5.2. Silent & Durable Click

The left and right click buttons are engineered for silent operation, making it ideal for use in quiet environments such as offices, libraries, or dormitories. The mouse is tested for up to 5 million clicks, ensuring long-lasting durability.

5.3. Advanced Energy Saving Mode

To conserve battery life, the mouse will automatically enter sleep mode if it is not used for 8 minutes. Simply press any button to wake it up. This feature helps extend the life of your AA battery.

6. MAINTENANCE

6.1. Battery Replacement

When the mouse's indicator light flashes red, it signifies a low battery. Replace the AA battery as described in Section 3.1.

6.2. Cleaning

To clean your mouse, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the internal components. Avoid using harsh chemicals or abrasive materials.

7. TROUBLESHOOTING

7.1. Mouse Not Working

- **Check Battery:** Ensure the battery is charged. If the indicator light flashes red, replace it with a new AA battery.
- **USB Connection:** Check if the USB receiver has poor contact with the computer's USB port. Try re-plugging it or using a different USB port on your computer.

7.2. Compatibility Issues

- The mouse is a 2.4G wireless mouse and does not support Bluetooth.
- The receiver is USB and does not support Type-C interfaces directly. An adapter would be required for Type-C ports.
