

## Holiday Living 2 pc. Lighted Spiral Tree Set

# Generic Holiday Living 2 pc. Lighted Spiral Tree Set Instruction Manual

Model: Holiday Living 2 pc. Lighted Spiral Tree Set

## 1. INTRODUCTION

Thank you for choosing the Generic Holiday Living 2 pc. Lighted Spiral Tree Set. This manual provides essential information for the safe and effective setup, operation, and maintenance of your new lighted spiral trees. Please read these instructions thoroughly before use and retain them for future reference.

This set includes two spiral trees designed to enhance your outdoor holiday decor. Each tree features a unique spiral design pre-strung with bright lights, creating a festive display. The collapsible design ensures convenient storage after the holiday season.

- Set includes one 4ft tree with 150 lights and one 6ft tree with 300 lights.
- Designed for outdoor holiday decoration.
- Features a collapsible construction for easy storage.
- Equipped with a 5 ft lead wire for flexible placement.

## 2. IMPORTANT SAFETY INFORMATION

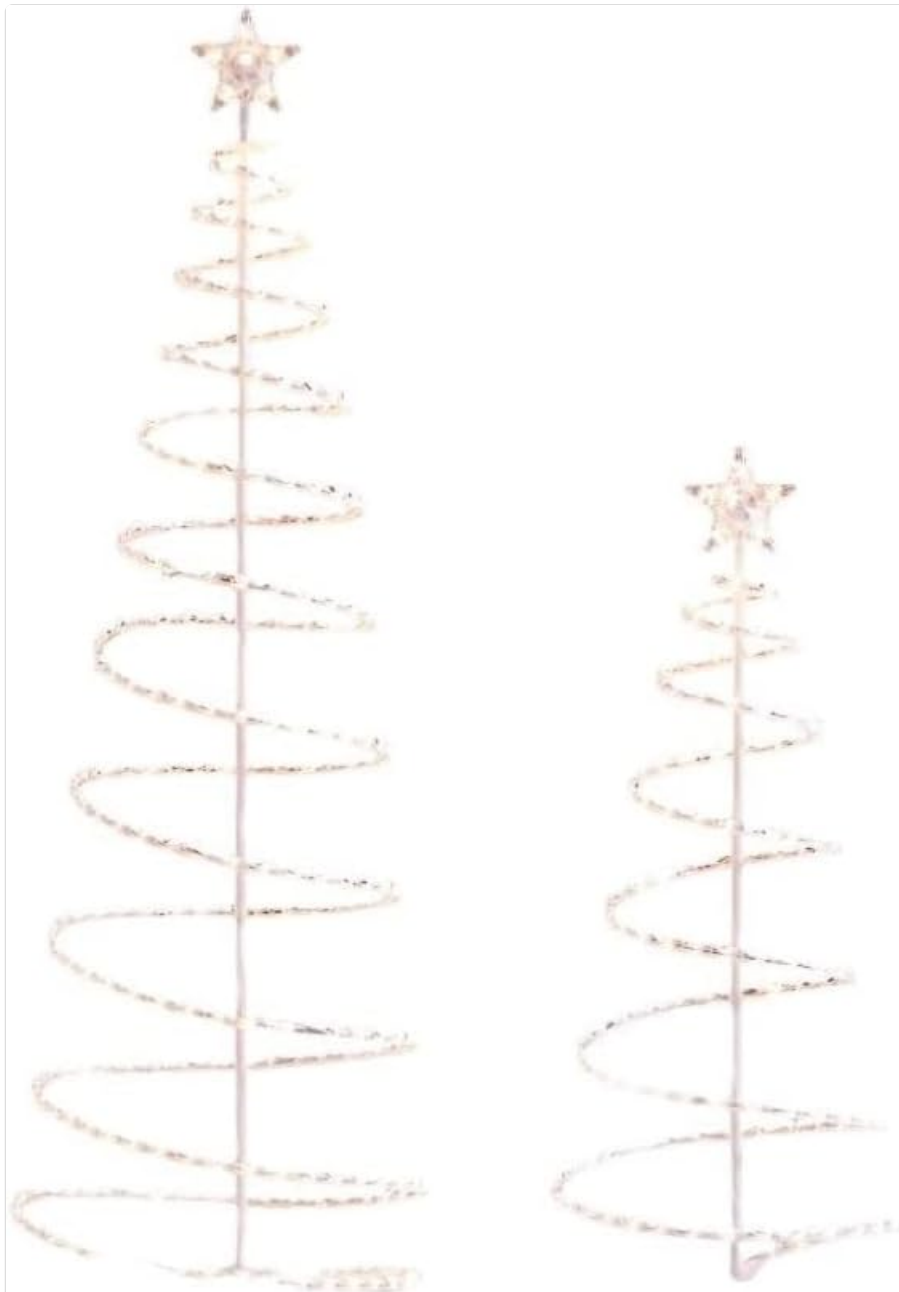

To ensure safe operation and prevent injury or damage, please observe the following safety precautions:

