

Dopinmin 32"H x 16 Panles

Dopinmin Heavy Duty Foldable Metal Pet Fence

MODEL: 32"H X 16 PANELS

INTRODUCTION

This instruction manual provides detailed information for the assembly, operation, and maintenance of your Dopinmin Heavy Duty Foldable Metal Pet Fence. Designed for versatility and durability, this pet playpen offers a secure and spacious enclosure for your pets, suitable for both indoor and outdoor environments. Please read this manual thoroughly before setup and use to ensure proper installation and safe operation.

PRODUCT FEATURES

- **Easy Set Up and Foldable:** No tools required for assembly. Simply unfold, shape, and connect panels.
- **Multiple Configurations:** Allows for various shapes including rectangle, square, or octagon to suit your space and needs.
- **Large Space and Safety:** Each panel measures 32x32 inches, providing ample room for pets while maintaining sufficient height for containment.
- **Strong and Durable Construction:** Crafted with high-quality black powder-coated metal tubes and panels for lightweight yet sturdy performance.
- **Indoor & Outdoor Use:** Constructed from heavy-duty rust-resistant metal, making it suitable for both indoor and outdoor environments.
- **Lockable Double Door:** Features a secure double door design to prevent pets from opening and to ensure secure containment.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- 16 x Metal Fence Panels (including one panel with a double door)
- 8 x Ground Stakes
- 6 x Secure Locking Thumb Snaps

Image: Detailed view of the fence components, including hinges, ground stakes, and the compact folded panels for storage.

SETUP & ASSEMBLY

The Dopinmin Pet Fence is designed for quick and easy assembly without the need for additional tools.

Step-by-Step Assembly:

1. Unfold each panel.
2. Connect the panels by inserting the long ground stakes through the interlocking loops at the ends of

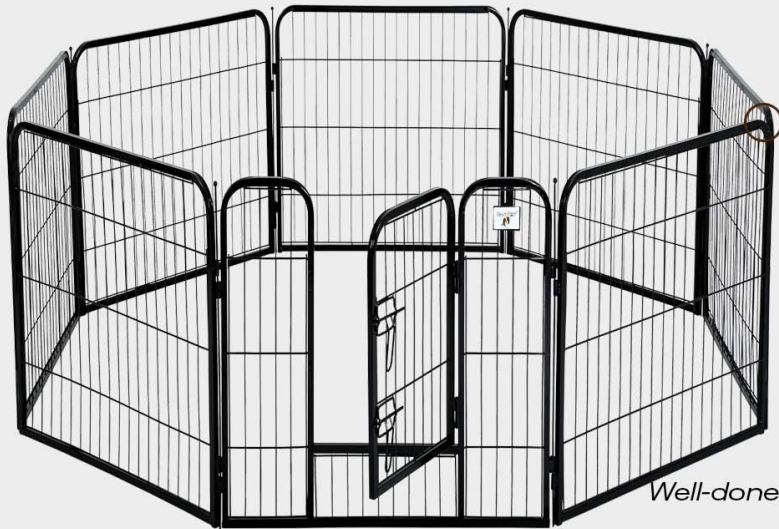

adjacent panels.

3. Continue connecting panels until the desired shape (e.g., octagon, square, rectangle) is formed.
4. For outdoor use, push the ground stakes firmly into the soil to secure the playpen.
5. Ensure the double door panel is positioned for easy access and securely locked using the thumb snaps.

OPERATING INSTRUCTIONS

Configuring Shapes:

The modular design of the Dopinmin Pet Fence allows for flexible configuration. You can arrange the 16 panels into various shapes to best fit your space and pet's needs. Common configurations include:

- **Octagon:** Use all 16 panels to create a spacious octagonal playpen.
- **Rectangle/Square:** Arrange panels to form a rectangular or square enclosure. You can use fewer panels for a smaller area if desired.
- **Barrier:** The fence can also be used as a straight barrier to block off areas.

Using the Double Door:

The pet fence includes a panel with a double door for convenient access. To open, slide the secure locking thumb snaps upwards or downwards. To close, ensure the door is flush with the frame and slide the snaps into the locked position. This double locking mechanism provides enhanced security.

MAINTENANCE

To ensure the longevity and optimal performance of your Dopinmin Pet Fence, follow these maintenance guidelines:

- **Cleaning:** Wipe down the metal panels with a damp cloth and mild soap as needed. Rinse thoroughly and dry completely to prevent water spots.
- **Rust Prevention:** The fence is constructed with rust-resistant powder-coated metal. However, regularly inspect for any scratches or damage to the coating that could expose the metal to moisture. Touch up any exposed areas with rust-inhibiting paint if necessary.

- **Storage:** When not in use, the fence can be folded compactly for easy storage. Store in a dry place to protect the metal finish.

Image: Visual representation of the fence's resistance to rust, water, and various weather conditions, highlighting its durability.

TROUBLESHOOTING

If you encounter any issues with your Dopinmin Pet Fence, consider the following common solutions:

- **Fence Instability:** Ensure all ground stakes are fully inserted into the ground (for outdoor use) or that panels are securely interlocked and placed on a flat, stable surface (for indoor use).
- **Difficulty Connecting Panels:** Check that the interlocking loops are aligned correctly. Apply gentle pressure to guide the ground stakes through.
- **Door Not Latching Securely:** Verify that the door is properly aligned within its frame and that the thumb snaps are fully engaged. Inspect for any obstructions.

For persistent issues or concerns not addressed here, please contact customer support.

SPECIFICATIONS

Attribute	Detail
