nuphy Air60

Nuphy Air60 Portable Wireless Keyboard Instruction Manual

Model: Air60

Brand: Nuphy

INTRODUCTION

The Nuphy Air60 is a highly portable and versatile 60% low-profile mechanical keyboard designed for seamless integration across multiple operating systems and devices. It offers a premium typing experience with its Gateron Brown Switches and durable PBT keycaps, complemented by vibrant RGB lighting. This manual provides essential information for setting up, operating, and maintaining your Nuphy Air60 keyboard.

SETUP AND CONNECTIVITY

Connection Modes

The Nuphy Air60 offers three versatile connection modes:

- **Bluetooth 5.0:** For wireless connection to up to 4 devices. Ideal for tablets, smartphones, and computers with Bluetooth capability.
- **2.4G Wireless:** Utilizes the included 2.4G receiver for a stable and fast wireless connection, perfect for desktop PCs.
- **USB-C Wired:** Connect directly to your device using the provided USB-C cable for a reliable, lag-free connection and simultaneous charging.

System Compatibility

The keyboard is designed to be compatible with both major operating systems:

- **Windows OS:** Fully compatible with Windows computers.
- **Mac OS:** Fully compatible with Mac computers, including the latest Macbooks.

OPERATING YOUR KEYBOARD

Key Layout

The Air60 features a compact 60% layout with 64 keys. This design omits the traditional F-row (F1-F12) and dedicated navigation keys to save space. Multimedia functions and other specialized commands are accessed by pressing the Function (Fn) key in combination with other keys, as indicated by secondary legends on the keycaps.

RGB Lighting

The keyboard boasts customizable RGB backlighting for individual keys and unique RGB sidelights. These lights not only enhance the aesthetic appeal but also provide visual cues for connectivity status and battery level. Refer to the quick guide for instructions on changing lighting modes and colors.

MAINTENANCE AND CUSTOMIZATION

Hot-Swappable Switches

The Nuphy Air60 features a hot-swappable PCB, allowing you to easily change the mechanical switches without any soldering. This enables users to customize the typing feel to their preference. The keyboard comes pre-installed with Gateron Brown Switches, and sample switches (Red, Blue) are often included for testing different tactile experiences.

Durable PBT Keycaps

The keyboard is equipped with high-quality PBT (Polybutylene Terephthalate) keycaps. PBT is known for its

durability, resistance to shine, and a textured feel that provides a comfortable typing experience over long periods. The included key puller allows for easy removal and replacement of keycaps for cleaning or customization.

Adjustable Feet

The Nuphy Air60 includes magnetic feet that can be attached to the bottom of the keyboard to adjust its typing angle. This feature allows users to find the most ergonomic and comfortable position for extended typing sessions. Extra foot pads are provided in the package.
