PAWHITS GS-W30A0933

PAWHITS 30W USB C Charger User Manual

Model: GS-W30A0933

INTRODUCTION

Thank you for choosing the PAWHITS 30W USB C Charger. This compact and powerful charger is designed to provide efficient and safe charging for a wide range of devices, including smartphones, tablets, and laptops. Featuring both a USB-C Power Delivery 3.0 port and a standard USB Quick Charge 3.0 port, it delivers up to 30W of power to quickly recharge your devices.

This manual provides essential information on setting up, operating, maintaining, and troubleshooting your charger to ensure optimal performance and longevity.

SETUP

Setting up your PAWHITS 30W USB C Charger is straightforward. Follow these steps:

1. **Unpack the Charger:** Carefully remove the charger from its packaging. Ensure no components are missing or damaged.
2. **Locate a Power Outlet:** Find a standard wall power outlet (100-240V compatible).
3. **Plug in the Charger:** Insert the charger's prongs firmly into the power outlet.
4. **Connect Your Device:**
 - For USB-C devices (e.g., iPhone 13/14/15 Pro, iPad Pro, MacBook): Use a compatible USB-C to USB-C cable and connect it to the USB-C port on the charger.
 - For standard USB-A devices (e.g., older iPhones, Android phones): Use a compatible USB-A to device-specific cable and connect it to the USB-A port on the charger.
5. **Begin Charging:** Once connected, your device should begin charging automatically.

GaN 30W Fast Charger/PD&QC3.0

Use any one of the two ports for fast charging, and the USB-C port supports PD3.0 fast charging

OPERATING INSTRUCTIONS

The PAWHITS 30W USB C Charger is designed for efficient and safe charging. Here's how to operate it effectively:

Fast Charging Capabilities

- **USB-C Port (Power Delivery 3.0):** This port supports fast charging for compatible devices, delivering up to 30W. Ideal for quickly charging iPhones (13/14/15 Pro, etc.), iPads, and certain laptops that support USB-C PD.
- **USB-A Port (Quick Charge 3.0):** This port provides fast charging for devices compatible with Quick Charge 3.0, as well as standard charging for other USB-A devices. It also supports Huawei Super Fast Charging (FCP) and Samsung Adaptive Fast Charging (AFC) protocols.
- **Simultaneous Charging:** You can charge two devices simultaneously using both ports. The charger intelligently distributes power to optimize charging speed for each connected device.

Safety Features

The PAWHITS charger incorporates multiple protection mechanisms to ensure the safety of your devices and the charger itself:

- **Overcurrent Protection:** Prevents damage from excessive current flow.
- **Overvoltage Protection:** Safeguards against damage from voltage spikes.
- **Overtemperature Protection:** Automatically regulates temperature to prevent overheating.
- **Short Circuit Protection:** Protects against electrical shorts.

MAINTENANCE

To ensure the longevity and optimal performance of your PAWHITS 30W USB C Charger, follow these maintenance guidelines:

- **Keep Dry:** The charger is designed to be moisture-resistant, but it is not fully waterproof. *Do not use the charger near bathtubs, sinks, other water sources, or in damp basements.* Avoid exposing it to rain or excessive humidity.
- **Clean Gently:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Store Properly:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handle with Care:** Avoid dropping the charger or subjecting it to strong impacts, as this can damage internal components.

TROUBLESHOOTING

If you encounter issues with your PAWHITS 30W USB C Charger, refer to the following common troubleshooting tips:

- **Device Not Charging:**
 - Ensure the charger is firmly plugged into a working power outlet.
 - Verify that the charging cable is securely connected to both the charger and your device.
 - Try using a different charging cable to rule out a faulty cable.
 - Test the charger with a different device to confirm the charger is functioning.
- **Slow Charging:**
 - Ensure your device and cable support fast charging protocols (PD 3.0 for USB-C, QC 3.0 for USB-A).
 - If charging two devices simultaneously, the power output is shared, which might result in slightly slower charging for each device compared to charging a single device.
 - Check if your device's battery is extremely low; some devices charge slower when critically low.
- **Charger Overheating:**
 - It is normal for the charger to become warm during operation, especially during fast charging.
 - If the charger becomes excessively hot, disconnect it immediately. Ensure it is used in a well-ventilated area and not covered.
 - The charger has built-in overtemperature protection, which should prevent damage.
- **One Port Not Working (e.g., USB-A or USB-C):**
 - Try disconnecting and reconnecting the charger from the wall outlet.
 - Ensure the cable and device connected to the non-working port are functional.
 - If the issue persists, it may indicate a fault with the charger. Refer to the warranty information.

If these steps do not resolve your issue, please contact PAWHITS customer support for further assistance.

SPECIFICATIONS

Model Number	GS-W30A0933
Product Dimensions	8.2 x 4.4 x 2.7 cm (3.23 x 1.73 x 1.06 inches)
Product Weight	60g (2.12 ounces)

Color	White
Shell Material	PC Fireproof Material / Frosted Fireproof Shell
Input Voltage	100-240V (Universal)
Total USB Ports	2 (1x USB-C, 1x USB-A)
USB-C Output	Power Delivery 3.0 (PD 3.0)
USB-A Output	Quick Charge 3.0 (QC 3.0)
Max Power Output	30W
Certifications	CE, ROHS
Compatible Devices	iPhone 16/15 Pro/14 Mini/ 13/12 Pro/ 12 Pro Max/ 12 Mini/ 11 Pro/ 11 Pro Max/XR/X/XS/8 Plus, iPad Pro, iPad Mini 6, Redmi Note 10 Pro/ Note 9 Pro, Huawei, Samsung Galaxy A50/ A40/ A20e/ S10/ S10+, and other compatible smartphones, tablets, and laptops.
