

elago EAW41DUO

elago Duo Case for Apple Watch (40/41mm)

User Instruction Manual

1. INTRODUCTION

The elago Duo Case is designed to provide comprehensive protection for your Apple Watch. Constructed from a hybrid combination of durable polycarbonate (PC) and flexible thermoplastic polyurethane (TPU), this case safeguards your device against bumps, scratches, and daily wear. The design ensures full access to the watch screen, including its edges, maintaining full functionality.

4. SETUP (INSTALLATION)

Follow these steps to properly install the elago Duo Case on your Apple Watch:

1. **Prepare Your Watch:** Remove the watch bands from your Apple Watch. This provides easier access for case installation.
2. **Insert Watch into Main Case:** Gently insert your Apple Watch into the flexible TPU main case. Ensure the watch is seated correctly within the case, aligning all cutouts with the watch's buttons and sensors.
3. **Attach Accent Piece:** Select your desired PC accent piece. Align the accent piece with the main TPU case and carefully clip it into place. Ensure it snaps securely around the watch face. A small groove in the accent piece is designed to accommodate the Digital Crown, allowing for its proper function.
4. **Reattach Bands:** Once the case is securely installed, reattach your Apple Watch bands.

5. OPERATING YOUR DEVICE WITH THE CASE

The elago Duo Case is designed to provide protection without hindering the functionality of your Apple Watch. The open-face design ensures that the screen remains fully accessible for touch interactions, swipes, and edge gestures. All buttons, including the Digital Crown and side button, remain functional through precise cutouts and design features.

6. MAINTENANCE

To ensure the longevity and appearance of your elago Duo Case, follow these maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and smudges. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and air drying.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the material and finish of the case.
- **Storage:** When not in use, store the case in a clean, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter any issues with your elago Duo Case, consider the following:

- **Case Not Fitting Properly:** Ensure your Apple Watch model is compatible with the 40/41mm case size. Double-check that the watch bands were removed before installation and that the watch is fully seated within the TPU main case before attaching the accent piece.
- **Difficulty with Digital Crown:** Verify that the accent piece is correctly aligned, allowing the Digital Crown to rotate freely within its designated groove. If the crown feels stiff, remove and reattach the

accent piece, ensuring proper alignment.

- **Accent Piece Detaching:** Ensure the accent piece is firmly clipped into the main TPU case. Apply gentle, even pressure around the edges until it snaps securely into place.

8. SPECIFICATIONS

Feature	Detail
Model Number	EAW41DUO-TRLBL
Compatible Devices	Apple Watch (40/41mm)
Material	PC (Polycarbonate) and TPU (Thermoplastic Polyurethane)
