Vont SSL03 - RIC32V1-X1

Vont RGBIC Strip Lights Smart LED Color Changing Strips User Manual

Brand: Vont | Model: SSL03 - RIC32V1-X1

INTRODUCTION

The Vont RGBIC Smart LED Strip Lights offer an advanced lighting experience with integrated IC chips, enabling multiple colors to display simultaneously on a single strip. This creates dynamic, rainbow-like effects. With 16 million color options and segmented lighting control, these strips provide extensive customization for any home, room, or party setting. They are designed for ease of use, featuring compatibility with voice assistants and a dedicated mobile application.

SETUP GUIDE

Setting up your Vont RGBIC Strip Lights is a straightforward process. Follow these steps for optimal installation and connectivity:

- 1. Prepare the Surface:** Ensure the surface where you intend to install the strip lights is clean, dry, and smooth. Dust or uneven surfaces can affect the adhesive's effectiveness.
- 2. Attach the Strip Lights:** Carefully peel off the adhesive backing from the LED strip. Press the strip firmly onto the desired surface, working in sections to avoid bubbles or misalignment. The strips can be cut at designated marks to fit specific lengths.
- 3. Connect Power:** Plug the power adapter into the control box, and then plug the control box into a standard electrical outlet.
- 4. Download the Vont Home App:** Search for "Vont Home" in your smartphone's app store (available for iOS and

Android) and download the application.

5. **Pair with the App:** Open the Vont Home app and follow the on-screen instructions to add your new device. Ensure your phone's Bluetooth and Wi-Fi are enabled for successful pairing. The app will guide you through connecting the strip lights to your home Wi-Fi network.
6. **Voice Assistant Integration:** For hands-free control, link your Vont Home account with Amazon Alexa or Google Assistant through their respective apps. This allows you to control the lights using voice commands.

NO HUB REQUIRED

Enjoy in no time. No complex wiring or pairing.
Just plug it in, and the party's on.

Image: Illustration showing the simplicity of setup, highlighting that no additional hub is required for the Vont RGBIC Strip Lights.

OPERATING INSTRUCTIONS

Your Vont RGBIC Strip Lights offer multiple ways to control your lighting experience:

Using the Vont Home App:

The Vont Home app provides comprehensive control over your strip lights. After pairing, you can:

- **Select Colors:** Choose from 16 million colors in RGB mode.
- **Segmented Lighting:** Utilize the advanced IC chip to display multiple colors simultaneously. Control up to 15 segments individually, allowing for unique gradients and custom color blends.
- **Adjust Brightness:** Easily dim or brighten the lights to suit your mood or environment.
- **Music Mode:** Activate the built-in microphone to sync the lights with your favorite music, creating a dynamic light show that dances to the beat.
- **Preset Scenes:** Select from a variety of pre-programmed scenes for different occasions, such as romantic settings or party atmospheres.
- **DIY Mode:** Create and save your own custom lighting effects and color patterns.

MULTICOLOR SEGMENT LIGHTING

Control colors in all 15 segments or DIY one by one.

LIGHTS THAT GROOVE WITH MUSIC

Sync your favorite song & dance with a colorized beat with Music Mode.

Image: A person dancing in a room illuminated by Vont RGBIC Strip Lights, demonstrating the music sync feature.

Voice Control (Alexa & Google Assistant):

Once integrated with your smart home system, you can use simple voice commands to control your lights:

- "Alexa, turn on the strip lights."
- "Hey Google, change strip lights to blue."
- "Alexa, set the strip lights to party scene."
- "Hey Google, dim the strip lights to 50%."

LET ALEXA OR GOOGLE GET THE JOB DONE

Forget tapping or clapping. Control
your lights via voice command

🗣️ : Alexa, activate sports scene.

🗣️ : Okay!

Using the Physical Controller:

A compact physical controller is included for basic functions:

- **Power Button:** Turn the lights On or Off.
- **Color Change Button:** Cycle through various preset colors.
- **Mode/Brightness Button:** Switch between different lighting modes or adjust brightness levels.

Image: A diagram illustrating the functions of the physical controller buttons for the Vont RGBIC Strip Lights, with corresponding actions shown in a kitchen setting.

MAINTENANCE

To ensure the longevity and optimal performance of your Vont RGBIC Strip Lights, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the LED strips with a dry, soft cloth to remove dust. Do not use liquid cleaners or abrasive materials, as this can damage the LEDs or the adhesive.
- **Placement:** Avoid installing the strip lights in areas exposed to direct water or high humidity, as they are designed for indoor use only.
- **Handling:** Do not excessively bend or twist the LED strips, especially at the connection points, to prevent damage to the internal wiring.
- **Power Off When Not in Use:** For extended periods of non-use, it is recommended to unplug the power adapter from the wall outlet.

