Suttik JM-2023

Suttik JM-2023 Professional Cordless Hair Clipper and Trimmer Set User Manual

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Suttik JM-2023 Professional Cordless Hair Clipper and Trimmer Set. Please read this manual thoroughly before operation and retain it for future reference. This grooming kit includes a hair clipper, a T-blade trimmer, and a 2-in-1 nose/beard trimmer, designed for versatile hair cutting and grooming needs.

SAFETY INFORMATION

Always unplug or turn off the product before cleaning or storing. Keep away from heat sources and liquids. Do not use while sleeping or in the shower. Keep out of reach of children.

SETUP

1. Initial Charging

Before first use, fully charge each device. Connect the appropriate USB charging cable to the charging port of each clipper/trimmer and plug the USB end into a compatible USB power adapter (not included). The LCD display will show charging status and battery percentage. Ensure the device is fully charged before use to maximize battery life.

2. Attaching Guide Combs

Select the desired guide comb length. Align the comb with the blade and push it firmly until it clicks into place. To remove, gently pull the comb away from the blade. Ensure the comb is securely attached before operating the device.

Multi Guards for Your Need

Image: Multi-sized guide combs for precise trimming.

OPERATING INSTRUCTIONS

1. Hair Clipper Usage

Attach the desired guide comb. Turn on the clipper using the power button. Hold the clipper flat against the head and move it slowly against the direction of hair growth. Use overlapping strokes for an even cut. Adjust the taper lever for blending and fading.

2. T-Blade Trimmer Usage

For detailing, outlining, or close trimming, use the T-blade trimmer. It can be used with or without the small guide combs. Hold the trimmer at an angle and carefully create desired lines or trim areas like the neckline, sideburns, or beard edges.

3. Nose/Beard Trimmer Usage

For nose hair, gently insert the trimmer tip into the nostril and move it in a circular motion. For beard trimming, use the appropriate attachment or use the bare blade for precise shaping, moving against the direction of hair growth.

MAINTENANCE

1. Cleaning

After each use, turn off and unplug the device. Use the provided cleaning brush to remove any loose hairs from the blades. The waterproof head allows for rinsing under running water for thorough cleaning. Ensure the device is completely dry before storage or next use.

2. Lubrication

Regularly apply a few drops of the included lubricating oil to the blades to maintain optimal performance and prolong their lifespan. The LCD display will indicate when lubrication is recommended.

3. Storage

Store the devices in a cool, dry place, away from direct sunlight and moisture. Keep all accessories organized to prevent damage or loss.

TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. Check the charging cable for any damage.
- **Reduced cutting performance:** Clean the blades thoroughly and apply lubricating oil. Ensure no hair is trapped in the blades.
- **Excessive noise or vibration:** Clean and lubricate the blades. If the issue persists, contact customer support.
- **Trimmer stops working:** This can sometimes occur due to low battery or internal issues. Ensure it is fully charged. If problems persist, refer to warranty information.
