## MAINTENANCE

To clean your mDesign storage bins, wash them by hand with mild soap and water. Avoid using abrasive cleaners or scrubbers, as these can scratch the plastic surface. The bins are not dishwasher safe. Air dry or wipe with a soft cloth.

## TROUBLESHOOTING

### Bins are stuck together:

If multiple bins are nested tightly and difficult to separate, gently twist them while pulling apart. Avoid excessive force to prevent damage. Running warm water over the exterior bin for a short period may also help.
