WORKPRO 7-Piece Jewelers Pliers Set & 3-piece Adjustable Wrench Set Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and effective use of your WORKPRO 7-Piece Jewelers Pliers Set and 3-piece Adjustable Wrench Set. Please read these instructions carefully before using the tools and retain this manual for future reference.

PRODUCT OVERVIEW

The WORKPRO tool set includes two distinct packages designed for various tasks, from delicate jewelry work to general household repairs.

WORKPRO 7-Piece Jewelers Pliers Set

This set is ideal for intricate tasks requiring precision and control. It includes:

- Nylon Jaw Pliers
- Round Nose Pliers
- Bent Nose Pliers
- Diagonal Cut Nose Pliers
- Flat Nose Pliers
- Wire Looping Pliers
- Brass Ring

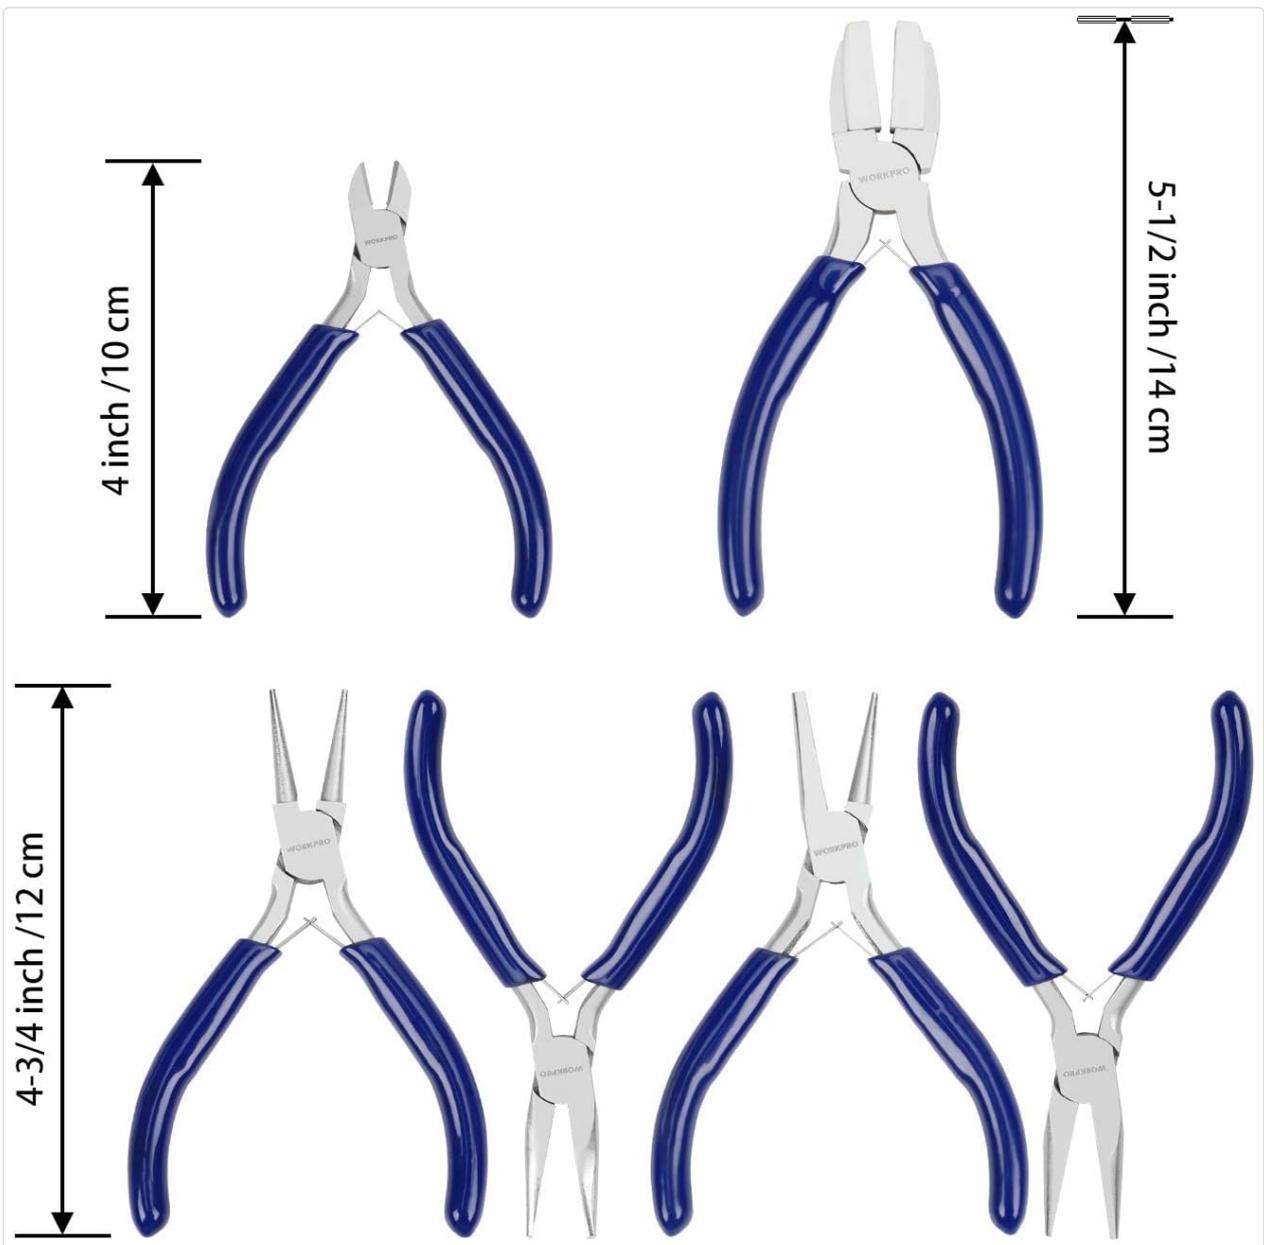

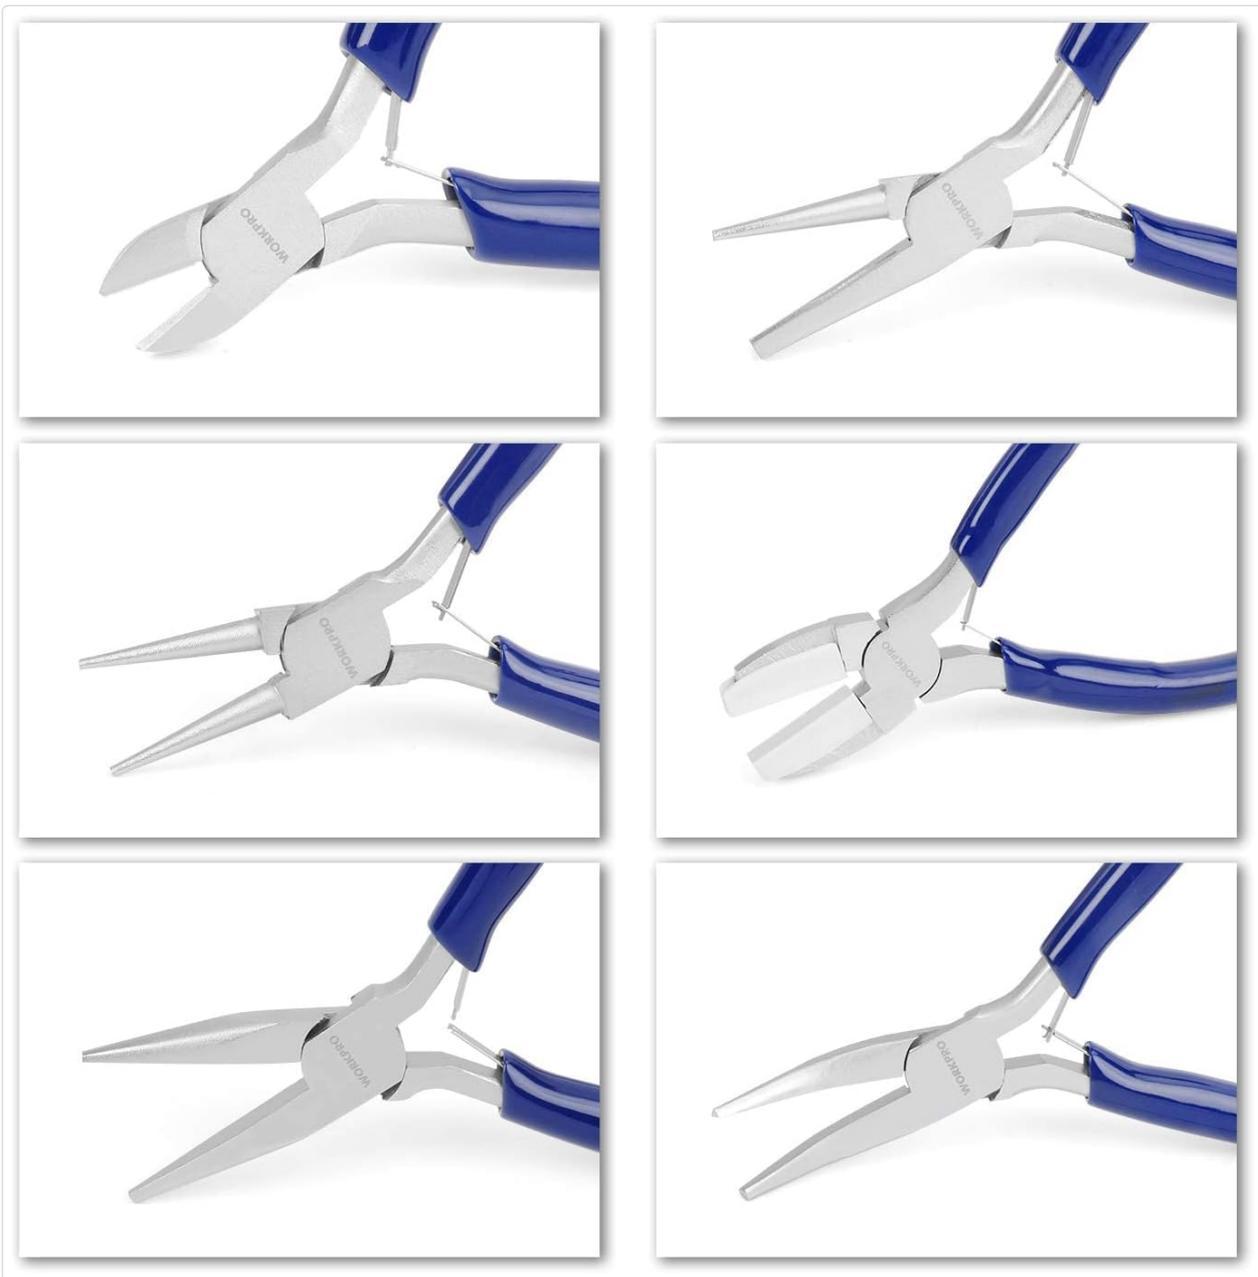

Image showing the seven jewelers pliers with their approximate sizes: diagonal cutting pliers (4 inch / 10 cm) and other pliers (4-3/4 inch / 12 cm) and (5-1/2 inch / 14 cm).

Six close-up views of different jewelers pliers, highlighting their distinct jaw shapes for various tasks.

The seven-piece jewelry pliers set neatly organized within a zippered storage case, secured by elastic straps.

