## 4. OPERATING INSTRUCTIONS

### 4.1 Connectivity Options

The Roconia Q602 projector offers a wide range of connectivity options:

- **WiFi Connection (2.4G/5G Dual-Band):** Connect wirelessly to your home network for screen mirroring. The 5G WiFi offers faster and more efficient transmission, while 2.4G provides stable and wide coverage.
- **Bluetooth 5.0:** Connect to external Bluetooth speakers or use the projector as a Bluetooth speaker for your phone.
- **HDMI:** Connect to laptops, gaming consoles (Xbox, PS4), TV sticks, and DVD players.
- **USB:** Play media directly from USB drives.
- **VGA:** Connect to older computers or devices.

- **AV:** Connect to legacy audio/video equipment.

## 4.2 Screen Mirroring & Airplay

Mirror your iOS or Android device screen wirelessly to the projector:

1. Ensure your projector and mobile device are connected to the same WiFi network (preferably 5G for smoother performance).
2. Select "Screen Mirroring" or "Airplay" option on the projector's interface.
3. On your iOS device, open Control Center and tap "Screen Mirroring" or "AirPlay Mirroring", then select the projector.
4. On your Android device, enable "Wireless Projection", "Multi-screen", or "Smart View" (names may vary by device) and select the projector.

### 4.3 Bluetooth Functionality

The projector's two-way Bluetooth 5.0 allows for flexible audio connections:

- **Connect to Bluetooth Speaker:** Pair the projector with an external Bluetooth speaker for enhanced audio output.
- **Use as Bluetooth Speaker:** Connect your smartphone to the projector via Bluetooth to use the projector's built-in speakers for audio playback.

### 4.4 Image Adjustment

Adjust the image for optimal clarity and size:

- **Focus Ring:** Rotate the focus ring on the projector lens until the image appears sharp.
- **Keystone Correction:** Use the keystone adjustment to correct trapezoidal distortion if the projector is not perfectly perpendicular to the screen.
- **Projection Distance:** Adjust the distance between the projector and the screen to achieve the desired screen size (up to 300 inches).

