1. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury when using your appliance, follow these basic precautions:

- Read all instructions before using the appliance.
- Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

2. SETUP AND INSTALLATION

2.1 Unpacking

Carefully remove all packaging materials from the appliance. Ensure all included components, such as the User's Manual, Light, and Switch, are present. Dispose of packaging materials responsibly.

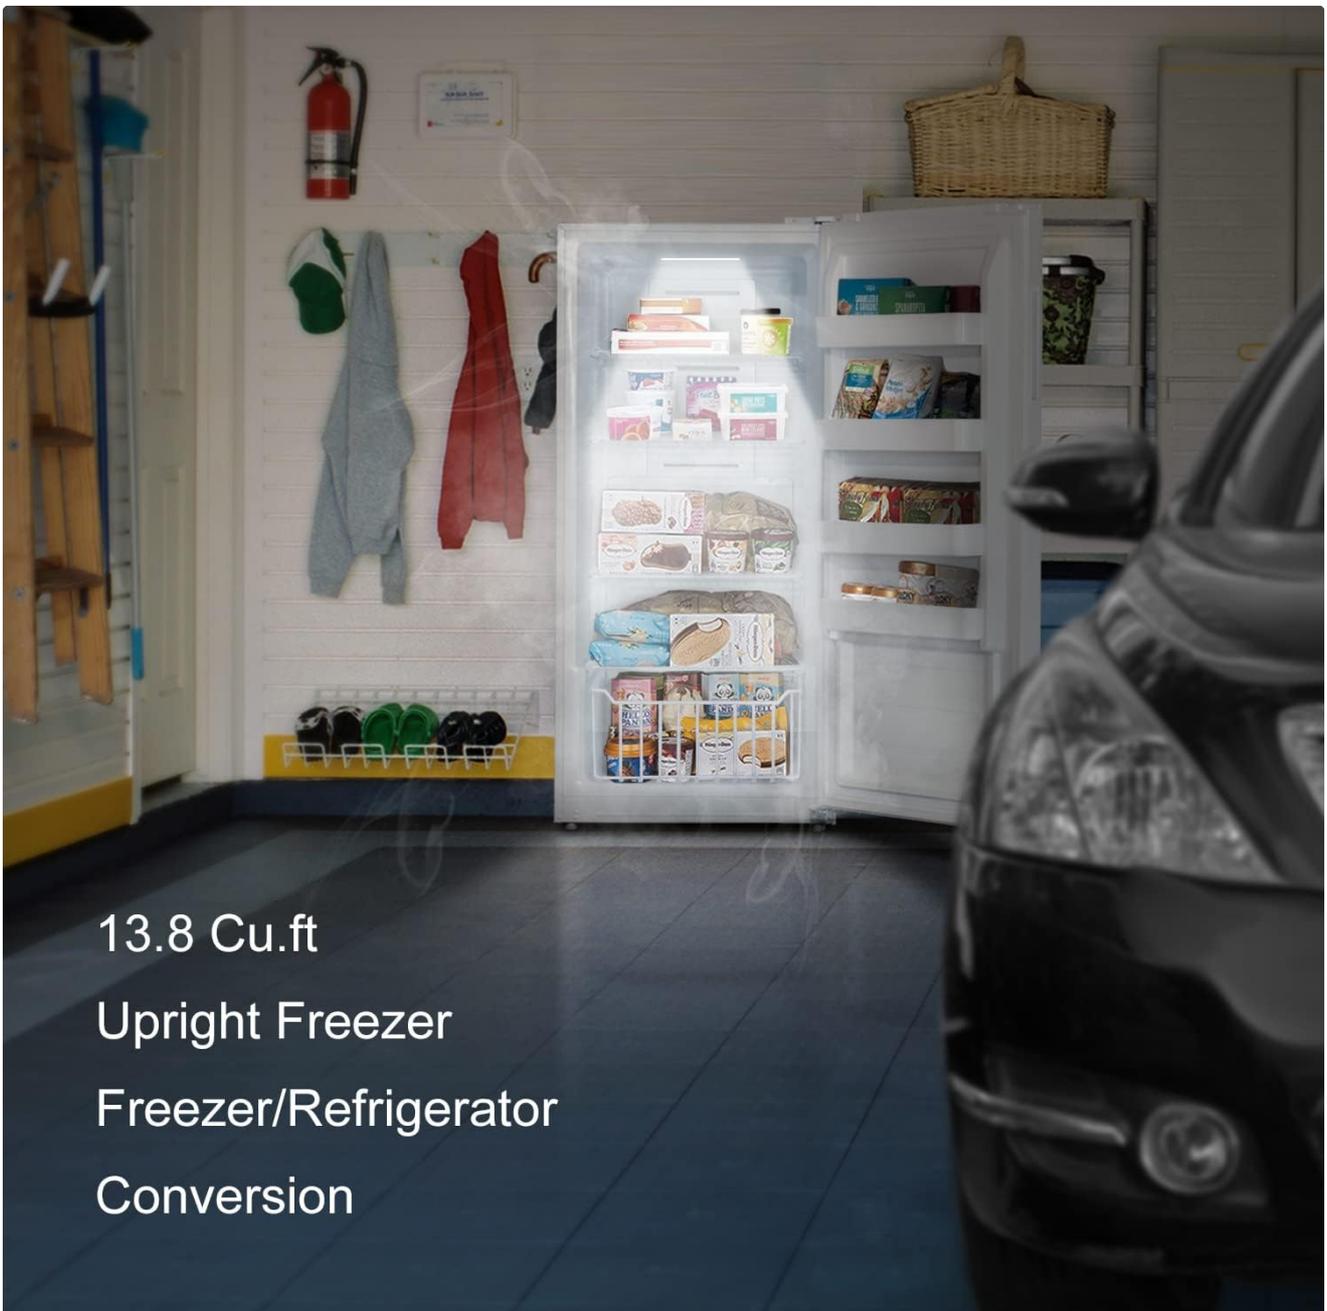

2.2 Placement

Place the freezer on a flat, stable surface away from direct sunlight and heat sources. Allow adequate space around

the unit for proper ventilation. This unit is designed to be garage-ready, capable of operating efficiently in a wide range of ambient temperatures.

Figure 2.2.1: Product Dimensions and Capacity. The freezer measures approximately 28 inches (W) x 29.5 inches (D) x 61.8 inches (H) and offers 13.8 cubic feet of storage.

2.4 Power Connection

Connect the appliance to a dedicated 110 Volt power outlet. Do not use extension cords or adapter plugs. Allow the unit to stand upright for at least 2-4 hours before plugging it in to allow refrigerants to settle.

3. OPERATING YOUR APPLIANCE

3.1 Temperature Control and Conversion

Your SMETA upright freezer features an electronic control panel with an LED display located inside the unit. This allows for easy temperature adjustment and conversion between freezer and refrigerator modes. There are three temperature settings: Cold, Colder, and Coldest, ranging from -4°F to 50°F.

3.5 Door Features

