# DELSEY PARIS Chatelet Air 2.0 Hardside Luggage Trunk Instruction Manual

Brand: DELSEY PARIS | Model: Chatelet Air 2.0 Trunk (40167681802)

Image: DELSEY PARIS Chatelet Air 2.0 Hardside Luggage Trunk, 26-inch, Navy color.

## 1. INTRODUCTION

The DELSEY PARIS Chatelet Air 2.0 Hardside Luggage Trunk is designed for durability and ease of travel. Constructed from virgin polycarbonate, it offers high resistance to temperature changes and impacts. This manual provides essential information for the setup, operation, maintenance, and specifications of your luggage.

## 2. KEY FEATURES

- **Lightweight Textured Polycarbonate Shell:** Extremely resilient to cracking or breaking, featuring stylish faux leather accents and additional corner protectors for enhanced durability.
- **Dual Density Spinner Wheels:** Double-spinner wheels provide a stable base and multi-directional rolling, ensuring effortless maneuverability with zero weight on your hand.

- **Recessed 3-Dial TSA Approved Combination Lock:** Integrated for security, this lock features a patented SECURITECH zip, which is three times more resistant to intrusion than conventional zippers.
- **SILVADUR Technology Lining:** The interior lining is treated with SILVADUR technology for effective odor control.
- **Ergonomic Handles:** Features an ergonomical handle for easy maneuverability and soft-grip side and top carrying handles.
- **Organized Interior:** Includes a laundry bag, shoe bag, and mesh zippered pockets for efficient organization.

Stylish and durable polycarbonate shell with vegan leather accents and corner protectors.

## 3. SETUP

### 3.1 Setting the TSA Combination Lock

Your luggage is equipped with a recessed 3-dial TSA-approved combination lock. The factory preset code is 0-0-0.

1. Set the dials to the factory preset code (0-0-0).
2. Locate the small reset button (usually a small hole) next to the dials. Use a pen or pointed object to press and hold this button.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set.
5. To lock, align your chosen combination and slide the button to engage the zippers. To unlock, enter your combination and slide the button.

*Note: Only TSA agents have a key to open the lock without the combination for inspection purposes.*

### 3.2 Extending the Telescopic Handle

To extend the telescopic handle, press the button located on the top of the handle and pull upwards. Release the button at your desired height. To retract, press the button and push the handle downwards until fully collapsed.

## 4. OPERATING INSTRUCTIONS

### 4.1 Packing Your Luggage

The Chatelet Air 2.0 Trunk features a deluxe interior designed for optimal organization:

- Utilize the main compartments for larger items.
- Secure your belongings using the internal compression straps to prevent shifting during transit.
- Place shoes in the provided shoe bag and dirty laundry in the laundry bag to keep them separate from clean items.
- Use the mesh zippered pockets for smaller accessories, toiletries, or documents.

## 4.2 Maneuvering Your Luggage

The dual-density double-spinner wheels allow for smooth 360-degree rotation. You can push, pull, or roll the luggage alongside you with minimal effort. Use the top or side soft-grip handles for lifting when needed, such as placing it in an overhead bin or on a baggage carousel.

### 4.3 USB Charging Port (if applicable)

Some models may include an integrated USB port. To use this feature, place your portable power bank (not included) in the designated internal pocket and connect it to the internal USB cable. You can then connect your device to the external USB port for charging.

## 5. MAINTENANCE

### 5.1 Cleaning the Exterior

The polycarbonate shell is designed for durability. For general cleaning, wipe the surface with a soft cloth dampened with mild soap and water. For stubborn scuffs or marks, a melamine foam eraser (e.g., Magic Eraser) can be effective, especially on lighter colored luggage. Always test any cleaning product on an inconspicuous area first.

### 5.2 Cleaning the Interior

The interior lining with SILVADUR technology helps control odors. To clean, wipe with a damp cloth and mild

soap. Allow to air dry completely before closing the luggage to prevent mildew.

5.3 Wheel and Handle Care

Regularly check the spinner wheels for any debris (hair, lint, etc.) that might hinder smooth rolling. Clean as necessary. Ensure the telescopic handle extends and retracts smoothly. If it becomes stiff, a small amount of silicone lubricant can be applied to the extending rods.

6. TROUBLESHOOTING

6.1 Combination Lock Issues

If you forget your combination or the lock is not working, refer to section 3.1 for instructions on resetting the lock. Ensure the dials are correctly aligned with your chosen numbers.

6.2 Stiff or Damaged Wheels

If wheels are not rolling smoothly, check for trapped debris and remove it. If a wheel is damaged, contact customer support for assistance. Avoid excessive force on the wheels, especially on rough terrain.

6.3 Zipper Malfunction

The SECURITECH zip is designed for durability. If a zipper becomes stiff, apply a small amount of zipper lubricant or wax. Avoid forcing the zipper, as this can cause damage. If the zipper is broken, contact customer support.

7. SPECIFICATIONS

| Attribute            | Detail                                               |
|----------------------|------------------------------------------------------|
