BoxWave AllCharge 3-in-1 Cable

BoxWave AllCharge 3-in-1 Cable Instruction Manual

Model: AllCharge 3-in-1 Cable

1. PRODUCT OVERVIEW

The BoxWave AllCharge 3-in-1 Cable is a versatile charging and data synchronization solution designed to simplify your connectivity needs. This single cable features three common charging connectors: USB Type-C, Micro USB, and Apple Lightning, allowing you to charge and sync a wide array of modern devices, including smartphones, tablets, and other accessories.

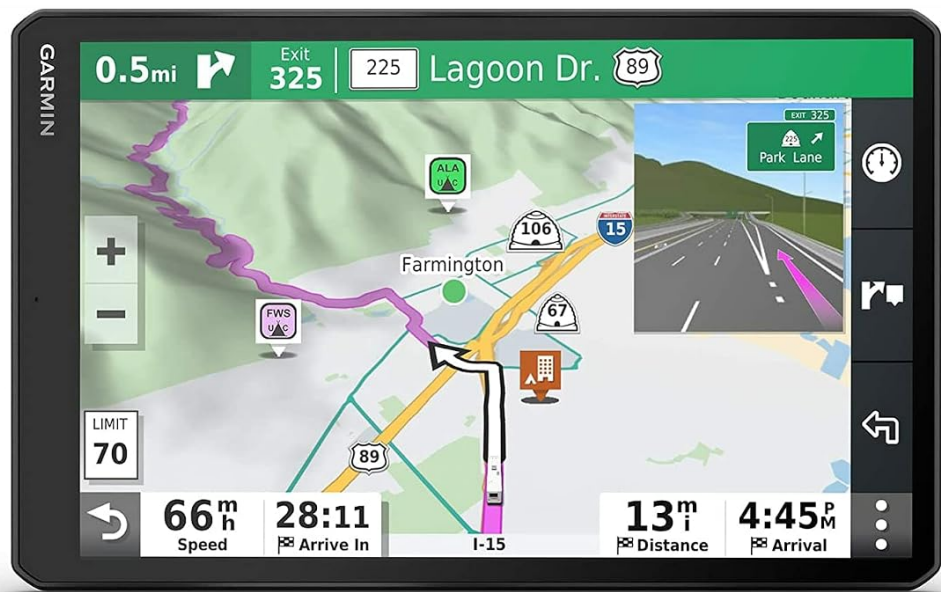

Image: The BoxWave AllCharge 3-in-1 Cable connected to a Garmin RV 1090 navigation device, demonstrating its compatibility and ease of use.

Its durable construction, featuring a rubberized exterior and tough rubber grommets, ensures longevity and resistance to fraying, making it an ideal companion for daily use and travel.

2. SETUP AND CONNECTION

The AllCharge 3-in-1 Cable is designed for plug-and-play simplicity. No complex setup or software installation is required.

2.1 Identifying Connectors

The cable features a standard USB-A connector on one end for connecting to power sources or computers, and three integrated output connectors on the other end:

- **USB Type-C:** Reversible connector, commonly found on newer Android phones, tablets, and laptops.

- **Micro USB:** Trapezoidal connector, common on older Android devices, power banks, and various accessories.
- **Apple Lightning:** Proprietary connector for Apple iPhone, iPad, and iPod devices.

Image: A detailed close-up of the three distinct connectors (USB-C, Micro USB, and Apple Lightning) on the BoxWave AllCharge 3-in-1 Cable, illustrating their unique shapes.

2.2 Connecting Your Device

1. Identify the correct connector type for your device (USB Type-C, Micro USB, or Apple Lightning).
2. Plug the standard USB-A end of the AllCharge cable into a compatible power source (e.g., wall adapter, computer USB port, power bank, car charger).
3. Insert the appropriate connector into your device's charging port. Ensure a firm and secure connection.

Your device should immediately indicate that it is charging or connected for data transfer.

3. OPERATING INSTRUCTIONS

3.1 Charging Your Devices

The AllCharge 3-in-1 Cable is designed to provide efficient power delivery to your compatible devices. Simply connect the cable as described in the Setup section. The cable supports charging for a wide range of devices, from smartphones to headphones and battery banks.

3.2 Data Synchronization

In addition to charging, the AllCharge 3-in-1 Cable supports data transfer at speeds up to 480Mbps (USB 2.0 standard). To sync data:

1. Connect the USB-A end of the cable to a computer's USB port.
2. Connect the appropriate device connector (USB Type-C, Micro USB, or Apple Lightning) to your device.
3. Your computer should recognize the connected device. Follow your device's instructions or your computer's prompts to access and transfer files.

Charge & Sync

Enjoy 480Mbps data transfer speeds while charging your device

4. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your BoxWave AllCharge 3-in-1 Cable, please follow these care instructions:

- **Storage:** Store the cable in a clean, dry place away from extreme temperatures and direct sunlight.

Avoid tightly coiling or bending the cable at sharp angles, especially near the connectors.

- **Cleaning:** If the cable or connectors become dirty, gently wipe them with a soft, dry, lint-free cloth. Do not use harsh chemicals, solvents, or abrasive cleaners.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable. Avoid pulling directly on the cable itself, as this can damage the internal wires or strain relief.
- **Protection:** The cable is designed with a durable rubberized exterior and reinforced grommets to prevent fraying. However, avoid exposing it to excessive force, sharp objects, or pets that may chew on it.

5. TROUBLESHOOTING

If you encounter issues with your AllCharge 3-in-1 Cable, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	Loose connection, incompatible power source, dirty port, or damaged cable.	Ensure connectors are fully inserted. Try a different power source (wall adapter, USB port). Check device's charging port for debris. Inspect cable for visible damage.
Slow charging.	Low-power USB port, device drawing high current, or background apps.	Use a higher-amperage wall adapter. Close unnecessary apps on your device. Ensure the power source provides sufficient output.
Data transfer not working.	Loose connection, incorrect device settings, or driver issues on computer.	Verify cable is securely connected to both device and computer. Check device's USB connection settings (e.g., set to 'File Transfer' or 'MTP'). Try a different USB port on your computer.
Cable appears damaged.	Physical stress or wear and tear.	Discontinue use immediately to prevent potential damage to your devices. Contact customer support for assistance.

6. SPECIFICATIONS

Key technical specifications for the BoxWave AllCharge 3-in-1 Cable:

Feature	Detail
Product Name	BoxWave AllCharge 3-in-1 Cable
Connectors	USB-A (Input), USB Type-C, Micro USB, Apple Lightning (Outputs)
Length	100 cm / 3 feet
Data Transfer Speed	Up to 480 Mbps (USB 2.0 Standard)
Material	Rubberized Exterior, Reinforced Grommets

Feature	Detail
Compatibility	Universal for devices with USB Type-C, Micro USB, or Apple Lightning ports (e.g., Garmin RV 1090, smartphones, tablets, accessories)
Item Weight	0.8 ounces
Manufacturer	BoxWave
Country of Origin	China

7. WARRANTY AND SUPPORT

BoxWave stands behind the quality of its products. For information regarding warranty coverage, returns, or technical support, please refer to the official BoxWave website or contact their customer service directly.

Online Support: Visit the BoxWave official website for FAQs, product registration, and support resources.

Customer Service: Refer to your product packaging or the BoxWave website for contact details (phone number, email address) for direct assistance.

Please have your product model name (AllCharge 3-in-1 Cable) and purchase information ready when contacting support.
