SANJICHA Extra-Long String Lights Outdoor/Indoor Instruction Manual

INTRODUCTION

Thank you for choosing SANJICHA Extra-Long String Lights. This manual provides essential information for the safe and effective use of your new string lights. Designed for both indoor and outdoor applications, these lights feature an upgraded super bright design, waterproof construction, and 8 distinct lighting modes, all powered by a UL-certified plug-in adapter. Please read these instructions thoroughly before installation and operation.

SAFETY INFORMATION

To ensure safe operation and prevent damage, please adhere to the following safety guidelines:

- The power adapter is UL certified and operates at a safe 29V low voltage.
- While the string lights are waterproof for outdoor use, the power adapter should be protected from direct exposure to rain, snow, or standing water. Ensure it is placed in a dry, sheltered location.
- Do not cut, modify, or attempt to repair the string lights or power adapter. Unauthorized modifications can lead to hazards and void the warranty.
- Keep the lights away from open flames, heat sources, and flammable materials.
- Unplug the lights from the power outlet when not in use or before performing any maintenance.
- Do not hang objects from the string lights or place them in a way that could cause damage to the wiring.
- Ensure all connections are secure before plugging into a power source.

Image: The low voltage design ensures the lights remain safe to touch, even for children, as depicted by children decorating a lit Christmas tree.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- SANJICHA Extra-Long String Lights (Warm White)
- UL Certified Power Adapter

Image: The string lights are shown coiled, with the power adapter clearly visible, indicating the main components of the package.

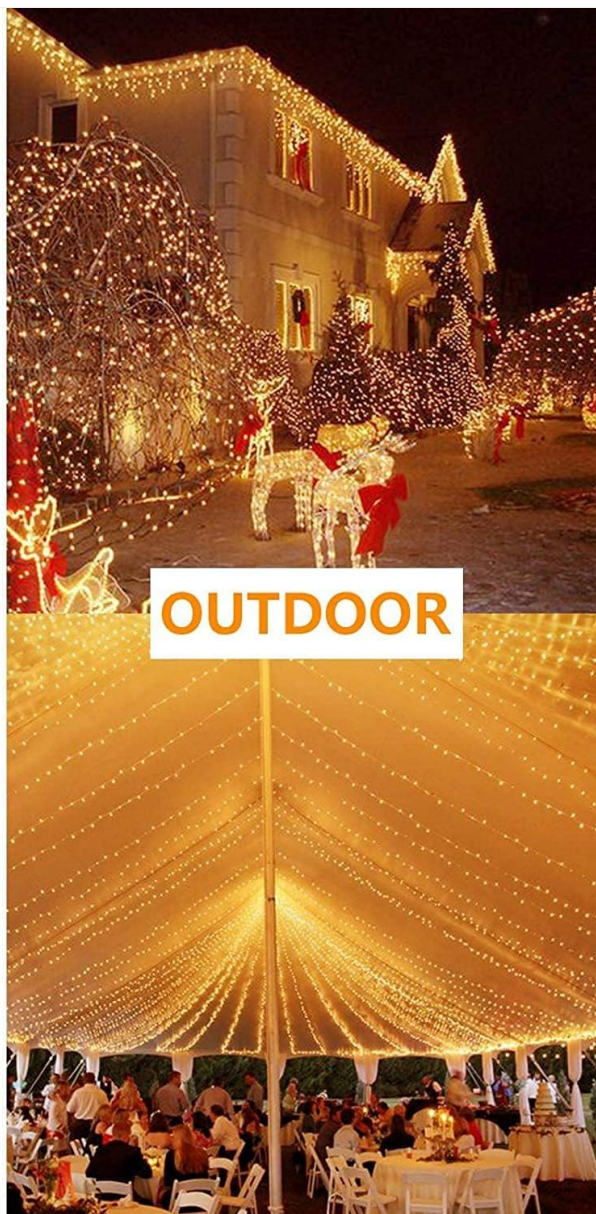

SETUP

Follow these steps to set up your SANJICHA String Lights:

1. **Unpack:** Carefully remove the string lights from their packaging and gently uncoil them to prevent tangling.
2. **Placement:** Determine your desired installation location. These lights are suitable for both indoor and outdoor environments.
3. **Adapter Protection (Outdoor Use):** If installing outdoors, ensure the power adapter is positioned in a dry, protected area, shielded from direct rain or standing water. The string lights themselves are waterproof.
4. **Secure Installation:** Use appropriate fasteners (not included) to secure the string lights to your chosen surfaces, such as walls, trees, pergolas, fences, or other structures. Ensure the lights are not strained or pulled taut.
5. **Connect Power:** Connect the string lights' connector securely to the power adapter.
6. **Power On:** Plug the power adapter into a standard, functional electrical outlet.

INDOOR

OUTDOOR

OPERATING INSTRUCTIONS

Your SANJICHA String Lights feature 8 different lighting modes. To operate:

1. **Initial Power-On:** Once plugged in, the lights will illuminate and default to the last selected lighting mode.
2. **Change Modes:** Locate the small, round button on the power adapter.
3. **Cycle Through Modes:** Press the button repeatedly to cycle through the 8 available lighting modes:
 - Combination
 - In waves
 - Sequential
 - Slow Glow
 - Chasing/Flash
 - Slow fade
 - Twinkle/Flash
 - Steady on

The lights will retain the last chosen mode even after being unplugged and re-plugged.

Image: String lights illuminating a Christmas tree and fireplace, demonstrating a typical application and the warm glow of the lights.

MAINTENANCE

Proper maintenance ensures the longevity of your string lights:

- **Cleaning:** Gently wipe the lights with a soft, dry cloth to remove dust or debris. Do not use harsh chemicals, solvents, or abrasive cleaners, as these can damage the wiring or LED bulbs.
- **Storage:** When not in use, especially during off-seasons, carefully coil the string lights to prevent tangling. Store them in a cool, dry place, away from direct sunlight, extreme temperatures, and moisture.
- **Inspection:** Periodically inspect the entire length of the string lights, including the wiring, bulbs, and power adapter, for any signs of damage, fraying, or loose connections. Discontinue use immediately if any damage is found and contact support.

TROUBLESHOOTING

If you encounter any issues with your string lights, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights not turning on	No power to the outlet; Loose connection; Faulty adapter	Ensure the power adapter is securely plugged into a working electrical outlet. Check the connection between the string lights and the adapter. Try a different outlet.
Lights flickering or dim	Loose connection; Unstable power source	Check all connections for tightness. Ensure the power source is stable and not overloaded.
Lighting modes not changing	Button not pressed correctly; Temporary glitch	Press the mode button on the adapter firmly. Unplug the adapter from the outlet, wait a few seconds, and then plug it back in to reset.
Water inside adapter (outdoor use)	Adapter not adequately protected from elements	Immediately unplug the adapter. Allow it to dry completely in a safe, dry environment. Ensure future placement protects the adapter from direct water exposure.

SPECIFICATIONS

Brand	SANJICHA
Model Number	B09PTL4DCV
Indoor/Outdoor Usage	Indoor, Outdoor
Special Feature	Waterproof
Light Source Type	LED
Power Source	Corded Electric
Light Color	Warm White
Number of Light Sources	200 LEDs (Note: Product description mentions "Extra-Long 500Led bundling with 200Led"; please refer to product packaging for exact count if different.)
Controller Type	Button on adapter
Voltage	29V (Low Voltage)
Certifications	UL Certified Power Adapter
Date First Available	January 6, 2022
