Enabot EBO EBO SE

Enabot EBO SE Home Security Camera User Manual

Model: EBO SE | Brand: Enabot EBO

1. Introduction

The Enabot EBO SE is an advanced 1080P indoor security camera designed for comprehensive home monitoring, particularly for pets, the elderly, and babies. Its unique movable design allows for 360-degree coverage of your home, ensuring no blind spots. Key features include automatic recharging, night vision, two-way communication, and local storage capabilities, all controllable via a dedicated mobile application.

2. Setup

Before first use, ensure your EBO SE is fully charged by placing it on its charging dock. The device will automatically return to the dock when its battery is low. To begin using your EBO SE, download the official ROLA App (not EBO Home App) from your device's app store. Follow the in-app instructions to create an account and pair your EBO SE with your Wi-Fi network by scanning the provided QR code.

3. Operating Instructions

3.1 Remote Control and Navigation

The EBO SE can be remotely controlled via the ROLA App, allowing you to navigate it through your home. Its wheeled design enables smooth movement across various floor types, providing a mobile perspective of your environment. The 360-degree coverage ensures you can monitor any area within its reach.

3.2 Video Monitoring and Night Vision

The EBO SE captures video in sharp 1080P resolution during the day. For low-light conditions, its enhanced night vision capability, utilizing infrared LEDs, provides clear black-and-white footage, ensuring continuous monitoring even in total darkness.

3.3 Two-Way Communication

Equipped with a built-in microphone and speaker, the EBO SE supports two-way communication. This feature allows you to have real-time conversations with family members or pets through the ROLA App, no matter where you are.

4. Maintenance

4.1 Automatic Recharge

The EBO SE features automatic recharge. When its battery level is low, the device will autonomously locate and return to its charging dock using infrared scanning technology. For optimal performance, ensure the area around the charging dock is clear of obstructions and reflective surfaces that might interfere with the recharging process.

4.2 Local Storage

The EBO SE supports local storage for recorded footage. It comes with 16GB of flash memory installed, which can be expanded up to 256GB using an SD card. Insert the SD card into the designated slot on the device for continuous recording and data retention.

5. Troubleshooting

5.1 Disconnection Issues

If you experience disconnection issues with your EBO SE, try the following steps:

- Switch to a different Wi-Fi network if available.
- Place the EBO SE closer to your Wi-Fi router to improve signal strength.
- Reset the device and attempt to reconnect through the ROLA App.
