Spigen Crystal Slot Back Cover Case User Manual

For iPhone SE (2022/2020) / iPhone 8 / iPhone 7

1. PRODUCT OVERVIEW

The Spigen Crystal Slot Back Cover Case is designed to provide protection for your compatible iPhone model while offering the convenience of a built-in card slot. It features a clear, transparent design, allowing the original aesthetic of your device to remain visible.

2. COMPATIBILITY

This case is specifically designed for the following Apple iPhone models:

- iPhone SE (2022)
- iPhone SE (2020)
- iPhone 8
- iPhone 7

Compatibility.

Please check the model.

3. PRODUCT FEATURES

- **Air Cushion Technology:** Reinforced corners are designed to absorb impact, providing protection against drops and bumps.
- **Built-in Card Slot:** Features a single card storage slot for convenient access to an ID or credit card.
- **Flexible TPU Material:** Constructed from flexible yet resilient Thermoplastic Polyurethane (TPU) material for ease of installation and removal.
- **Polycarbonate Back:** A rigid polycarbonate back panel offers additional structural integrity and scratch resistance.
- **Slim Fit:** Designed to maintain the slim profile of your device.
- **Lightweight:** Adds minimal bulk to your phone.

4. INSTALLATION GUIDE

Follow these steps to properly install the Spigen Crystal Slot case on your iPhone:

1. **Clean Your Device:** Ensure your iPhone is clean and free of dust or debris before installation.
2. **Align the Case:** Hold the case with the card slot facing outwards. Align the top edge of your iPhone with the

top edge of the case.

3. **Insert Top First:** Gently push the top corners of your iPhone into the case.
4. **Snap into Place:** Apply gentle pressure to the bottom corners of your iPhone until it snaps securely into the case. Ensure all edges are fully seated within the case's frame.

5. USING THE CARD SLOT

The built-in card slot is designed for convenient storage of a single standard-sized card (e.g., ID card, credit card).

1. **Insert Card:** Slide your card into the designated slot on the back of the case. Ensure it is fully seated and secure.
2. **Remove Card:** Gently push the card from the bottom or side of the slot to retrieve it.

Important Note: While the card slot is designed for convenience, repeated insertion and removal of cards, or using cards with sharp edges, may potentially cause minor cosmetic wear to the inner surface of the case or the back of your phone over time. Exercise caution when inserting or removing cards.

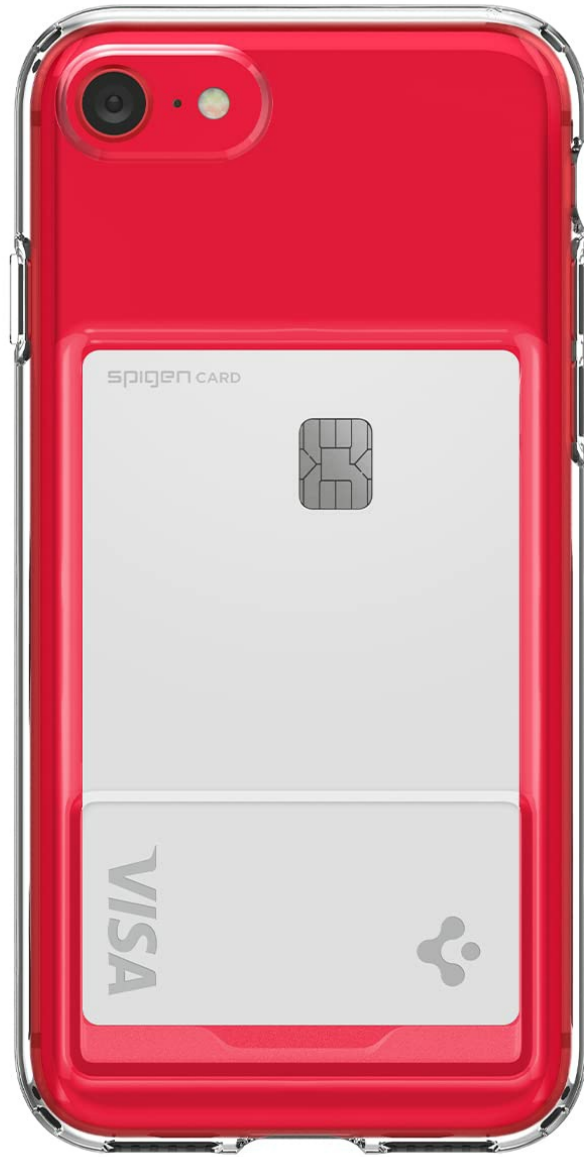

Image: Rear view of the case demonstrating a card inserted into the slot.

6. CARE AND MAINTENANCE

To maintain the appearance and functionality of your Spigen Crystal Slot case:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by rinsing and thorough drying.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the material and finish of the case.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use to prevent material degradation.

7. TROUBLESHOOTING

- **Case Not Fitting Properly:** Ensure your iPhone model is listed under the compatible devices (Section 2). Re-check installation steps to ensure the phone is fully seated.
- **Card Difficult to Insert/Remove:** The slot is designed for a single standard-sized card. Avoid forcing multiple or non-standard cards. If a card is stuck, gently push from the opposite end of the slot.
- **Case Appears Scratched:** The clear material is durable but can show minor scratches from daily use.

Regular cleaning and careful handling can help minimize this.
