SETUP AND ASSEMBLY

The ODK 63 inch Bar Table is designed for quick and easy assembly, typically taking less than 10 minutes. All parts are clearly labeled, and detailed instructions are provided.

Required Tools:

- Screwdriver (often included)

Assembly Steps:

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify and separate the tabletop sections, metal frame pieces, and hardware.
3. Attach the metal frame components to the tabletop sections using the provided hardware. Ensure all screws are aligned before tightening.
4. **Important:** Do not fully tighten screws until all components are loosely assembled. This allows for minor adjustments and prevents stripping screw holes or creating bulges in the tabletop.
5. Once all parts are in place, gradually tighten all screws securely.

- The tabletop is made from premium industrial wood, designed to be waterproof, non-slip, and scratch-resistant.
- To clean, wipe the surface with a soft, damp cloth. For stubborn stains, a mild soap solution can be used, followed by drying with a clean cloth.
- Avoid using harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the finish.
- Wipe up spills immediately to prevent watermarks or damage, despite its waterproof properties.
- While scratch-resistant, avoid dragging sharp or heavy objects across the surface to maintain its appearance.

Frame Care:

- The metal frame can be cleaned with a damp cloth. Dry thoroughly to prevent rust.
- Periodically check all screws and connections to ensure they remain tight. Retighten if necessary, but do not overtighten.