The door features a recessed handle for a sleek look and easy opening. The door hinges are on the right by default but can be reversed for left-hand opening to better suit your space and preference.

4. MAINTENANCE AND CARE

4.1 Cleaning

Regularly clean the interior and exterior of your appliance. For the interior, use a mild detergent and warm water. Wipe dry thoroughly. For the exterior, use a soft cloth and a non-abrasive cleaner. Ensure the power is disconnected before cleaning.

4.2 Defrosting

Due to the total frost-free design, manual defrosting is not required. The appliance automatically manages frost buildup, ensuring optimal performance and convenience.

4.3 Power Outage

In case of a power outage, keep the appliance door closed to maintain the internal temperature for as long as possible. Avoid opening the door unnecessarily to preserve stored food.

5. TROUBLESHOOTING

Before contacting customer service, please refer to the following table for common issues and their solutions:

Problem	Possible Cause	Solution
Appliance does not operate.	Not plugged in; circuit breaker tripped; power outage.	Ensure plug is secure; reset circuit breaker; check household power.
Temperature is too warm.	Door not closed properly; excessive door openings; warm food added; temperature setting too high.	Check door seal; reduce door openings; allow warm food to cool before storing; adjust temperature setting lower.
Excessive noise.	Appliance not level; items vibrating inside; normal operating sounds.	Adjust leveling feet; rearrange items; some sounds (e.g., refrigerant flow) are normal.
Door will not close completely.	Appliance not level; food packages obstructing; gasket dirty/damaged.	Level the appliance; rearrange food; clean or replace gasket.