TROUBLESHOOTING

If you encounter issues with your Vont RGBIC Strip Lights, refer to the following common troubleshooting steps:

- **Lights Not Turning On:**
 - Check if the power adapter is securely plugged into both the control box and the wall outlet.
 - Ensure the wall outlet is functional by testing it with another device.
 - Verify that the LED strip is correctly connected to the control box.
 - Try restarting the lights by unplugging and re-plugging the power adapter.
- **Lights Not Responding to App/Controller:**
 - For app control, ensure your smartphone's Bluetooth and Wi-Fi are active and connected to the same network as the strip lights.
 - Check if the Vont Home app is updated to the latest version.
 - If using the physical controller, ensure there are no obstructions between the controller and the control box.
 - Try re-pairing the device with the Vont Home app if connectivity issues persist.
- **Incorrect Colors or Segment Issues:**
 - Ensure the strip lights are properly connected and not damaged.
 - Recalibrate colors through the Vont Home app.
 - If a segment is not lighting up correctly, inspect the strip for any physical damage or kinks.
- **Voice Control Not Working:**
 - Confirm that your Vont Home account is correctly linked to your Alexa or Google Assistant app.
 - Check your internet connection and the status of your voice assistant device.
 - Ensure you are using the correct voice commands as specified in the app or voice assistant documentation.

If these steps do not resolve the issue, please contact Vont Customer Care for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	Vont
Model Number	SSL03 - RIC32V1-X1
Color	Multicolor
Indoor/Outdoor Usage	Indoor
Special Feature	Color Changing
Light Source Type	LED
Power Source	Corded Electric
Voltage	12 Volts
Wattage	48 watts

Feature	Detail
Number of Light Sources	300
Connectivity Technology	Wi-Fi, Bluetooth
Control Method	App, Voice (Alexa, Google Assistant)
Item Weight	14.5 Ounces
Product Dimensions (L x W x H)	393.6 x 0.5 x 0.2 inches
Included Components	Strip Light, Light kit included

WARRANTY AND SUPPORT

Vont stands behind the quality of its products. The Vont RGBIC Strip Lights are covered by a **Lifetime Warranty**, protecting against loss, theft, and defects in materials and workmanship for as long as you own the product. For any questions, technical assistance, or warranty claims, Vont Customer Satisfaction Wizards are available 24/7 to provide support.

GETTING STARTED WITH YOUR SMART PLUG

Plug in the smart plug and hold the factory reset button for 10 seconds to reset the plug.

DOWNLOAD VONT HOME APP

Scan the QR code to download the Vont Home app from the App Store or Google Play.

- Quick Start for Plug Users**
1. Plug the smart plug into a standard wall outlet.
 2. Download the Vont Home app from the App Store or Google Play.
 3. Create a new account or log in with an existing account.
 4. Tap the "+" icon to add a new device.
 5. Select the smart plug from the list of devices.
 6. Follow the on-screen instructions to complete the setup.

Setting Up Smart Devices

Follow the steps below to set up your smart devices:

1. Plug the smart plug into a standard wall outlet.
2. Download the Vont Home app from the App Store or Google Play.
3. Create a new account or log in with an existing account.
4. Tap the "+" icon to add a new device.
5. Select the smart plug from the list of devices.
6. Follow the on-screen instructions to complete the setup.

CONNECT WITH AMAZON ALEXA

Follow the steps below to connect your smart plug with Amazon Alexa:

1. Plug the smart plug into a standard wall outlet.
2. Download the Vont Home app from the App Store or Google Play.
3. Create a new account or log in with an existing account.
4. Tap the "+" icon to add a new device.
5. Select the smart plug from the list of devices.
6. Follow the on-screen instructions to complete the setup.

CONNECT WITH GOOGLE ASSISTANT

Follow the steps below to connect your smart plug with Google Assistant:

1. Plug the smart plug into a standard wall outlet.
2. Download the Vont Home app from the App Store or Google Play.
3. Create a new account or log in with an existing account.
4. Tap the "+" icon to add a new device.
5. Select the smart plug from the list of devices.
6. Follow the on-screen instructions to complete the setup.

CONNECT WITH IFTTT

Follow the steps below to connect your smart plug with IFTTT:

1. Plug the smart plug into a standard wall outlet.
2. Download the Vont Home app from the App Store or Google Play.
3. Create a new account or log in with an existing account.
4. Tap the "+" icon to add a new device.
5. Select the smart plug from the list of devices.
6. Follow the on-screen instructions to complete the setup.

INDICATOR LIGHT

The indicator light on the smart plug can be turned on or off via the Vont Home app.

- 1. Plug the smart plug into a standard wall outlet.
- 2. Download the Vont Home app from the App Store or Google Play.
- 3. Create a new account or log in with an existing account.
- 4. Tap the "+" icon to add a new device.
- 5. Select the smart plug from the list of devices.
- 6. Follow the on-screen instructions to complete the setup.

1. Plug the smart plug into a standard wall outlet.
2. Download the Vont Home app from the App Store or Google Play.
3. Create a new account or log in with an existing account.
4. Tap the "+" icon to add a new device.
5. Select the smart plug from the list of devices.
6. Follow the on-screen instructions to complete the setup.