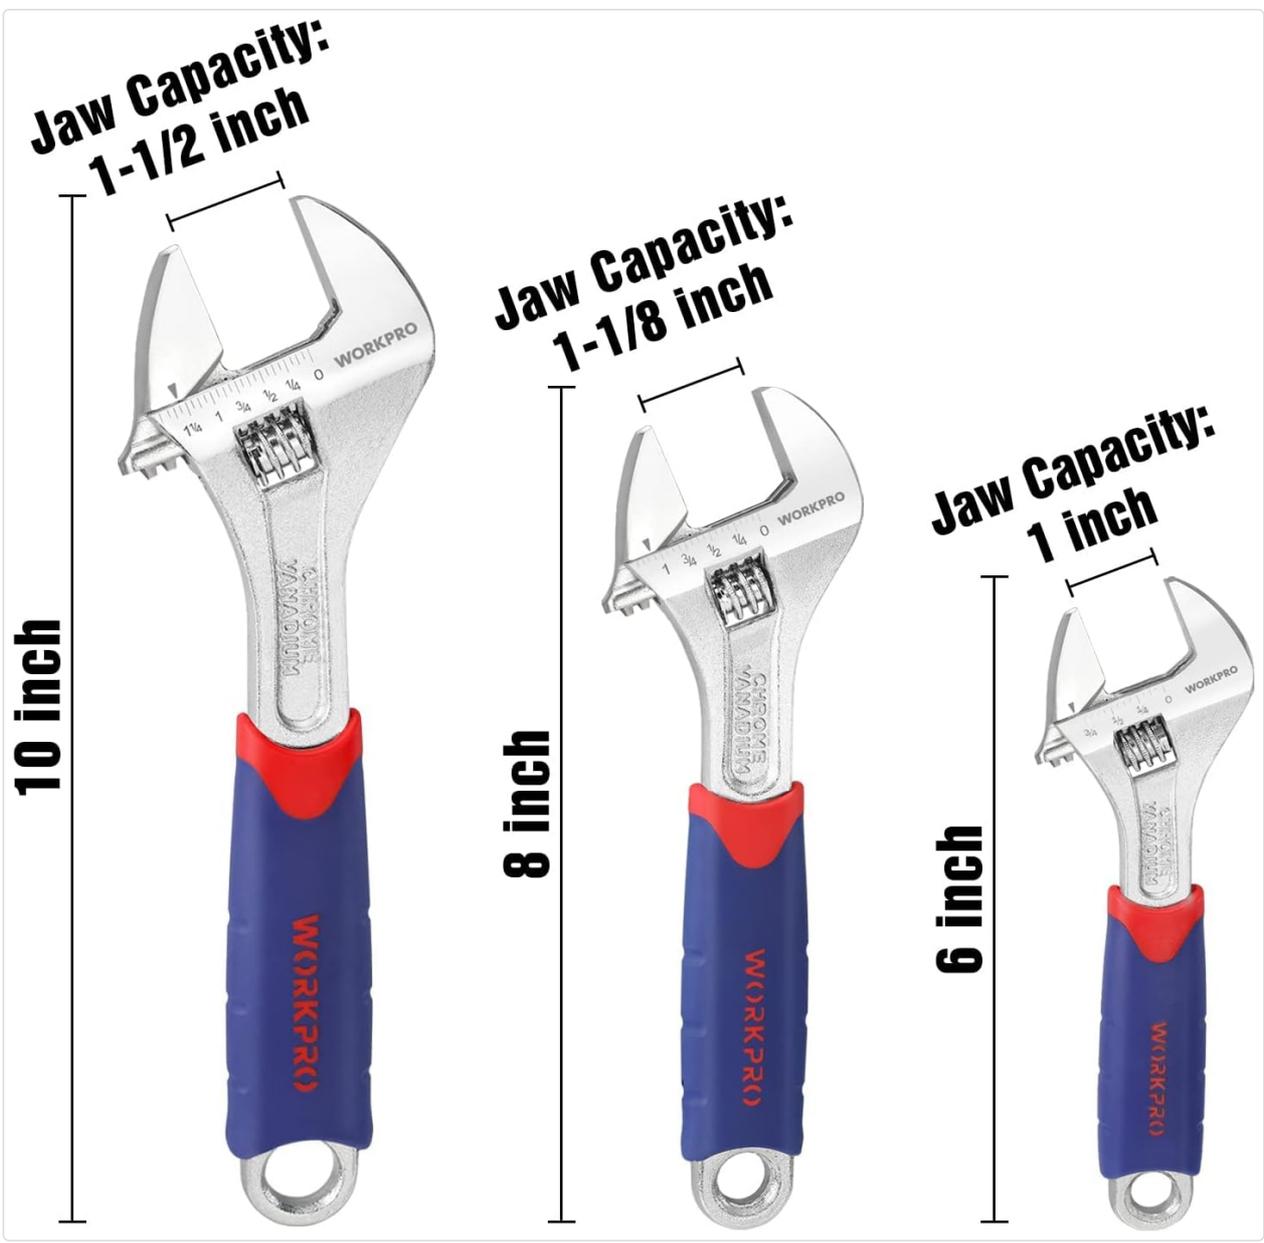

A close-up of the nylon jaw pliers holding a black bead, demonstrating their use for delicate work without marring surfaces.

WORKPRO 3-piece Adjustable Wrench Set

This set provides versatility for various fastening and loosening tasks. It includes:

- 10-inch Adjustable Wrench
- 8-inch Adjustable Wrench
- 6-inch Adjustable Wrench

