

Altair Design 531030-CAB-WH

Altair Design Ivy 30-inch Single Bathroom Vanity with Mirror (White) - User Manual

Model: 531030-CAB-WH

1. PRODUCT OVERVIEW

The Altair Design Ivy 30-inch Single Bathroom Vanity is a freestanding wood cabinet designed for bathroom environments. It features a white finish, a flip-down top drawer, and two soft-closing lower drawers for storage. A matching framed mirror is included. This unit is designed to accommodate a standard oval or rectangular undermount sink (not included) and requires a separate countertop, faucet, and plumbing fixtures.

Image 1.1: Front view of the Altair Design Ivy 30-inch White Vanity and matching mirror.

- **Dimensions:** 29.2" W x 21.6" D x 33.1" H (Vanity Cabinet)
- **Finish:** White
- **Material:** Solid wood / plywood construction
- **Storage:** One (1) flip-down drawer, two (2) soft-closing drawers
- **Hardware:** Brushed Copper Finish handles
- **Included Components:** Vanity cabinet, matching framed mirror
- **Not Included:** Vanity top, sink, faucet, drain assembly, P-trap, countertop, backsplash, sidesplash

2. SETUP AND INSTALLATION

This vanity cabinet is designed for freestanding installation. Assembly of the cabinet itself is not required. The mirror is designed for wall mounting.

2.1 Unpacking and Inspection

1. Carefully unpack all components from the packaging.
2. Inspect all parts for any damage that may have occurred during shipping. Report any damage to your retailer immediately.
3. Verify that all listed components are present. Refer to the packing list provided with your purchase.

2.2 Placement and Leveling

1. Choose a suitable location for the vanity in your bathroom. Ensure the floor is level.
2. Position the vanity cabinet. If the floor is uneven, use shims (not included) under the base to ensure the cabinet is stable and level.
3. For the mirror, select a wall location above the vanity. Mark the desired height and position. Use appropriate wall anchors and screws (not included) for secure mounting, considering the mirror's weight.

2.3 Plumbing and Countertop Installation

The vanity cabinet is designed for easy plumbing and faucet installation. However, the countertop, sink, faucet, drain assembly, and P-trap are not included and must be purchased separately.

- Install your chosen countertop according to its manufacturer's instructions.
- Install the sink into the countertop opening. The cabinet is designed to accommodate standard oval or rectangular undermount sinks.
- Connect the faucet and drain assembly to the sink, following their respective installation guides.
- Connect the P-trap and water supply lines to the faucet and drain assembly. Ensure all connections are tight to prevent leaks.

3. OPERATION

The Altair Design Ivy vanity provides functional storage for your bathroom essentials.

- **Flip-down Drawer:** The top drawer is designed to flip down, offering convenient access to smaller items.
- **Soft-Closing Drawers:** The two lower drawers feature a soft-closing mechanism. To operate, simply push the drawer gently to close, and the mechanism will slowly pull it shut, preventing slamming.
- **Cabinet Doors:** The main cabinet doors open to reveal a spacious storage area.

Image 3.1: Interior view of the vanity cabinet, showcasing the storage space.

4. MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your vanity.

- **Cleaning the Cabinet:** Wipe the wood surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the finish.
- **Cleaning the Mirror:** Use a standard glass cleaner and a soft, lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the frame edges.
- **Hardware Care:** The brushed copper finish hardware can be cleaned with a soft, dry cloth. Avoid chemical cleaners that may tarnish the finish.
- **Spills:** Immediately wipe up any water spills or moisture from the vanity surfaces to prevent water damage or staining.
- **Humidity:** Maintain a consistent humidity level in your bathroom to prevent wood from warping or cracking.

5. TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Drawers or Doors Not Closing Properly:**

- Check if the vanity is level. Uneven surfaces can cause misalignment.
- Inspect hinges and drawer slides for any obstructions or loose screws. Tighten screws if necessary.

- **Loose Hardware:**

- Periodically check all screws and fasteners for tightness. Gently tighten any that have become loose. Do not overtighten.

- **Minor Scratches or Dents:**

- For minor imperfections, touch-up pens or furniture repair kits matching the white finish may be used. Consult a professional for significant damage.

- **Water Leaks:**

- If you observe water leaks, immediately turn off the water supply. Inspect all plumbing connections (faucet, drain, P-trap) for proper sealing and tightness. Re-tighten or re-seal as needed.
