YEABRICKS LLK483

YEABRICKS LED Light Kit for LEGO 10297 Creator Expert Boutique Hotel

Model: LLK483

PRODUCT OVERVIEW

This LED light kit is specifically designed to illuminate your LEGO 10297 Creator Expert Boutique Hotel building blocks model, bringing it to life with vibrant lighting. Please note that the LEGO model itself is not included with this light kit.

The YEABRICKS lighting kit enhances the ambiance and truly brings your LEGO set to life. These lights will infuse your exquisite build with life, romance, and excitement, elevating it to a whole new level.

PACKAGE CONTENTS

Before beginning installation, please verify that all components are present in your package:

- LED Light Kit components (various wires, LED bricks, connecting boards)
- User Guide (physical or QR code for digital access)
- Original packaging box

★ NOT INCLUDE THE LEGO MODEL

SETUP AND INSTALLATION

Detailed installation instructions are provided to guide you through the process. You can access these instructions by scanning the QR code found in the product box. Two types of instructions are available: a PDF instruction manual and video instructions.

Important Considerations:

- **Power Source:** For power, prepare batteries or a power bank to drive the light kit. The voltage should be less than 5V to avoid burning the components. The kit requires 3 AA batteries (not included).
- **Wire Handling:** Please be careful when handling the wires; avoid over-pulling, bending, or over-shaking to prevent damage.
- **Testing:** Test all the lights to ensure they work correctly before final assembly.

Image: This diagram illustrates that both PDF and video instructions are available for installation, accessible by scanning a QR code. For a comprehensive guide, you can also refer to the official Installation Manual available as a PDFInstallation Manual (PDF).

OPERATING THE LIGHT KIT

Once installed, connect the light kit to a compatible power source (3 AA batteries or a power bank with less than 5V output). The lights will illuminate your LEGO model, creating a stunning display. The design ensures that various sections of the hotel, including the boutique, hotel entrance, and upper floors, are beautifully lit.

Your browser does not support the video tag.

MAINTENANCE

To ensure the longevity and optimal performance of your LED light kit, please follow these maintenance guidelines:

- **Cleaning:** Gently dust the LED components and wires with a soft, dry cloth. Avoid using liquid cleaners directly on the lights or electrical connections.
- **Storage:** If disassembling the light kit for storage, carefully coil wires and store components in a dry, cool place away from direct sunlight and extreme temperatures.
- **Battery Replacement:** Replace batteries promptly when lights dim to maintain consistent brightness. Ensure correct polarity when inserting new batteries.
- **Wire Integrity:** Periodically inspect wires for any signs of wear, fraying, or damage. Handle connections with care to prevent dislodgement.

TROUBLESHOOTING

If you encounter any issues with your light kit, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	<ul style="list-style-type: none">◦ Incorrect power source connection.◦ Dead or incorrectly inserted batteries.◦ Damaged wire or connector.	<ul style="list-style-type: none">◦ Ensure power source is properly connected and providing less than 5V.◦ Check battery orientation and replace if necessary.◦ Inspect all wires and connections for damage or loose contact.
Only some lights are working.	<ul style="list-style-type: none">◦ Loose connection to specific light or board.◦ Damaged individual LED or wire segment.	<ul style="list-style-type: none">◦ Verify all connections, especially those to the non-working lights.◦ If a specific light or wire is damaged, contact customer support for replacement.
Lights are dim or flickering.	<ul style="list-style-type: none">◦ Low battery power.◦ Insufficient power supply.	<ul style="list-style-type: none">◦ Replace batteries with fresh ones.◦ Ensure your power bank or adapter provides sufficient and stable power.

If these solutions do not resolve the issue, please contact our customer support.

SPECIFICATIONS

- **Product Dimensions:** 6.3 x 4.3 x 1.18 inches
- **Item Weight:** 6 ounces
- **Model Number:** LLK483
- **Manufacturer:** YEABRICKS
- **Recommended Age:** 6 years and up
- **Power Source:** 3 AA batteries required (not included)
- **Compatibility:** Specifically designed for LEGO 10297 Creator Expert Boutique Hotel building blocks model.