10 inch

**Jaw Capacity:
1-1/2 inch**

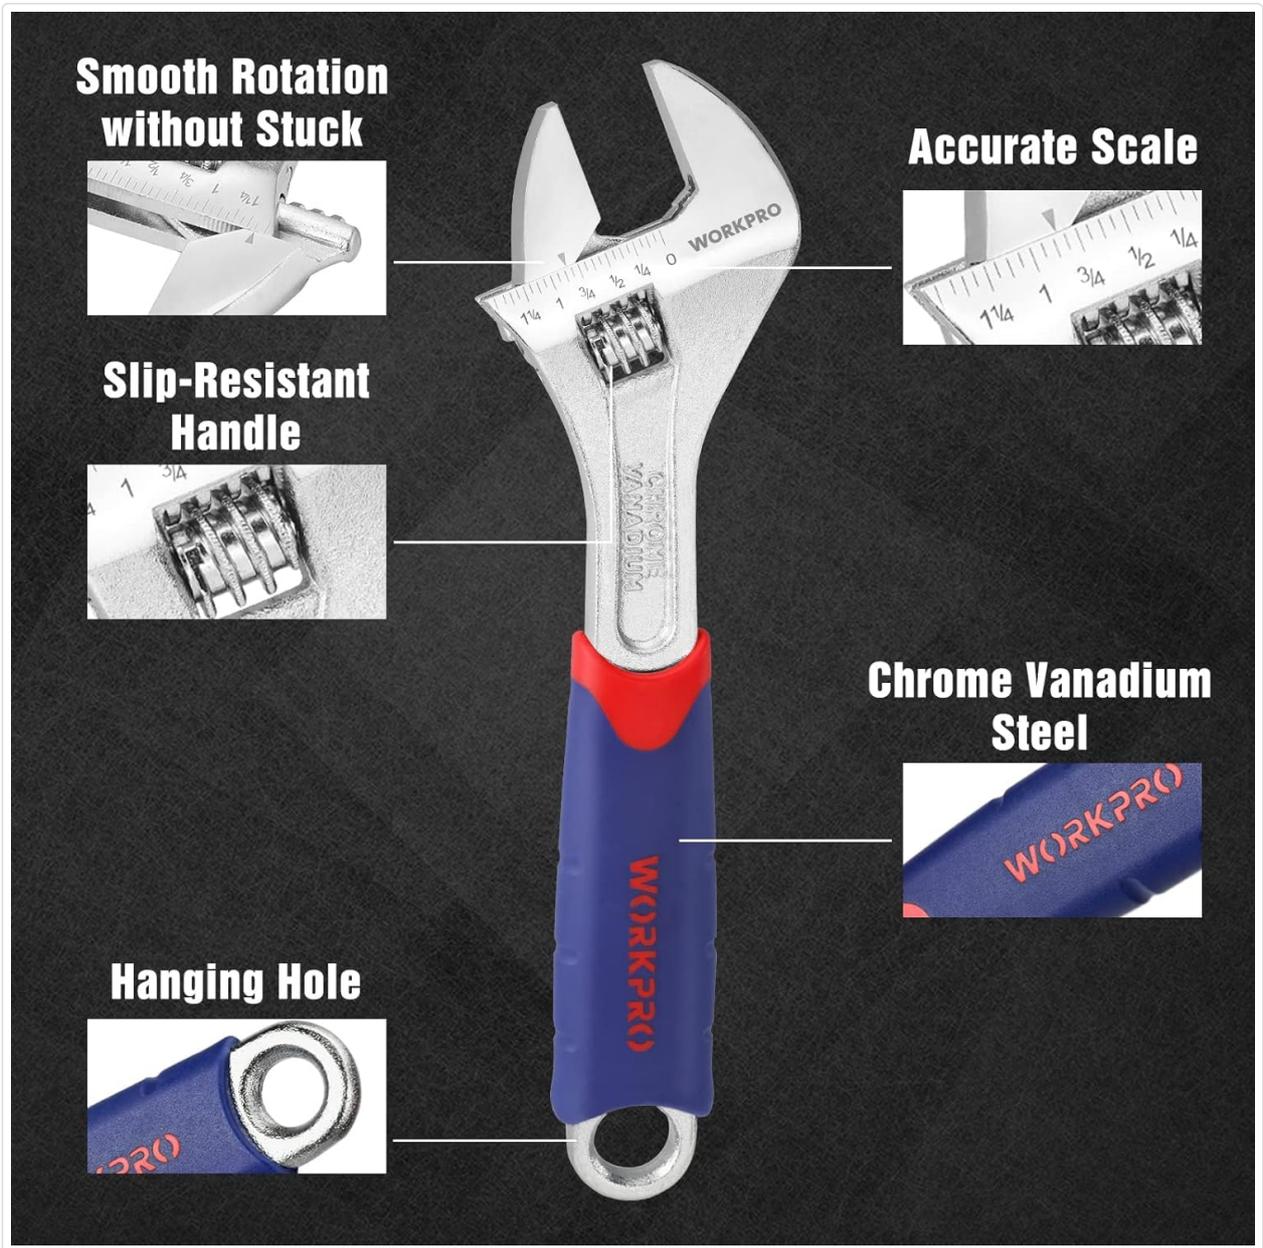

8 inch

**Jaw Capacity:
1-1/8 inch**

6 inch

**Jaw Capacity:
1 inch**

Image displaying the three adjustable wrenches with their respective sizes and jaw capacities: 10-inch (1-1/2 inch jaw), 8-inch (1-1/8 inch jaw), and 6-inch (1 inch jaw).

Detailed view of an adjustable wrench highlighting its features: smooth rotation, accurate scale, slip-resistant handle, chrome vanadium steel construction, and a hanging hole.

A hand using an adjustable wrench to tighten a bolt on a piece of machinery, demonstrating practical application.

A close-up, angled view of the three adjustable wrenches, showcasing their chrome finish and ergonomic handles.

SAFETY INFORMATION

Always follow basic safety precautions when using hand tools to reduce the risk of personal injury or damage to property.