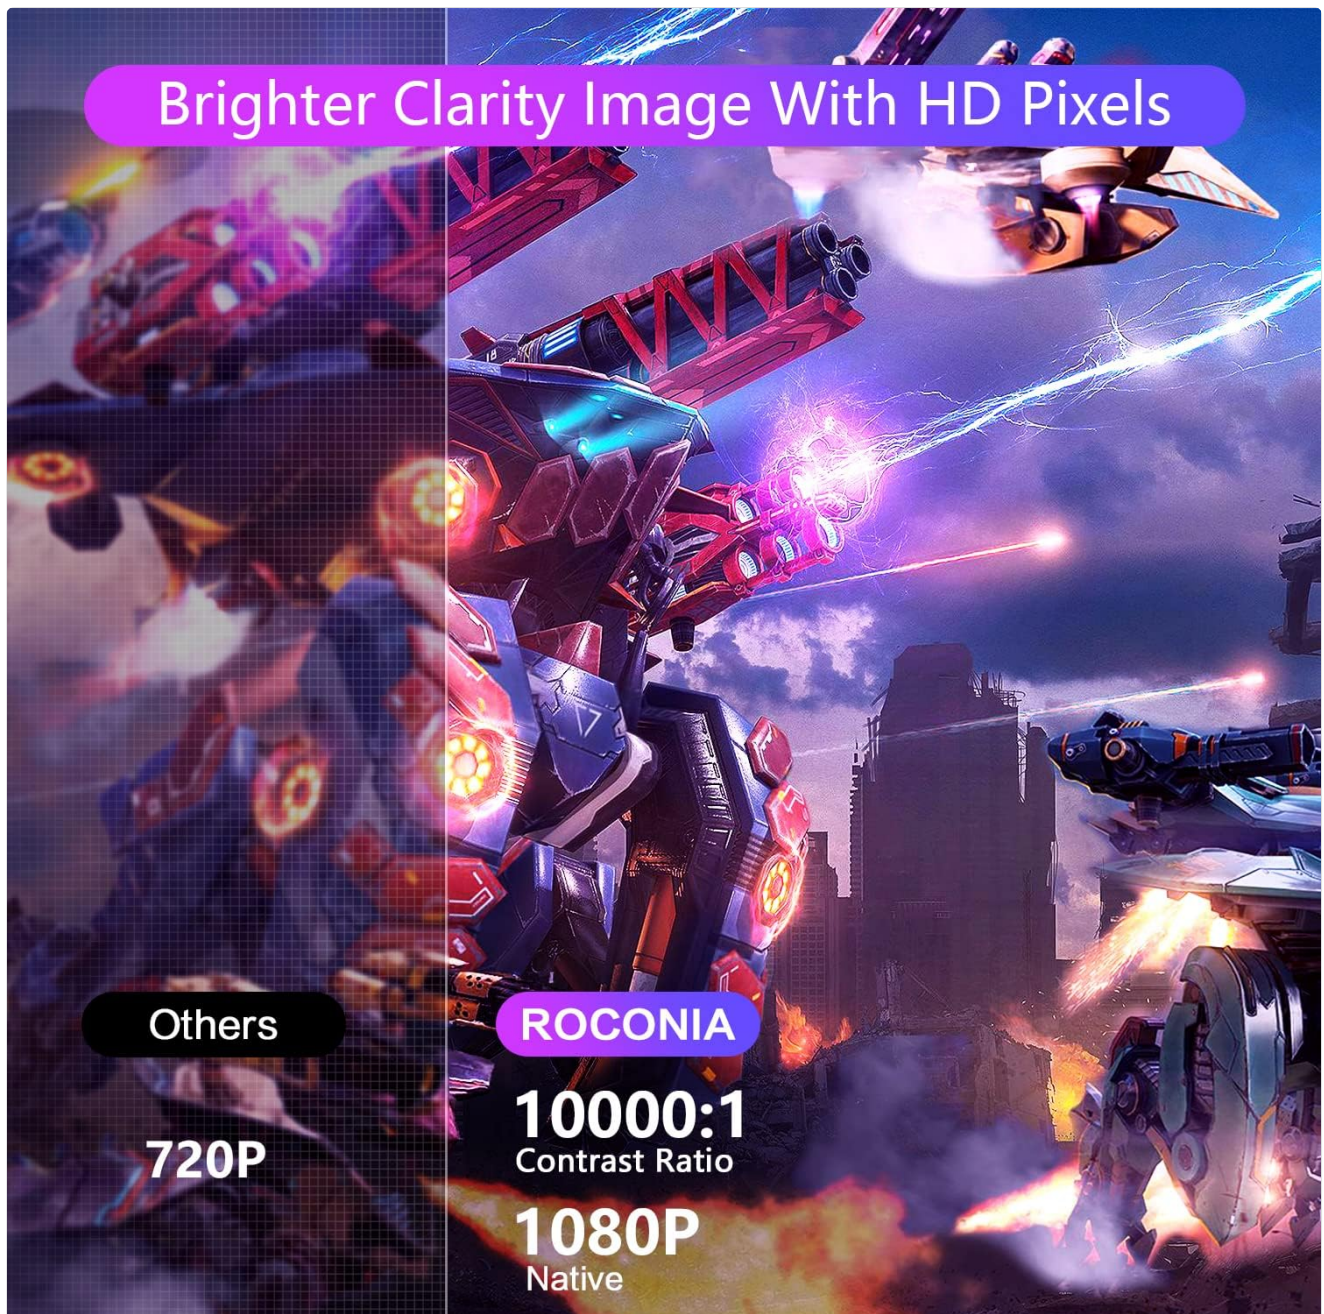

Figure 4.5: The projector delivers native 1080P resolution with a 10000:1 contrast ratio for superior image quality.

## 5. MAINTENANCE

### 5.1 Cooling System

The projector incorporates an advanced cooling system designed to efficiently dissipate heat and reduce fan noise by 80%. To ensure optimal performance and prevent overheating:

- Ensure adequate ventilation around the projector. Do not block air vents.
- Operate the projector in a well-ventilated area.
- Regularly clean dust from the air vents using a soft brush or compressed air.

### 5.2 LED Lamp Life

The Roconia Q602 projector utilizes a new LED technology that extends the lamp life up to 100,000 hours. This significantly reduces the need for lamp replacement and ensures long-term, consistent performance.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your projector.

### 6.1 No Image or Poor Image Quality

- **Check Power:** Ensure the projector is properly connected to power and turned on.
- **Input Source:** Verify that the correct input source (HDMI, USB, AV, etc.) is selected.
- **Focus Adjustment:** Adjust the focus ring on the lens until the image is clear.
- **Keystone Correction:** Correct any trapezoidal distortion using the keystone adjustment.
- **Resolution:** Ensure the input device's resolution is compatible with the projector's native 1080P resolution.

### 6.2 No Sound or Low Volume

- **Volume Level:** Increase the volume on both the projector and the connected source device.
- **Audio Output:** If using external speakers, ensure they are properly connected and powered on.
- **Bluetooth Connection:** If using Bluetooth, ensure the projector is correctly paired with the audio device.
- **Source Audio:** Check if the audio is working on the source device itself.

### 6.3 WiFi Connection Issues

- **Network Selection:** Ensure you are connecting to the correct 2.4G or 5G WiFi network.
- **Signal Strength:** Move the projector closer to the WiFi router for a stronger signal.
- **Router Reboot:** Try restarting your WiFi router.
- **Password:** Double-check the WiFi password for accuracy.

### 6.4 Fan Noise

- The projector's advanced cooling system is designed to minimize fan noise. However, some noise is normal during operation.
- Ensure proper ventilation around the projector to prevent the fans from working harder due to heat buildup.
- Avoid placing the projector in enclosed spaces.
