3. Place the chosen side of the game board in the center of the playing area.
4. Distribute the appropriate Monopoly money and cards for the selected level according to the specific level's rules (detailed in the 'Operating Instructions' section).

OPERATING INSTRUCTIONS (GAMEPLAY)

My First Monopoly offers two distinct gameplay levels. Select the level that best suits the players' ages and learning objectives.

Level 1: Counting and Matching (Ages 4-5)

This level is designed for younger children to learn basic counting and matching skills.

1. The youngest player starts the game. Play proceeds clockwise.
2. On their turn, a player rolls the die and moves their token the corresponding number of spaces.
3. Follow the instructions on the space landed on. This may involve collecting money, matching items, or moving to another space.
4. The goal is to collect properties and money, learning to count and recognize patterns.
