STAMP Spidey Running Bike (Model SP330006) - Instruction Manual

Your guide to assembly, safe operation, and maintenance.

1. INTRODUCTION

Thank you for choosing the STAMP Spidey Running Bike. This 10-inch balance bike is designed to help young children develop balance and coordination, preparing them for a pedal bicycle. It features a durable steel frame, puncture-proof EVA solid tires, and adjustable components for a comfortable and safe riding experience.

2. SAFETY WARNINGS

WARNING: Adult supervision is required at all times. This product is intended for children aged 24 months to 4 years, with a maximum weight capacity of 30 kg (66 lbs).

- Always ensure the child wears a helmet and appropriate protective gear (knee pads, elbow pads) when riding.
- Do not use on public roads, near motor vehicles, steep inclines, stairs, or swimming pools.
- Ensure all bolts, nuts, and fasteners are securely tightened before each use.
- Regularly inspect the bike for any damage or loose parts. Do not use if damaged.
- The steering angle is limited for safety; do not force the handlebars beyond their intended range.
- Keep hands and feet clear of moving parts.

3. PRODUCT OVERVIEW AND COMPONENTS

The STAMP Spidey Running Bike is designed with the following key components:

- **Steel Frame:** Durable and robust construction.
- **10-inch EVA Solid Tires:** Puncture-proof for maintenance-free use.
- **5-Spoke Nylon Rims:** Lightweight and strong.
- **ABEC 5 Bearings:** For smooth wheel rotation.
- **Foam Saddle:** Provides comfort during rides.

- **Adjustable Saddle and Handlebars:** Allows for customization to fit the child's height.
- **Anti-Pinch Grips:** Designed for small hands and enhanced safety.
- **Steering Angle Limitation:** Prevents over-steering for better control.

4. SETUP AND ASSEMBLY

The STAMP Spidey Running Bike comes mostly pre-assembled. Only minor adjustments are typically required to ensure a proper fit for your child.

4.1. Adjusting Handlebars

1. Loosen the quick-release lever or bolt at the base of the handlebars.
2. Adjust the handlebar height so that the child can comfortably reach the grips with a slight bend in their elbows while standing over the bike.
3. Ensure the handlebars are aligned straight with the front wheel.
4. Tighten the quick-release lever or bolt securely.

4.2. Adjusting Saddle Height

1. Loosen the quick-release lever or bolt on the seat post clamp.
2. Adjust the saddle height so that the child can place both feet flat on the ground with a slight bend in their knees while seated. This allows them to push off and stop easily.
3. Ensure the saddle is facing forward.
4. Tighten the quick-release lever or bolt securely.

Important: After any adjustment, double-check that all components are firmly secured to prevent movement during use.

5. OPERATING INSTRUCTIONS

The STAMP Spidey Running Bike is designed for intuitive use, focusing on developing balance.

1. **Starting:** Have the child stand over the bike with both feet flat on the ground. Encourage them to

walk forward while holding the handlebars.

2. **Gliding:** As the child gains confidence, they will naturally start to push off with their feet and lift them, gliding for short distances.
3. **Steering:** Teach the child to gently turn the handlebars to steer. The limited steering angle helps prevent sharp turns and loss of control.
4. **Stopping:** Instruct the child to place their feet flat on the ground to stop.
5. **Practice:** Encourage practice in a safe, open, flat area away from obstacles.

Always supervise your child and ensure they are comfortable and confident before allowing them to ride independently.

6. MAINTENANCE

Regular maintenance ensures the longevity and safety of the running bike.

- **Cleaning:** Wipe down the frame and components with a damp cloth. Avoid harsh chemicals.
- **Fasteners:** Periodically check all bolts, nuts, and quick-release levers to ensure they are tight. Loose fasteners can lead to instability and potential hazards.
- **Tires:** The EVA solid tires are puncture-proof and require no inflation. Inspect them for excessive wear or damage.
- **Bearings:** The ABEC 5 bearings are generally maintenance-free. If you notice any grinding or resistance in the wheels, contact customer support.
- **Storage:** Store the bike in a dry place, away from direct sunlight and extreme temperatures, to prevent material degradation.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Saddle or Handlebars Slip:** Ensure the quick-release levers or bolts are fully tightened. If they continue to slip, check for any obstructions or wear on the clamping surfaces.
- **Wheels Not Spinning Freely:** Check for any debris caught in the wheel axles or bearings. If the issue persists, the bearings might be damaged and require professional inspection.
- **Bike Feels Unstable:** Verify that all assembly steps were followed correctly and all fasteners are secure. Ensure the child's feet can comfortably reach the ground.
- **Missing Parts:** If any parts were missing upon unboxing, please contact customer support immediately.

8. SPECIFICATIONS

Model Number	SP330006
Dimensions (L x W x H)	70 x 43 x 62 cm (27.5 x 16.9 x 24.4 inches)
Weight	3 kg (6.6 lbs)
Recommended Age	24 months - 4 years
Maximum Load Capacity	30 kg (66 lbs)

Wheel Size	10 inches
Frame Material	Steel Alloy
Tire Material	EVA (Ethylene-vinyl acetate)
Color	Blue/Red

9. WARRANTY AND SUPPORT

STAMP offers a 2-year availability for spare parts for this product. For specific warranty details, claims, or technical support, please contact the manufacturer or your retailer directly. Please retain your proof of purchase for warranty purposes.
