BRIO 33887

BRIO World 33887 Lift & Load Warehouse Set and 33402 Expansion Pack Instruction Manual

Brand: BRIO | Model: 33887

INTRODUCTION

The BRIO World Lift & Load Warehouse Set and Expansion Pack Intermediate bundle offers an engaging, interactive 32-piece wooden train set for children aged 3 and up. This set is designed to boost creativity, imagination, and skill development through interactive play. The Lift & Load Warehouse set features a 4-level elevator, various vehicles, tracks, and accessories, allowing for imaginative scenarios within a bustling train yard. As a child's skills develop, this set can be connected to other BRIO sets, enabling the expansion of the railway system for extended enjoyment. BRIO prioritizes safety and sustainability, conducting over 1,000 annual safety checks on its FSC-certified wood products. The Expansion Pack Intermediate provides additional straight and curved tracks to further enhance railway designs and spark creativity in track layouts. All BRIO toys, including this expansion pack, adhere to high safety standards and utilize responsible materials. These high-quality BRIO sets promote open-ended play, offering smart value and eco-friendly toys that children love and parents trust. Begin your railway adventures today!

WHAT'S IN THE Box

- 2 wooden train cars
- 4 wooden trucks
- 4-level wooden elevator
- 6 curved tracks
- 4 straight tracks
- 1 bridge piece
- 1 loading station
- 14 accessories

SETUP

Follow these steps to assemble your BRIO World Lift & Load Warehouse Set:

- 1. Unpack Components:** Carefully remove all tracks, vehicles, the 4-level elevator, loading station, bridge, and accessories from the packaging.
- 2. Assemble the Elevator and Loading Station:** Connect the wooden elevator structure to its base and integrate the loading station as shown in the diagrams. Ensure all connections are secure.
- 3. Construct the Track Layout:** Begin by connecting the main track pieces to the elevator and loading station. Use the curved and straight tracks, along with the bridge piece, to create a dynamic railway system. Refer to the product images for suggested layouts or create your own. The expansion pack tracks can be seamlessly integrated to extend the railway.
- 4. Place Accessories:** Position the wooden trucks, train cars, and other accessories around the track and loading areas to enhance play.

OPERATING INSTRUCTIONS

Engage with the various interactive features of your BRIO World set:

1. **Using the 4-Level Elevator:** Place a train car or cargo piece onto the elevator platform. Turn the red knob at the top of the elevator to raise or lower the platform to different levels. Once at the desired level, slide the train or cargo onto the connecting track.
2. **Operating the Lift & Load Station:** Use the included forklift to pick up and move cargo pieces. The forklift's prongs can be manually raised and lowered to engage with the cargo. Transport cargo to the loading station or onto the train cars.
3. **Running Trains:** Manually push the train cars and trucks along the wooden tracks. The magnetic connectors allow for easy attachment and detachment of multiple cars to form longer trains.
4. **Expanding Your Railway:** Connect additional BRIO World track pieces and accessories to create larger and more complex layouts, fostering endless creative play possibilities.

MAINTENANCE

To ensure the longevity and optimal performance of your BRIO World set, follow these maintenance guidelines:

- **Cleaning:** Wipe all wooden and plastic components with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the materials and finishes.
- **Storage:** Store the set in a dry place away from direct sunlight and extreme temperatures to prevent warping or fading of the wooden parts.
- **Inspection:** Periodically check all track connections, moving parts (like the elevator mechanism), and magnetic couplers for any signs of wear or damage. Replace any broken or worn-out parts immediately to maintain safety and functionality.

TROUBLESHOOTING

If you encounter any issues with your BRIO World set, consider the following:

- **Trains Derailing:** Ensure all track pieces are securely connected and laid on a flat, stable surface. Check for any debris on the tracks that might obstruct the train's movement.
- **Elevator Malfunction:** Verify that the string mechanism is not tangled and that the knob turns freely. Ensure no foreign objects are blocking the elevator's path.
- **Loose Connections:** If track pieces or accessories feel loose, re-examine their connection points and press firmly to secure them.

SPECIFICATIONS

Item Model Number	33887
Manufacturer Recommended Age	3 years and up

SAFETY INFORMATION

BRIO products are designed with safety as a top priority. This set is made from FSC-certified wood and undergoes over 1,000 annual safety checks. It is suitable for children aged 3 and up. Adult supervision is recommended during play, especially during initial setup and operation of moving parts.

WARRANTY AND SUPPORT

For warranty information or customer support, please refer to the official BRIO website or contact their customer service department. Keep your proof of purchase for any warranty claims.
