T'nB PKSTUDIO

Tnb Influence Studio Pack User Manual

Model: PKSTUDIO

1. INTRODUCTION

Thank you for choosing the Tnb Influence Studio Pack. This comprehensive kit provides all the essential tools to enhance your videos and photos, allowing you to create your own recording studio. Ideal for content creation on platforms like TikTok, YouTube, and Instagram, this pack includes a tripod, a ring light, a smartphone holder, and a green screen.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x Tripod
- 1 x 10-inch Ring Light
- 1 x Smartphone Holder
- 1 x Green Screen (150 x 200 cm)
- 1 x Integrated Control Remote

- 1 x User Manual (this document)

3. SAFETY INFORMATION

Read all instructions carefully before use and retain them for future reference. Failure to follow these instructions may result in injury or damage to the product.

- Do not expose the product to water or excessive humidity.
- Keep away from heat sources and direct sunlight.
- Ensure the tripod is stable on a flat surface before attaching equipment.
- Do not attempt to disassemble or repair the product yourself. Contact qualified service personnel.
- Use only the provided or recommended accessories.
- Keep out of reach of children.

4. SETUP GUIDE

4.1 Tripod Assembly

1. Unfold the tripod legs and extend them to a stable position.
2. Extend the telescopic sections of the tripod pole to your desired height, up to a maximum of 160 cm. Secure each section by tightening the locking clamps.
3. The tripod features a 90-degree rotatable head for optimal light positioning.

Image 4.1: Tripod in use, demonstrating its adjustable height and rotatable head.

4.2 Ring Light and Smartphone Holder Attachment

1. Attach the 10-inch ring light to the top of the tripod. Ensure it is securely fastened.
2. Mount the flexible smartphone holder into the center of the ring light. This central placement ensures even light distribution around your device's lens.
3. Insert your smartphone into the holder. Adjust the holder to securely grip your phone.

Support téléphone S'attache au trépied

Image 4.2: Attaching the smartphone holder to the ring light.

4.3 Green Screen Placement

The green screen measures 150 x 200 cm. It can be hung or draped behind your subject to enable chroma key effects in post-production.

Image 4.3: Green screen dimensions and typical setup.

4.4 Power Connection

Connect the ring light's USB cable to a compatible USB power source (e.g., USB wall adapter, power bank, computer USB port). The integrated control remote is part of this cable.

5. OPERATING INSTRUCTIONS

5.1 Using the Ring Light

The 10-inch ring light provides uniform light diffusion, preventing harsh shadows and contrast differences. Use the integrated control remote to:

- **Turn On/Off:** Press the power button.
- **Adjust Brightness:** Cycle through 3 intensity levels using the brightness adjustment buttons.
- **Change Color Temperature:** Switch between "Warm Light" and "Cold Daylight" modes to match your environment

or desired aesthetic.

Image 5.1: Demonstrating the ring light's 3 intensity levels.

Image 5.2: Ring light color temperature options: Warm Light and Cold Daylight.

5.2 Using the Green Screen

The green screen allows for chroma keying, enabling you to replace the background of your videos or photos with any desired scene during post-production. Ensure the green screen is evenly lit and free of wrinkles for best results.

Idéal pour la création de contenu

Image 5.3: Examples of content creation with the studio pack, including green screen use.

6. MAINTENANCE

- **Cleaning:** Wipe the tripod and ring light with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Green Screen Care:** The green screen can be gently ironed on a low setting if wrinkled. Store it folded or rolled to prevent creases.
- **Storage:** Store all components in a cool, dry place away from direct sunlight when not in use.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Ring light does not turn on.	Not connected to power; faulty USB port; damaged cable.	Ensure USB cable is securely connected to a working power source. Try a different USB port or adapter.
Ring light brightness/color cannot be adjusted.	Control remote malfunction; light is not fully powered.	Ensure the light is properly powered. Check the integrated control remote for damage.
Smartphone is not stable in the holder.	Holder not adjusted correctly; phone too large/small.	Adjust the flexible holder to firmly grip your smartphone. Ensure your phone's dimensions are compatible with the holder.
Green screen has wrinkles affecting chroma key.	Improper storage; not stretched taut.	Gently iron the green screen on a low setting. Ensure it is stretched smoothly when in use.
