PREPARATION AND SERVING

Neuhaus chocolates are ready to be enjoyed directly upon receipt. For the best experience, allow the chocolates to come to room temperature for a few minutes before consumption if they have been refrigerated. This allows the delicate flavors and textures to fully develop.

STORAGE AND HANDLING

To maintain the quality and freshness of your Neuhaus chocolates, store them in a cool, dry place, ideally between 15°C and 18°C (59°F and 64°F). Avoid direct sunlight, strong odors, and extreme temperature fluctuations. Proper storage ensures the chocolates retain their exquisite taste and texture.

QUALITY ASSURANCE

Neuhaus is committed to delivering products of the highest quality. Every step of the chocolate-making process, from ingredient selection to final packaging, is meticulously controlled to ensure perfection. Our dedication to craftsmanship and the use of 100% natural ingredients guarantee a superior chocolate experience.
