2. SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Retain this manual for future reference.

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the unit on a soft, clean surface to prevent scratches.
- Always use appropriate tools and follow the assembly steps precisely.
- This product is designed for wall mounting. Ensure the wall is suitable for supporting the weight of the unit and its contents (up to 10 kg). Use appropriate wall anchors for your wall type.
- Do not overload the rack. The maximum weight capacity is 10 kg.
- Keep small parts and packaging materials away from children during assembly to prevent choking hazards.
- Periodically check all screws and wall fixings to ensure they remain tight and secure.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all the following components are included in your package. If any parts are missing or damaged, please contact customer support.

- Main MDF panels (sides, top, bottom, shelf)
- Bamboo plate drying rods
- 7 metal hooks
- Assembly hardware (screws, dowels, wall anchors)
- Instruction Manual

4. SETUP AND ASSEMBLY

The SoBuy KCR09-W dish rack requires self-assembly. Follow the illustrated instructions provided in the package. A screwdriver and a drill (for wall mounting) will be required.

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface. Refer to the parts list in the included manual to identify each piece.
2. **Assemble the Main Frame:** Connect the side panels to the top and bottom panels using the provided screws and wooden dowels. Ensure all connections are secure.
3. **Install Plate Drying Rods:** Insert the bamboo rods into the designated holes in the upper section of the frame.
4. **Attach the Additional Shelf:** Secure the open shelf to the lower section of the frame using the appropriate hardware.
5. **Install Hooks:** Attach the 7 metal hooks to the underside of the additional shelf.
6. **Wall Mounting Preparation:** Choose a suitable location on your kitchen wall. Mark the drilling points for the wall anchors based on the pre-drilled holes on the back of the unit. Ensure the marks are level.
7. **Drill and Mount:** Drill holes at the marked points. Insert the appropriate wall anchors (not always included, may need to be purchased separately depending on wall type). Securely attach the assembled dish rack to the wall using the provided screws. Ensure it is firmly fixed and stable before placing any items on it.

5. OPERATING AND USAGE

Once securely mounted, the SoBuy KCR09-W dish rack provides convenient storage and drying for your kitchenware.

- **Plate Drying Section:** Place plates vertically between the bamboo rods. This section can hold up to 11 plates with a maximum diameter of 35 cm. Avoid placing deep bowls here as they may not fit securely.
- **Open Shelf:** Use the lower open shelf to store cups, smaller bowls, spice bottles, or other kitchen essentials.
- **Hanging Hooks:** Utilize the 7 hooks located beneath the open shelf for hanging mugs, kitchen towels, or small utensils.
- **Weight Distribution:** Distribute items evenly to maintain stability. Do not exceed the maximum weight capacity of 10 kg.

6. MAINTENANCE

Proper care will ensure the longevity and appearance of your SoBuy KCR09-W dish rack.

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. For stubborn stains, a mild soap solution can be used, followed by wiping with a clean, dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the lacquered finish and bamboo.
- **Moisture:** While the material is designed to be durable, avoid prolonged exposure to excessive moisture. Wipe up spills immediately.
- **Periodic Checks:** Regularly inspect all screws and wall fixings to ensure they remain tight. Re-tighten if necessary to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your SoBuy KCR09-W dish rack, refer to the following common problems and solutions.

- **Unit feels unstable after assembly:**

Solution: Ensure all screws are fully tightened. Check that the wall mounting is secure and appropriate anchors were used for your wall type. If mounted incorrectly, remove, repair wall if needed, and re-mount.

- **Difficulty inserting wooden dowels during assembly:**

Solution: Some dowels may have a tight fit. Apply gentle, even pressure. Do not force them excessively, as this can split the wood. If a dowel is too large, it may need light sanding or replacement.

- **Plates do not fit or are unstable in the drying section:**

Solution: This section is designed for standard plates up to 35 cm in diameter. Deep bowls or unusually shaped plates may not fit securely. Ensure plates are placed vertically.

- **Hooks are too small for mug handles:**

Solution: The hooks are standard size. If your mug handles are unusually thick or small, they may not hang perfectly. Consider using the hooks for lighter items like kitchen towels or smaller utensils.

- **Missing or damaged parts:**

Solution: Do not proceed with assembly. Contact SoBuy customer support immediately for replacement parts.