- **Wear Eye Protection:** Always wear safety glasses or goggles to protect your eyes from flying debris.
- **Use the Right Tool for the Job:** Do not use pliers or wrenches for purposes they were not designed for.
- **Inspect Tools Before Use:** Check for any damage, cracks, or wear. Do not use damaged tools.
- **Keep Tools Clean and Dry:** This prevents rust and ensures a secure grip.
- **Secure Workpiece:** Ensure the item you are working on is stable and secure.
- **Maintain a Firm Grip:** A slip-resistant grip helps prevent accidents.
- **Store Tools Safely:** Keep tools in their case or a designated storage area, out of reach of children.

SETUP

Your WORKPRO tool sets are ready for use directly out of the packaging. No assembly is required.

- **Unpack:** Carefully remove all tools from their packaging.
- **Inspect:** Before first use, visually inspect each tool for any manufacturing defects or shipping damage.
- **Familiarize:** Identify each plier type and wrench size to understand their specific applications.

OPERATING INSTRUCTIONS

Using Jewelers Pliers

- **Nylon Jaw Pliers:** Use for straightening wire, flattening metal, or holding delicate items without scratching or marring the surface.
- **Round Nose Pliers:** Ideal for creating loops, curves, and coils in wire for jewelry making.
- **Bent Nose Pliers:** Useful for reaching into tight spaces, bending wire at angles, or opening/closing jump rings.
- **Diagonal Cut Nose Pliers:** Designed for cutting soft wire, headpins, and eyepins cleanly. Do not use for cutting hard wire.
- **Flat Nose Pliers:** Excellent for gripping, bending, or flattening wire and metal components.
- **Wire Looping Pliers:** Specifically designed to create consistent loops in wire for various jewelry components.

Using Adjustable Wrenches

- **Select Size:** Choose the appropriate wrench size (6-inch, 8-inch, or 10-inch) based on the fastener.
- **Adjust Jaw:** Rotate the knurled worm screw to adjust the jaw opening until it fits snugly around the fastener. Ensure the jaws are parallel to the fastener's flats to prevent slipping and rounding.
- **Apply Force:** Always pull the wrench towards you, rather than pushing, to maintain better control and reduce the risk of slipping. Apply steady, even pressure.
- **Avoid Over-tightening:** Tighten fasteners only to the required torque. Over-tightening can damage the fastener or the workpiece.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your tools.

- **Cleaning:** After each use, wipe down tools with a clean, dry cloth to remove dirt, grease, or moisture.
- **Rust Prevention:** For metal tools, apply a light coat of rust-preventative oil periodically, especially if stored in humid conditions.
- **Lubrication (Wrenches):** For adjustable wrenches, occasionally apply a small amount of light machine oil to the jaw mechanism to ensure smooth operation.
- **Storage:** Store tools in their original case or a dry, secure location to protect them from damage and environmental elements.

TROUBLESHOOTING

If you encounter issues with your tools, consider the following common solutions:

- **Stiff Wrench Adjustment:** If the adjustable wrench jaw is stiff, clean the mechanism thoroughly and apply a small amount of lubricant.
- **Rust Spots:** Minor rust can often be removed with fine steel wool or a rust-removing agent, followed by oiling.

- **Damaged Jaws/Tips:** If plier tips or wrench jaws are bent or damaged, the tool may need replacement to ensure safe and effective use.

SPECIFICATIONS

Feature	Detail
Brand	WORKPRO
ASIN	B09QBVGD3K
Material	Nylon (handles), Chrome Vanadium Steel (wrenches)
Color	Blue
Handle Material	Nylon
Grip Type	Ergonomic, Slip-Resistant
Jewelers Pliers Set	7-Piece (Nylon Jaw, Round Nose, Bent Nose, Diagonal Cut, Flat Nose, Wire Looping Pliers, Brass Ring)
Adjustable Wrench Set	3-Piece (10-inch, 8-inch, 6-inch)
10-inch Wrench Jaw Capacity	1-1/2 inch
8-inch Wrench Jaw Capacity	1-1/8 inch
6-inch Wrench Jaw Capacity	1 inch