- **Outdoor Use Only:** This product is designed exclusively for outdoor use. Do not use indoors.
- **Unplug During Inclement Weather:** Always unplug the trees from the power source during strong winds, heavy rain, snow, or other severe weather conditions to prevent electrical hazards and damage.
- **Children's Safety:** Do not allow children to play on or near the display. This is not a toy.
- **Flammable Materials:** Keep the lighted spiral trees away from all flammable materials, including dry foliage, curtains, and other combustible items.
- **Power Cord:** Ensure the 5 ft lead wire is not pinched, cut, or damaged. Do not place heavy objects on the cord.
- **Electrical Connection:** Connect to a Ground Fault Circuit Interrupter (GFCI) protected outlet when used outdoors.
- **Assembly:** Ensure all parts are securely assembled before plugging in.

## 3. SETUP INSTRUCTIONS

Follow these steps to set up your Holiday Living Lighted Spiral Tree Set:

1. **Unpack Components:** Carefully remove all components from the packaging. You should have two spiral tree structures and their respective bases.
2. **Assemble Base:** Attach the base to the bottom of each spiral tree pole. Ensure it is stable and securely fastened.
3. **Expand Spiral:** Gently expand the spiral structure of each tree from its collapsed state. Work from the bottom upwards, ensuring the lights are not tangled or damaged during expansion.
4. **Position Trees:** Place the assembled trees in your desired outdoor location. Ensure the ground is level and stable to prevent tipping. Consider the 5 ft lead wire length when choosing a spot near an outdoor power outlet.
5. **Secure Trees (Optional):** For added stability, especially in windy conditions, you may use ground stakes (not included) through the base of the trees.
6. **Connect to Power:** Once the trees are securely positioned, plug the lead wire into a suitable outdoor, GFCI-protected electrical outlet.

*Image 1: The two spiral trees in their unlit state, showing their distinct heights and star toppers. The taller tree is approximately*

6 feet, and the shorter tree is approximately 4 feet.

## 4. OPERATING INSTRUCTIONS

---

Operating your lighted spiral trees is straightforward:

1. **Power On:** Once plugged into a live outlet, the lights on both spiral trees will illuminate.
2. **Power Off:** To turn off the lights, simply unplug the lead wire from the electrical outlet.
3. **Timer (Optional):** If you wish to use a timer, connect the trees to an outdoor-rated timer (not included) before plugging the timer into the GFCI-protected outlet. Follow the timer's instructions for programming.

*Image 2: The two spiral trees illuminated at night, positioned on an outdoor porch or pathway, demonstrating their festive glow. The taller tree is on the right, and the shorter tree is on the left, both casting a warm white light.*

## 5. MAINTENANCE AND STORAGE

---

Proper maintenance and storage will extend the life of your lighted spiral trees:

- **Cleaning:** Before storing, gently wipe down the trees with a soft, dry cloth to remove any dirt or debris. Do not use harsh chemicals or abrasive cleaners.
- **Light Bulb Replacement:** If a light bulb burns out, replace it promptly with a bulb of the same type and wattage to ensure proper operation of the remaining lights. Refer to the specifications for bulb type.
- **Storage:** The collapsible construction makes these trees easy to store. Carefully collapse the spiral structure of each tree and store them in their original packaging or a protective container in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cord Inspection:** Before each season's use, inspect the power cord for any cuts, fraying, or damage. Do not use if the cord is damaged.

## 6. TROUBLESHOOTING

If you encounter any issues with your lighted spiral trees, refer to the following common problems and solutions:

- **Lights Not Illuminating:**
  - Ensure the power cord is securely plugged into a functional GFCI-protected outlet.
  - Check if the outlet is receiving power by testing it with another appliance.
  - Inspect the entire length of the power cord for any damage.
  - Check for any loose or burnt-out bulbs. Replace as necessary.
- **Flickering Lights:**
  - Ensure all bulbs are tightly seated in their sockets.
  - Check for any loose connections in the wiring.
- **Tree Instability:**
  - Ensure the base is properly assembled and securely attached to the pole.
  - Place the tree on a flat, level surface.
  - Consider using ground stakes for additional stability, especially in windy areas.

## 7. PRODUCT SPECIFICATIONS

Feature	Detail
Product Name	Holiday Living 2 pc. Lighted Spiral Tree Set
Brand	Generic
Model	Holiday Living 2 pc. Lighted Spiral Tree Set
ASIN	B09R131R91
