FUNLIO Baby Jumper with Ceiling Hook Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and proper use of your FUNLIO Baby Jumper with Ceiling Hook. Please read all instructions carefully before assembly and use. Retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

- **Age and Weight Limit:** Suitable for infants aged 6-24 months, with a maximum weight capacity of 50 pounds (22 kg).
- **Adult Supervision:** Always keep your child within sight and provide constant adult supervision while using the jumper. Never leave a child unattended.
- **Installation:** Ensure the ceiling hook is securely installed into a structural beam or joist capable of supporting the child's weight and dynamic bouncing forces. Do not install on plasterboard or false ceilings without proper reinforcement.
- **Inspection:** Before each use, inspect all components for wear, damage, or loose parts. Discontinue use immediately if any damage is found.
- **Clearance:** Ensure adequate clear space around the jumper to prevent collisions with walls, furniture, or other objects.
- **Adjustments:** Properly adjust the harness and chain length to ensure the child's feet can touch the floor comfortably, allowing for bouncing without excessive strain.

We Care About Every Safety Details

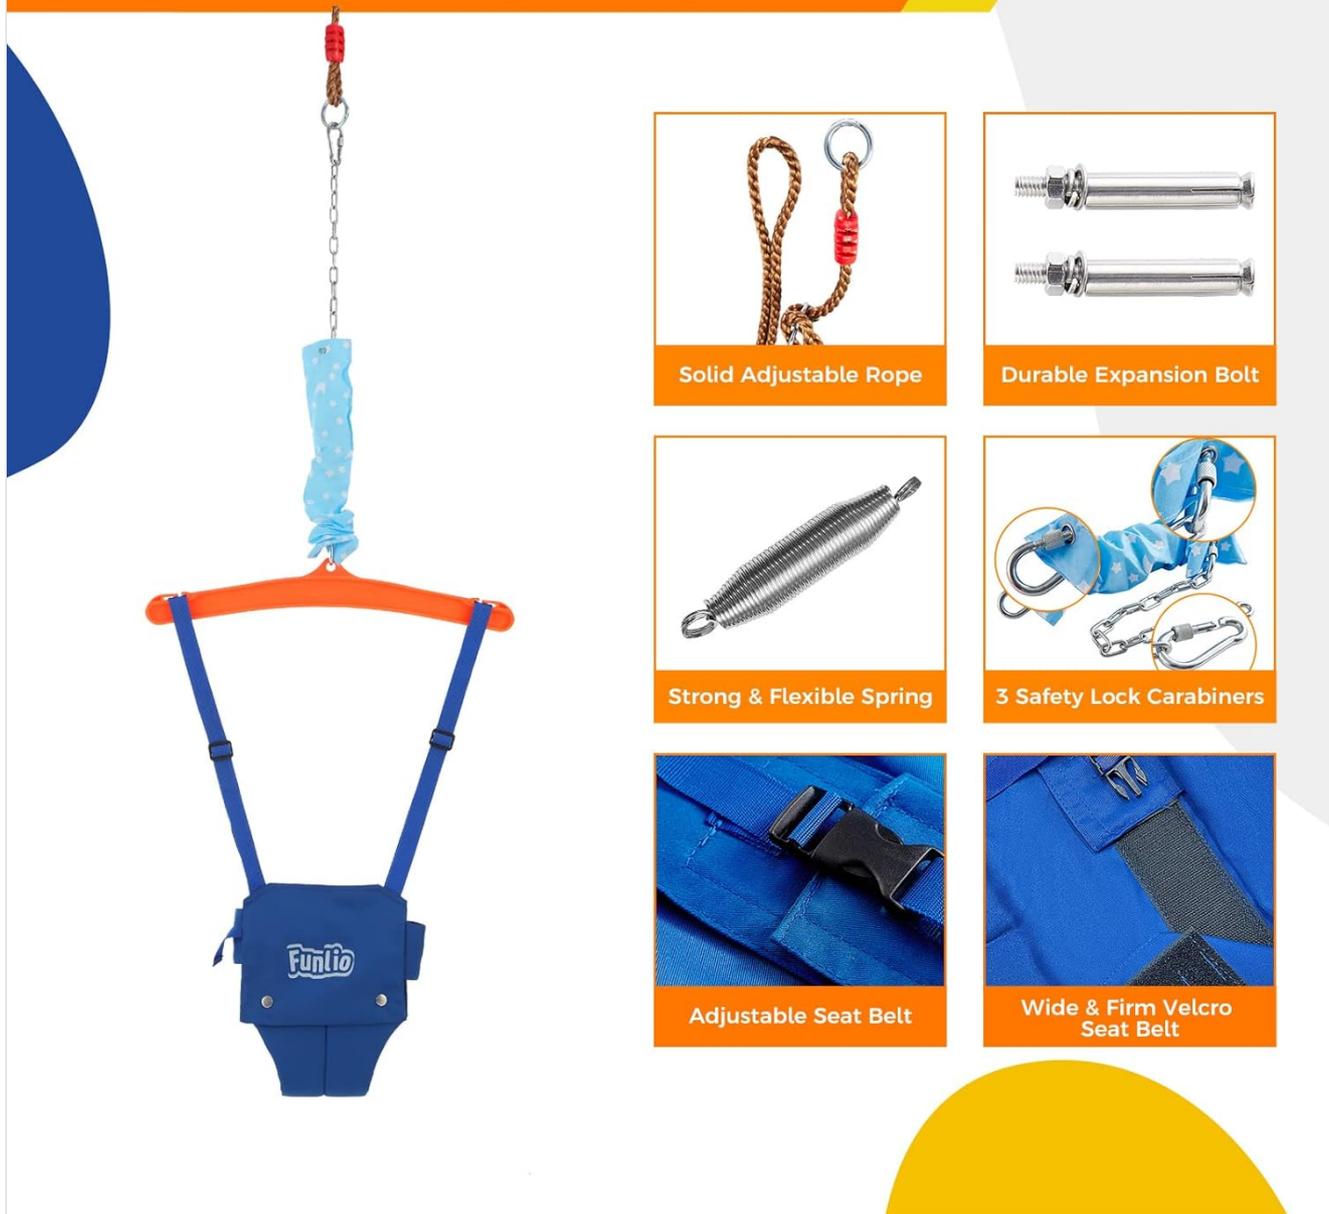

Figure 3: Detailed view of the jumper's safety components.

SETUP AND INSTALLATION

1. **Identify a Suitable Location:** Choose a ceiling location with a sturdy structural beam or joist. The ceiling must be able to safely support the child's weight plus the dynamic forces of bouncing.
2. **Install the Ceiling Hook:** Using appropriate tools, drill pilot holes into the chosen structural support. Securely fasten the stainless steel ceiling hook using the provided expansion bolts. Ensure the hook is firmly anchored and does not wobble.
3. **Attach the Spring and Chain:** Connect the 304 stainless steel spring to the ceiling hook using one of the safety lock carabiners. Then, attach the adjustable chain to the spring.
4. **Connect the Jumper:** Attach the baby jumper harness to the adjustable chain using the remaining safety lock carabiners.
