1. Unpack all components and verify that all listed parts are present.

## OPERATING INSTRUCTIONS

This patio conversation set is designed for outdoor use in various settings such as gardens, patios, poolside areas, and backyards. The durable PE rattan and steel frame ensure longevity and stability.

The set is versatile and can be arranged in multiple configurations to fit your space and needs. The cushions provide comfort for extended periods of relaxation.

## MAINTENANCE AND CARE

To ensure the longevity and appearance of your HAPPYGRILL patio set, regular maintenance is recommended:

- **Cleaning the Frame and Table:** Wipe the PE rattan and steel frame with a damp cloth. For more stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water.
- **Cushion Care:** The cushion covers are removable via a zipper and are machine washable. For best results, wash on a gentle cycle with cold water and air dry. Avoid using harsh chemicals or bleach, as this may damage the fabric.

- **Weather Protection:** While the set is weather-resistant, covering it during prolonged periods of harsh weather (heavy rain, snow, intense sun) or when not in use can further extend its lifespan.
- **Tempered Glass:** Clean the tempered glass tabletop with a glass cleaner and a soft cloth. Avoid abrasive cleaners or tools that could scratch the surface.

## TROUBLESHOOTING

- **Issue: Screw holes do not align during assembly.**

**Solution:** Ensure all screws are only partially installed and loose before attempting to fully tighten any. This allows for minor adjustments to align all parts correctly. Once all components are in place, then proceed to fully tighten all screws.

- **Issue: Furniture legs are uneven or the table is wobbly.**

**Solution:** This can occur if screws were tightened prematurely during assembly. Loosen all screws on the affected piece, ensure the furniture is on a flat, level surface, and gently press down on the piece to settle it. Then, re-tighten all screws evenly.

- **Issue: Cushions appear thin or flat over time.**

**Solution:** While cushions are designed to be resilient, prolonged use can affect their loft. Fluffing the cushions regularly can help restore their shape. Ensure they are completely dry after cleaning to prevent mildew.
