

Dreo DR-HAP002

Dreo Air Purifier Macro Pro User Manual

Model: DR-HAP002

Brand: Dreo

1. INTRODUCTION

The Dreo Air Purifier Macro Pro is designed to enhance indoor air quality by effectively removing airborne particles. Featuring an H13 True HEPA filter and advanced airflow technology, it provides comprehensive air purification for various living spaces.

Figure 1: Dreco Air Purifier Macro Pro

2. SAFETY INFORMATION

Please read all safety instructions carefully before operating the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the air purifier on a firm, level surface.
- Ensure adequate clearance (at least 15 inches) around all sides of the unit for optimal airflow.

- Do not block air inlets or outlets.
- Keep the appliance away from water or moist environments.
- Unplug the air purifier before cleaning or performing any maintenance.
- Do not use the appliance if the power cord or plug is damaged.

3. PRODUCT OVERVIEW

The Dreo Air Purifier Macro Pro features a sleek design with intuitive controls and a multi-stage filtration system.

3.1 Key Features

- **H13 True HEPA Filtration:** Captures 99.97% of particles down to 0.3 microns.
- **Large Room Coverage:** Purifies up to 679 sq ft in 30 minutes.
- **Low-Noise Operation:** Operates as quietly as 20 dB in sleep mode.
- **Auto Mode:** Adjusts fan speed based on real-time air quality.
- **Smart Control:** Compatible with the VSync app and voice assistants.

3.2 Dimensions

Figure 2: Product Dimensions (9.84"D x 9.84"W x 15.2"H)

4. SETUP INSTRUCTIONS

Follow these steps for initial setup of your air purifier.

4.1 Filter Installation

1. Unpack the air purifier and place it upside down on a soft, stable surface.
2. Twist the bottom cover counter-clockwise to unlock and remove it.
3. Remove the filter from its protective plastic packaging.
4. Insert the filter back into the air purifier.
5. Replace the bottom cover and twist clockwise to lock it securely.
6. Return the air purifier to an upright position.

4.2 Power Connection

Plug the DC adapter into the power port on the air purifier, then plug the adapter into a standard electrical outlet.

5. OPERATING INSTRUCTIONS

Familiarize yourself with the control panel and various operating modes.

5.1 Control Panel Overview

Figure 3: Control Panel (Example image, actual panel may vary slightly)

5.2 Power On/Off

Press the power button (U) to turn the air purifier on or off.

5.3 Fan Speed Adjustment

The air purifier offers multiple fan speed settings:

- **Manual Modes:** Select from 3 fan speeds (Low, Medium, High) to suit your preference.
- **Auto Mode:** The air purifier automatically adjusts its fan speed based on the detected air quality.
- **Turbo Mode:** Activates the highest fan speed for rapid air purification.

5.4 Sleep Mode

Activate sleep mode for quiet operation (as low as 20 dB) and dimmed display lights, ideal for nighttime use.

*Based on SGS test reports. Proven to capture E. coli, Salmonella, S. aureus, Candida albicans and H1N1.
Dreo air purifiers don't claim to capture, remove and kill the Covid-19. You still should practice regular coronavirus prevention procedures.

Figure 4: Quiet operation in sleep mode.

5.5 Timer Function

Set the timer for 2, 4, or 8 hours. The unit will automatically turn off after the set duration.

5.6 Air Quality Indicator

The LED display shows PM2.5 levels and changes color to indicate air quality:

- **Blue:** Excellent air quality
- **Green:** Good air quality
- **Orange:** Moderate air quality
- **Red:** Poor air quality

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

6.1 Filter Replacement

The H13 True HEPA filter typically needs replacement every 6 to 8 months, depending on usage and air quality. The unit will indicate when it's time to change the filter. Replacement filters can be purchased by searching for "B09X3G8P1G".

6.2 Cleaning

Clean the exterior of the air purifier with a dry rag. The pre-filter can be cleaned with a vacuum cleaner to remove larger particles.

7. TROUBLESHOOTING

If you encounter any issues with your Dreo Air Purifier Macro Pro, please refer to the following common solutions:

- **Unit not turning on:** Ensure the power cord is securely plugged into both the unit and the outlet.
- **Reduced airflow:** Check if the filter is clogged and needs cleaning or replacement. Ensure no air inlets/outlets are blocked.
- **Unusual noise:** Verify the filter is correctly installed. Check for any foreign objects obstructing the fan.
- **Air quality indicator always red:** Ensure the air quality sensor is clean. If the air quality remains poor, consider running the unit on a higher fan speed or Turbo Mode.

8. SPECIFICATIONS

Feature	Specification
Model Number	DR-HAP002
Product Dimensions	9.84"D x 9.84"W x 15.2"H
Item Weight	7.27 pounds
Floor Area Coverage	679 Square Feet (in 30 minutes)
Noise Level	20 Decibels (Sleep Mode)
Filtration Type	H13 True HEPA (3-in-1)
Particle Retention Size	0.3 Micron
Wattage	36 watts
Controller Type	Button Control
Power Source	DC
Certifications	AHAM Certified, CARB Certified, EPA Certified, ETL Certified, Energy Star Certified, FCC Certified

9. WARRANTY AND SUPPORT

The Dreo Air Purifier Macro Pro comes with a **12 Months Warranty**.