5. **Adjust Height:** Place your child in the jumper. Adjust the chain length so that your child's toes can comfortably touch the floor, allowing for a gentle bounce. The chain is adjustable up to 10 inches (26 cm).
6. **Secure Safety Extension Rope:** If desired, attach the safety extension rope for additional security or to adjust the overall hanging length.

Figure 4: Jumper dimensions and components for installation.

OPERATING INSTRUCTIONS

Once the FUNLIO Baby Jumper is securely installed and adjusted:

1. **Place Child in Jumper:** Carefully place your child into the fabric seat, ensuring their legs are positioned correctly through the leg openings.
2. **Secure Harness:** Fasten the adjustable seat belt and the wide & firm Velcro seat belt securely around your child. Ensure a snug fit without being too tight.
3. **Supervise Play:** Allow your child to bounce and play under constant adult supervision. Encourage gentle bouncing and interaction.
4. **Duration of Use:** Limit play sessions to appropriate durations to prevent over-exertion.

MAINTENANCE

- **Cleaning:** The fabric seat can be spot cleaned with a mild detergent and damp cloth. Allow to air dry

completely.

- **Hardware:** Periodically check all metal components (spring, carabiners, hook, bolts) for rust, corrosion, or signs of wear.
- **Storage:** When not in use, the jumper can be easily disassembled and stored in a dry place.

TROUBLESHOOTING

Jumper does not bounce properly:

- **Check Height Adjustment:** Ensure the child's feet can comfortably touch the floor. If too high, they cannot push off effectively. If too low, the spring may be compressed too much.
- **Inspect Spring:** Verify the spring is not damaged or overstretched.

Jumper feels unstable:

- **Re-check Installation:** Ensure the ceiling hook and expansion bolts are securely fastened into a structural support.
- **Verify Carabiner Locks:** Confirm all safety lock carabiners are fully closed and secured.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	1.0
Product Dimensions	17.56 x 12.2 x 2.56 inches
Item Weight	2.51 pounds
Maximum Weight Recommendation	50 Pounds (22 kg)
Age Range	6-24 Months
Material Type	Carbon steel, Cotton fabric
Adjustable Chain Length	Up to 10 inches (26 cm)
Safety Certifications	CPSC (US), ASTM F963-17 (US), EN 71 (Europe)

90 Days Money Back & 1 Years Warranty
