Image: Detailed diagram illustrating the components of the COMZIO Y3 Hair Clipper, including the top blade, bottom blade, adjustable gear, ON/OFF switch, LED display, and indicators for power left, oiled reminder, and charging reminder.

- **High-Performance Motor:** Equipped with a powerful 6400 RPM rotary motor for smooth, snag-free cutting.
- **Precision Blades:** Durable 440C steel blades, adjustable from 0.5mm to 2.0mm for various hair lengths.
- **LED Digital Display:** Shows remaining battery percentage, charging status, and lubrication reminders.
- **Cordless Operation:** Offers up to 5 hours of running time on a 3-hour charge.
- **USB Charging:** Compatible with standard USB chargers (adapter not included).
- **Ergonomic Design:** Lightweight and comfortable for extended use.

SETUP

Charging the Clippers

POWERFUL PERFORMANCE

With a 6400 RPM motor featuring, you get blades that trim so fast they will cruise through the thickest lawn with ease

The hair trimmer's precise steel blades create clean, straight lines and evenly trim through the thickest hair without irritation

 Higher Speed
Higher Torque Motor

 Smooth Cutting

 Low Noise

Image: The COMZIO Y3 Hair Clipper being charged via a USB cable, illustrating compatibility with laptops, power banks, and phone chargers.

1. Before first use, fully charge the clippers for approximately 3 hours.
2. Connect the USB cable to the charging port on the clipper and to a USB power source (e.g., laptop, power bank, or a 5V phone charger). **Note:** The charging adapter is not included and should be below 5V for safe and efficient charging.
3. The LED display will indicate the charging status. A full charge provides up to 5 hours of running time.

Attaching Guide Combs

1. Ensure the clipper is turned off.
2. Select the desired guide comb (3mm, 6mm, 10mm, or 13mm).
3. Align the comb with the clipper blade and push it firmly until it clicks into place.
4. To remove, gently pull the comb away from the blade.

OPERATING INSTRUCTIONS

Before You Begin

- Ensure the blades are clean and oiled. Refer to the "Maintenance" section for oiling instructions.
- Drape the haircut cape around the user's neck to catch cut hair.
- Comb the hair to remove any tangles.

Adjusting Cutting Length

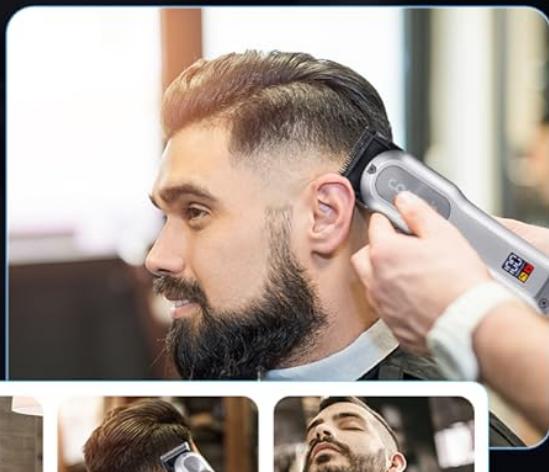

The thumb taper lever on the left side of the clipper allows for fine adjustment of the cutting length from 0.5mm to 2.0mm without a guide comb. Use this lever in conjunction with guide combs for precise styling.

Hair Cutting Techniques

HOME USE

PRO BARBERS

SELF-GROOMING

HAIR ART

BEARD LINING

Image: Examples of the COMZIO Y3 Hair Clipper being used for self-grooming at home, hair artistry, and beard lining by professional barbers.

1. Turn on the clipper using the ON/OFF switch.
2. For an even cut, always move the clipper against the direction of hair growth.
3. Use light, even pressure. Do not force the clipper through the hair.
4. Overlap strokes to ensure all hair is cut evenly.
5. Regularly check the LED display for battery level and lubrication reminders.
6. The clipper is suitable for cutting hair on the head, face, and body.

MAINTENANCE

Cleaning the Blades

1. After each use, turn off the clipper and remove any attached guide comb.
2. Use the provided cleaning brush to remove loose hair from the blades and the clipper body.
3. **Important:** The clippers are **NOT waterproof**. Do not wash directly with water or immerse in water.

Oiling the Blades

Image: The COMZIO Y3 Hair Clipper displayed alongside its accessories, including a bottle of blade oil, emphasizing the importance of lubrication.

Regular oiling is crucial for maintaining blade performance and longevity. The LED display will show an "Oiled Reminder" icon when lubrication is needed.

1. Apply a few drops of the included blade oil to the top and bottom blades.
2. Turn on the clipper for a few seconds to distribute the oil evenly.
3. Wipe off any excess oil with a clean cloth.
4. **Recommendation:** Oil blades before each use and occasionally during extended use. Keep blades oiled even during storage.

Storage

- Store the clipper in a cool, dry place, away from direct sunlight and moisture.
- Ensure the protection cap is placed over the blades when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Clippers not feeding through hair / pulling hair	Dull blades, dirt/hair buildup between blades, insufficient lubrication.	Clean blades thoroughly with the brush. Apply blade oil generously. If problem persists, blades may need replacement.
Clippers turn on for a few seconds then shut off	Insufficient lubrication, causing friction and motor shutdown.	Apply blade oil to the blades and operate the clipper for a few seconds to distribute. This often resolves the issue.
Clipper gets hot during use	Continuous use, lack of lubrication.	Ensure blades are well-oiled. Take short breaks during extended use. The clipper is designed to operate safely up to 122°F (50°C).
Clipper not charging	Faulty USB cable, incompatible charging adapter, dirty charging port.	Check USB cable for damage. Ensure charging adapter is 5V or below. Clean charging port gently.
