Ikalido Classic King Size Bed Frame Instruction Manual

INTRODUCTION

This manual provides instructions for the assembly, use, and maintenance of your Ikalido Classic King Size Bed Frame. This vintage metal platform bed frame features a headboard and footboard with round corners, designed for easy assembly and noise-free operation. It offers 12 inches of under-bed storage space and does not require a box spring.

SAFETY INFORMATION

- Ensure all components are present and undamaged before assembly.
- Follow assembly instructions carefully. Do not overtighten bolts.
- Do not allow children to climb or play on the bed frame.
- Distribute weight evenly on the bed frame. The frame is designed to support up to 1000 lbs.
- Regularly check all connections to ensure they remain tight.
- The rounded corners are designed for safety, reducing the risk of injury.

PARTS LIST

Please verify that all parts are included in your package before beginning assembly. If any parts are missing or damaged, please contact customer support.

ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 40 minutes and can be completed without additional tools beyond what is provided.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Verify all parts against the parts list.
2. **Attach Headboard and Footboard:** Connect the headboard and footboard sections using the provided hardware. Ensure all connections are secure but do not fully tighten until the frame is complete.
3. **Connect Side Rails:** Attach the side rails to the headboard and footboard.
4. **Install Center Support:** Place the center support beams and attach them to the frame.
5. **Place Slats:** Lay the metal slats across the frame. Ensure they are evenly spaced and securely fastened. The unique rubber lock design and EVA sponge help reduce noise.
6. **Final Tightening:** Once all components are in place, systematically tighten all bolts.
7. **Add Mattress:** Place your mattress directly onto the assembled slat system. A box spring is not required.

USAGE GUIDELINES

This bed frame is designed for use with a King size mattress. The sturdy metal and wood construction provides reliable support.

- **Mattress Compatibility:** Compatible with King size mattresses. A mattress height of 10-14 inches is recommended. No box spring is needed.
- **Under-Bed Storage:** The frame provides 12 inches of clearance for under-bed storage. Utilize this space for items such as luggage, clothes, or storage bins.
- **Headboard Comfort:** The wooden headboard offers a comfortable and supportive backrest for reading or relaxing.

CARE AND MAINTENANCE

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. For the wooden headboard, use a mild wood cleaner if necessary. Avoid harsh chemicals.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they are tight. Retighten as needed to maintain stability and prevent noise.
- **Protection:** The frame features protective footpads to prevent floor scratching.

TROUBLESHOOTING

Noise/Squeaking:

Ensure all bolts are securely tightened. The frame incorporates EVA sponge and a unique rubber lock design to minimize noise. If noise persists, re-check all connections and ensure no parts are rubbing against each other.

Instability/Wobbling:

Verify that all support legs are firmly on the ground and all connections are tight. The frame is designed for high-strength support up to 1000 lbs.

Mattress Sliding:

The frame includes a straight bar design to help prevent the mattress from sliding. Ensure the mattress is properly centered on the frame.
