Safety Information

Always adhere to the following safety guidelines to prevent injury or damage to the fan:

- Ensure the fan is placed on a stable, level surface to prevent tipping.
- Keep hands, hair, clothing, and loose objects away from the fan blades during operation.
- Do not operate the fan with a damaged cord or plug. If the cord is damaged, it must be replaced by a qualified service professional.
- Disconnect the power cord before performing any maintenance or cleaning.
- This fan is designed for indoor use only. Do not expose it to rain or wet conditions.

- Do not insert any objects into the fan grilles.
- Keep children and pets away from the fan during operation.
- The fan is equipped with a 3-prong grounded plug for your safety. Do not modify the plug or use an adapter that defeats the grounding purpose.
- This product is OSHA-compliant, ensuring it meets specific safety standards for industrial use.

PACKAGE CONTENTS

Upon unpacking, verify that all components are present and undamaged:

- Maxx Air 48 Inch Barrel Fan Unit (fully assembled)
- Instruction Manual

The Maxx Air 48 Inch Barrel Fan is designed for plug-and-play convenience, arriving fully assembled with built-in wheels and handles for immediate use.

SETUP

The Maxx Air 48 Inch Barrel Fan requires minimal setup due to its pre-assembled design.

1. **Unpacking:** Carefully remove the fan from its packaging. Inspect for any shipping damage.
2. **Placement:** Position the fan on a firm, level surface in the desired location. Ensure there is adequate clearance around the fan for optimal airflow and to prevent obstruction of the grilles.
3. **Power Connection:** Plug the fan's 3-prong grounded power cord into a standard 120V, 60Hz grounded electrical outlet.

OPERATING INSTRUCTIONS

The Maxx Air 48 Inch Barrel Fan features a simple two-speed control for varying airflow needs.

1. **Power On:** Once plugged in, locate the control switch, typically on the fan housing.
2. **Select Speed:** Choose between the two available speed settings (Low or High) by adjusting the switch.
3. **Power Off:** To turn off the fan, set the control switch to the 'Off' position. For extended periods of non-use, unplug the fan from the electrical outlet.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Maxx Air Barrel Fan.

- **Cleaning:** Disconnect the fan from power before cleaning. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or allow water to drip into the motor housing.
- **Grille Cleaning:** Periodically clean dust and debris from the front and rear grilles using a vacuum cleaner with a brush attachment or a soft cloth. This helps maintain efficient airflow.
- **Blade Cleaning:** If necessary, carefully remove the front grille (refer to specific instructions if provided with the unit for grille removal) to clean the fan blades. Ensure blades are dry before reassembling and operating.
- **Storage:** When not in use for extended periods, store the fan in a dry, cool place, protected from dust and moisture.
- **Motor:** The motor is thermally protected and designed for long-term operation. It does not require lubrication.

TROUBLESHOOTING

Refer to the following table for common issues and their solutions:

Problem	Possible Cause	Solution
Fan does not turn on.	No power to the unit. Fan switch is off. Power cord is damaged.	Ensure the fan is securely plugged into a working 120V outlet. Turn the fan switch to 'Low' or 'High'. Inspect the power cord for damage. Do not use if damaged; contact support.
Reduced airflow.	Grilles or blades are dirty. Obstruction near the fan.	Disconnect power and clean grilles and blades. Ensure clear space around the fan for unrestricted airflow.
Unusual noise or vibration.	Fan is on an uneven surface. Loose components or debris inside.	Place the fan on a stable, level surface. Disconnect power and inspect for any loose parts or foreign objects. If noise persists, contact support.

If the problem persists after attempting these solutions, please contact Maxx Air customer support.

SPECIFICATIONS

Brand	Maxx Air
Model Number	697453950602
Fan Type	48 Inch Barrel Fan, Floor Fan
Air Flow Capacity	18,000 CFM (Cubic Feet Per Minute)
Power Source	Corded Electric
Voltage	120 Volts
Amperage	7 Amps
Frequency	60 Hz
Number of Speeds	2
Product Dimensions (Approx.)	52.5 in. H x 50 in. W x 19.5 in. D
Material	HDPE Housing, Powder-coated, Rust-resistant Grilles
Special Features	High Velocity, Portable, OSHA-Compliant, Built-in Wheels, Ergonomic Handles
Indoor/Outdoor Usage	Indoor
