels do not roll smoothly, check for any debris or hair caught in the axles. Carefully remove any obstructions. If the car consistently veers off track, inspect the wheels for any damage or misalignment. Ensure the track pieces are correctly assembled and flat. For issues related to camera attachment, refer to the camera's instruction manual.

SPECIFICATIONS

Product Dimensions	4.25 x 4.21 x 1.3 inches
Item Weight	1.12 ounces
ASIN	B09PRVJBJJ
Item Model Number	L2593
Manufacturer Recommended Age	16 years and up
Manufacturer	Mattel
