1. **Step 1: Unpack and Identify Parts**

Carefully remove all components from the packaging. Lay them out on a clean, soft surface. Refer to the 'Package Contents' section to identify each part.

2. **Step 2: Assemble Side Frames**

Begin by attaching the horizontal support bars to the vertical posts of the Left Side Frame (Part A) and Right Side Frame (Part B) using the appropriate screws (Part J). Ensure the pre-drilled holes align correctly.

3. **Step 3: Attach Corner Shelf**

Connect the Corner Shelf (Part C) to the bottom sections of both the Left and Right Side Frames. This forms the L-shape base of the unit. Secure firmly with screws.

4. **Step 4: Install Side Shelves**

Place the Side Shelves (Part D) onto the designated support brackets on the Left Side Frame. Secure each shelf with screws.

5. **Step 5: Secure Hanging Rods**

Install the Long Hanging Rod (Part E) and the two Short Hanging Rods (Part F) into their respective positions on the frames. Ensure they are securely fastened to support clothing weight.

6. **Step 6: Attach X-Brace Reinforcement**

For added stability, attach the X-Brace Rods (Part G) to the back of the unit as shown in the diagram. These rods help prevent wobbling.

6. MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your Tribesigns L Shape Clothes Rack:

- **Cleaning:** Regularly wipe down metal and wood surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by wiping dry immediately.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong detergents, or solvents, as these can damage the finish of the metal and engineered wood.
- **Check Fasteners:** Periodically (e.g., every 3-6 months) check all screws and connections to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Weight Distribution:** Distribute weight evenly across shelves and hanging rods to prevent stress on the frame

and ensure stability.

- **Placement:** Avoid placing the rack in direct sunlight or near heat sources, which can cause the wood finish to fade or warp.
