Fafrees F20 Electric Fatbike User Manual

Model: F20 | Brand: Fafrees

INTRODUCTION

Welcome to the Fafrees F20 Electric Fatbike user manual. This guide provides essential information for the safe operation, maintenance, and troubleshooting of your new electric bicycle. Please read this manual thoroughly before your first ride to ensure optimal performance and safety.

SETUP GUIDE

Unboxing and Initial Assembly

Your Fafrees F20 electric fatbike comes partially assembled. Follow these steps to complete the setup:

- Carefully remove the bike and all components from the packaging.
- Unfold the frame and secure the locking mechanisms.
- Install the handlebars, ensuring they are aligned and tightened.
- Attach the pedals. Note that pedals are often left (L) and right (R) specific and thread in opposite directions.
- Adjust the seat post height.
- Check tire pressure.
- Fully charge the battery before first use.

Battery Installation and Charging

The Fafrees F20 features a removable 36V 16Ah lithium battery.

1. To install, slide the battery into its compartment until it clicks securely.
2. To remove, use the key to unlock and pull the battery out.
3. Connect the charger to the battery charging port and then to a power outlet. The indicator light on the charger will show charging status.
4. Charge until the indicator light turns green, indicating a full charge.

OPERATING INSTRUCTIONS

Powering On/Off

Locate the power button on the handlebar display. Press and hold to turn the bike on or off.

Riding Modes

The Fafrees F20 offers three riding modes:

- **Electric Mode:** Provides full motor power without pedaling, controlled by the thumb throttle. Estimated range: 55-65 km.
- **Pedal Assist Mode (PAS):** The motor provides assistance as you pedal. Adjust assist levels via the display. Estimated range: 90-120 km.
- **Manual Mode:** Ride like a traditional bicycle without motor assistance.

Battery Care

- Store the battery in a cool, dry place.
- Avoid fully discharging the battery.
- Charge the battery at least once every two months if not in use.

Cleaning

Use a damp cloth to clean the bike. Avoid high-pressure washing directly on electrical components.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Bike does not power on	Low battery, loose battery connection, power button issue	Charge battery, re-seat battery, check connections, contact support
Motor not assisting	PAS level too low, brake levers engaged, motor connection issue	Increase PAS level, release brake levers, check motor cable, contact support
Brakes feel weak	Worn brake pads, loose cables, air in hydraulic system (if applicable)	Inspect/replace pads, adjust cable tension, consult professional for hydraulic systems
Unusual noises	Loose components, dry chain, misaligned gears	Check all fasteners, lubricate chain, adjust derailleur

For more complex issues, please contact Fafrees customer service. Provide a detailed description, and if possible, photos or videos of the problem.
