Woputne HL-TJ8010A

Woputne HL-TJ8010A Desk Clip-on Lamp User Manual

Model: HL-TJ8010A

INTRODUCTION

Thank you for choosing the Woputne HL-TJ8010A Desk Clip-on Lamp. This versatile LED lamp is designed to provide optimal lighting for various tasks such as reading, studying, crafting, and office work. It features a sturdy clip for easy attachment, a flexible gooseneck for precise positioning, three adjustable color temperatures, and ten dimmable brightness levels. This manual provides essential information for the safe and efficient use of your new lamp.

WHAT'S IN THE BOX

- 1 x Woputne Clip Lamp
- 1 x 5V 2A Mains Plug (Power Adapter)
- 1 x 150cm USB Cable (integrated with lamp)
- 1 x User Manual

PRODUCT OVERVIEW

Familiarize yourself with the components of your Woputne Desk Clip-on Lamp.

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all items from the packaging.

2. **Attach the Lamp:** Securely clip the lamp's clamp onto a stable surface such as a desk, headboard, or shelf. Ensure the surface thickness is within the clamp's capacity (up to 2 inches). The scratch-resistant foam pads protect your furniture.

3. **Connect Power:** Insert the USB end of the lamp's cable into the provided 5V 2A mains plug (power adapter).

4. **Plug In:** Plug the mains adapter into a standard electrical wall outlet.

5. **Position the Light:** Adjust the flexible 360° gooseneck to direct the light precisely where needed.
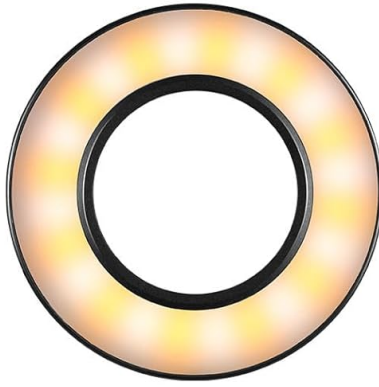

OPERATING INSTRUCTIONS

The Woputne Desk Clip-on Lamp features an inline control panel for easy operation.

- **Power On/Off:** Press the **Power Button** (usually marked with a circle and vertical line) on the inline control panel to turn the lamp on or off.

- **Adjust Brightness:** Use the **Brightness Up (+)** and **Brightness Down (-)** buttons to cycle through 10 levels of brightness, from 10% to 100%.

- **Change Color Mode:** Press the **Mode Button** (often marked with an 'M' or sun icon) to switch between three color temperatures:
  - **Warm Light (3000K):** Ideal for relaxation or creating a cozy atmosphere.
  - **Natural Light (4500K):** A balanced light suitable for general tasks.
  - **White Light (6000K):** Bright and clear, best for focused work or reading.

- **Auto Turn-Off Function:** The lamp can be set to automatically turn off after 1 minute. This feature is useful for bedtime reading. Consult the specific button on your control panel for this function (often indicated by a clock icon).

- **Memory Function:** The lamp will remember the last used brightness level and color mode when turned off and on again, provided the power supply is not disconnected.
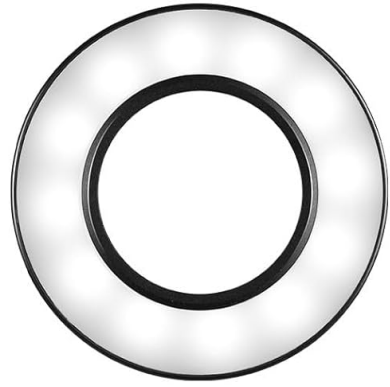

3 COLORS LIGHTING MODE

**Warm Light**　　　　**Natural Light**　　　　**White Light**

Figure 4: Visual representation of the three available light color modes: Warm Light, Natural Light, and White Light, demonstrating their distinct appearances.

Figure 5: Depiction of the lamp's 10 dimmable brightness levels, ranging from 10% to 100%, allowing for fine-tuned illumination.

MAINTENANCE

- **Cleaning:** Disconnect the lamp from the power source before cleaning. Use a soft, dry cloth to wipe the lamp head, gooseneck, and clamp. Do not use liquid cleaners or abrasive materials.

- **Storage:** When not in use for extended periods, store the lamp in a cool, dry place, away from direct sunlight and moisture.

- **Handling:** Avoid excessive bending or twisting of the gooseneck beyond its natural flexibility to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply; loose connection; faulty adapter.	Ensure the power adapter is securely plugged into both the lamp's USB cable and the wall outlet. Try a different outlet. Verify the adapter is functioning correctly.

Problem	Possible Cause	Solution
Lamp flickers or dims unexpectedly.	Unstable power supply; loose connection; adapter not providing sufficient power.	Check all connections. Ensure the power adapter is rated 5V 2A. Avoid using the lamp with other high-power devices on the same circuit.
Lamp turns off by itself after a short period.	Auto turn-off timer activated; internal fault.	Check if the auto turn-off function was accidentally activated. If the issue persists and the timer is not active, contact customer support.
Buttons on control panel are unresponsive.	Power issue; control panel malfunction.	Disconnect and reconnect the power. If the issue persists, the control panel may be faulty.

SPECIFICATIONS

|	
Brand	Woputne
Model Name	HL-TJ8010A
