COOLSTEELANDBEYOND MB-150F

Instruction Manual

MASCULINE STYLE STAINLESS STEEL BRAID LINK BRACELET FOR MEN

Model: MB-150F | Brand: COOLSTEELANDBEYOND

Product Overview

This manual provides essential information for the proper use, care, and maintenance of your COOLSTEELANDBEYOND Masculine Style Stainless Steel Braid Link Bracelet. Crafted from durable stainless steel with a polished finish, this bracelet features a distinctive braid link design and a secure lobster claw clasp. It is designed for everyday wear and offers a blend of style and resilience.

Figure 3: An angled perspective of the bracelet, illustrating its substantial thickness and the robust lobster claw clasp mechanism.

Setup

The COOLSTEELANDBEYOND bracelet is designed for immediate wear. No assembly or complex setup is required.

1. **Unpackaging:** Carefully remove the bracelet from its packaging. The bracelet may come in a jewelry box or a drawstring pouch.

Figure 4: Example of product packaging, including a drawstring pouch and gift boxes.

2. **Inspection:** Before first use, inspect the bracelet for any visible damage or defects. Ensure the lobster claw clasp operates smoothly.
3. **Initial Cleaning:** While the bracelet is new, a quick wipe with a soft, dry cloth can remove any dust or fingerprints from handling.

Operating

Wearing and securing your bracelet is a simple process:

1. **Opening the Clasp:** Locate the lobster claw clasp. Gently press the small lever on the side of the clasp to open the 'jaw'.
2. **Positioning the Bracelet:** Place the bracelet around your wrist.
3. **Securing the Clasp:** While holding the clasp open, hook the 'jaw' onto the small ring at the opposite end of the bracelet. Release the lever to close the clasp securely. Ensure the clasp is fully closed before wearing to prevent accidental detachment.
4. **Adjusting Fit:** The bracelet is a fixed length. If the fit is too loose or too tight, professional adjustment by a jeweler may be considered, though it is generally not recommended for this type of link.

Maintenance

To ensure the longevity and appearance of your stainless steel bracelet, follow these maintenance guidelines:

- **Regular Cleaning:** Clean the bracelet regularly with a soft, damp cloth. For a deeper clean, use mild soap and water, then rinse thoroughly and dry immediately with a clean, soft cloth.
- **Avoid Harsh Chemicals:** Do not expose the bracelet to harsh chemicals, abrasive cleaners, or chlorine, as these can damage the finish.
- **Storage:** When not in use, store the bracelet in a dry place, preferably in its original pouch or a jewelry box, to prevent scratches and minimize exposure to air and moisture.
- **Avoid Impact:** While stainless steel is durable, avoid unnecessary impact or bending that could deform the links or clasp.

Troubleshooting

Problem	Possible Cause	Solution
Clasp is stiff or difficult to open/close.	Accumulation of dirt or debris; minor misalignment.	Clean the clasp thoroughly with a soft brush and mild soapy water. Ensure it is completely dry. If misalignment is severe, consult a professional jeweler.
Bracelet appears dull or tarnished.	Surface dirt, oils from skin, or exposure to certain chemicals.	Clean with a soft cloth and mild soap and water. Polish with a jewelry polishing cloth designed for stainless steel. Avoid abrasive materials.
Bracelet links feel loose or make noise.	Normal wear and tear; minor stretching of links over time.	This is generally normal for link bracelets. If a link appears visibly damaged or broken, professional repair is recommended.

Specifications

Model Number	MB-150F
Material	Stainless Steel
Color	Silver & Gold
Finishing	Polished
Clasp Type	Lobster Claw
Dimensions (Width x Length x Thickness)	8.4MM (0.33") wide x 23CM (9.06") long x 8.3MM (0.33") thick
Weight	50.4g
Manufacturer	COOLSTEELANDBEYOND
